Please don't forget the place and date. We'll open when you knock. Remember, too, to scurry home when the owl hoots 12 o'clock. Maple Grove, Oct. 31st. At eight o'clock the class met at the Parsonage and proceeded thence to the home of the host and hostess of the evening. The meeting opened with prayer by the Pastor, after which the business of the evening the organization of the class for the coming year, was proceeded with. Officers were elected as follows: President—W. E. Banks. Vice, Pres—K. M. Brooks. Secretary—Edison Burke. Treasurer—Miss Ena Morse. A number of Committees were ap-

pointed and other necessary business transacted. Then followed questions and answers on the Old and New Testament, the one giving the most correct answers being rewarded with a prize. After this part of the program the guests of the evening were treated to something in lighter vein—a number of Hallow E'en amusements were indulged in, consisting of Masquerades, gathering apples from the tree of Knowledge, opening the pie, catching doughnuts, seeing ghosts, etc. At a late hour refreshments were served. The evening entertainment closed with singing and cheers for the host and hostess and Mr. and Mrs. Wallace, the boys vigorously emphasizing the fact that the four named were "all right." For the evening's entertainment the preparation of which must have entailed considerable work on the part of the hostess, the thanks of the Class is extended.

Wallace, preached a very interesting Thanksgiving sermon Sunday afternoon and the anthems rendered by the choir were most appropriate. Mrs. Maurice Zwickler and daughter of Bear River and E. G. Dakin, of Acadia College, were the guests of Mr. and Mrs. W. E. Banks during the Thanksgiving holidays. Miss Harris, of Annapolis is visiting her sister, Mrs. John Jackson.

Port Wade

Carleton Nelly, of Kington, has sold a greater part of his property to Watson Anthony. Capt. Ansl Casey bought a very fine young Jersey cow at Digby a few days ago, and the "Port Wade" brought her over. All the surplus cattle of this place are being bought up by Granville farmers. F. F. Morrison has a gang of men and teams getting lumber in our vicinity. We understand Mr. Morrison has sold out his property at Thorne Cove and intends moving into his cottage here. Miss Lena Keane, of the Middleton Consolidated School, is home for a visit over Thanksgiving. Andrew and Edward Litch have purchased a power boat and are in pursuit of the shiners on their own hook. Port Wade, like many other places, has little or no use for a man whose only object in life is the getting to himself of dollars. If the X-rays were to be turned on his pocket, on the underside of a well-worn sovereign would be found engraved these words, "O thou in whose presence my soul takes delight" Mr. Morrison, engineer of the building of the ore-loading plant here, is about through with all the little details and men are discharged from further duty. The watchman is also laid off. There will be nothing more done until the steam ship comes to load ore.

Upper Granville

Mr. Henry Walker, who has been living in a cottage in Granville since the sale of his pleasantly situated farm, will shortly move to Bridgetown, where he, with his worthy partner will reside in future, occupying this residence recently purchased by him from Mrs. John Sancton. The McKenzie farm and the house again changes occupants, having been leased for a time by Elias Mitchell, (colored) of Inglewood, who with his family will remove there during the first week in November. Farmers have been actively engaged in the final ingathering of the earth given us by a never-failing Providence. Let us not forget to render tribute to whom tribute is due. HIS STANDARD. A little son of strict parents, whose greatest joy had hitherto been the weekly prayer meeting, was taken by his nurse to the circus for the first time. When he got home he exclaimed: "Oh, mamma, if you ever went to a circus once, you'd never go to prayer meetings again."

OUR NEWEST WEST

(Continued from page 4.) enterprise and over zealousness of the town lots agent a few years ago. The principal places where our train stopped in this three hundred miles were Lanigan, Strathburg, Cupar, Abernethy, Estabrook and Lipton. These are all in Saskatchewan and are smart neat little country towns. Many other villages and country stations were passed that showed a good country trade. The farm buildings throughout this whole distance are much better than the new district west of Saskatoon, and the whole country seems to have got beyond the board shack era. At noon we reach the main C.P.R. line again, in Western Manitoba, one hundred miles west of Winnipeg and during the remainder of the day cross once more this fine portion of Manitoba referred to in an earlier letter. And now, dear Editor, my task is done. When I consented to give you readers a few impressions of my trip to the Pacific coast I had no idea they would occupy so many columns of your space and the only excuse I can offer for my "lengthiness" is the vastness and variedness of our great country, in resources and scenery, in incalculable possibilities, as yet scarcely thought of, or developed, and apparent everywhere. We have a great east and a great west. Our mineral and forest wealth our sea fisheries, our millions of acres of fertile prairies, our mountain grandeur, our great lakes, our mighty rivers and our fruitful valleys, combine to make a great heritage that cannot but enlarge our ideas of things Canadian, as we recall them, or better still pass through them. If I have aided your readers in any way to better understand the geography or resources of our land I feel amply repaid for these imperfect efforts. Sincerely yours, M. E. ARMSTRONG.

Crushed Coffee— what is it?

By a new process of crushing between steel rollers, instead of grinding, the skin, which remains in the eye of the bean after roasting, is separated from the kernel and removed by air suction, while the kernel is broken into small even grains. These grains when steeped, being free of the skin or chaff, settle quickly, leaving the liquid clear and bright, and give the true coffee flavor.

Estabrook's Red Rose crushed Coffee is as easy to make as Red Rose Tea. Directions are in each tin. It is strictly pure, not a particle of chicory or any other adulterant being used, and is packed in air-tight tins the same day it is roasted so to retain its full flavor, fragrance and strength.

THE HORTICULTURAL EXPERIMENT STATION.

(Kentville Advertiser) The need of this fruitful valley for a Horticultural Experiment Station has been long considered by the Fruit Growers. Now the formal taking over of a farm in the town of Kentville, by the Dominion Government marks the first epoch in accomplishing that purpose. Prof. Macoun, Dominion Horticulturist, Ottawa, and Principal Cumming, of Truro, arrived in Kentville on Wednesday. They were met at the station by members of the Kentville Board of Trade. Prof. Macoun came to look over the farm and take over from the Local Govern-

ment the part which should be considered necessary for the horticultural station. The upland and dyke were so chosen leaving the part in woodland for the Local Government, which will probably develop same in forestry as an adjunct to the Horticultural station. A committee composed of Messrs. Judge Chipman, Dr. Moore and R. S. Eaton, accompanied the government's representatives over the farm and all freely expressed the great possibilities for efficient work in the future. Principal Cumming returned to Truro yesterday morning and Prof. Macoun remained for the day to further investigate the farm and map out the work and changes which he proposes having done at as early a date as possible.
