

McGILL UNIVERSITY,

MONTREAL.

FACULTY OF MEDICINE

SUMMER SESSION—MAY 1st to JULY 21st, 1877.

The Medical Faculty established last year the first regular summer session, in which practical and demonstrative courses, and systematic clinical instruction were given. Forty students availed themselves of the advantages offered, and the diligence with which the classes were followed showed how much such practical teaching is appreciated.

The Faculty feels that the time is come, when the intermittent system, at present in vogue, of six months' work and six months' vacation, so prejudicial to the steady and continuous progress of the student, should be abandoned, and that at least nine months of each year should be spent in regular organized study. It is with this view that the summer session has been established, and the hope is here expressed, that all students will endeavour to take one or more of these extra sessions, the fees for which have been purposely placed so low as to be almost nominal.

As is only natural, the advantages offered by the city of Montreal, for the practical study of Medicine and Surgery are unequalled in the Dominion. In the wards of the General Hospital there are always, and more particularly in the summer months when navigation is open, a large collection of interesting medical and surgical cases. In the out-door-department, there is a daily attendance of between 75 and 100 patients, which afford excellent instruction in minor surgery, routine medical practice, and diseases of children. The Eye and Ear department lately established, will afford an opportunity of studying practically, under skilled direction, these important branches.

The attendance of the Medical officers is systematic and punctual.

At the University Lying-in Hospital, Obstetrical cases are furnished to the students in rotation.

The Faculty has much pleasure in announcing the following courses for the summer session of this year.

CLINICAL INSTRUCTION at bedside, in the Montreal General Hospital. Daily } DRS. DRAKE and MacCALLUM.
12.30-2.

A limited number of dresserships and clinical clerkships, may be obtained on application to the attending and out-door Physicians.

MINOR SURGERY.—Bandaging, application of splints, hæmostatics, catheterism, &c. }
Six demonstrations of operative surgery on the cadaver. Wednesdays 10 a.m.

system. Thorax and Abdomen. Hernia—inguinal and femoral. Surface markings. }
Triangles of neck. Bladder. Urethra. Perineum. Larynx, &c. Fridays 10 a.m.

ELECTRO-THERAPEUTICS.—Electricity, varieties of Batteries. Animal Electricity }
and Electro-Physiology. Electro-Diagnosis. The induced and constant current. }
Modes of application. Medical Diseases in which Electricity is useful. Electrolysis }
and Galvanic cautery. Saturdays 10.30 a.m.

PRACTICAL PATHOLOGY.—Consisting of 20 demonstrations in the Autopsy room of }
the Hospital. Students will make the post mortems in rotation and receive practical }
instruction in the manner of performing them and keeping records of their observa- }
tions. Bi-weekly, 1 p.m.

All students desirous of attending the above course will be expected to register their names with Prof. Craik, (Registrar of the Faculty,) on or before the 15th of May, 1877, and pay in advance a fee of \$10. The fees will be devoted to the improvement and extension of the Faculty's Library and Museum, to which students can always obtain access. Certificates of attendance on the various courses will be given.

The following special courses will be conducted during the summer, and may be taken by enregistered students.

PRACTICAL CHEMISTRY.—Including blow-pipe manipulations, qualitative analysis, }
toxicological investigations, &c. This course is the same as, and may be taken in }
lieu of, the sessional course during the winter. Fee \$12.00. Monday, Wednesday, }
Friday, 2-5 p.m.

PRACTICAL HISTOLOGY.—Normal and Pathological, a course of 24 lessons. Micro- }
scopes, reagents and material provided. Fee \$20. Tuesday, Thursday, and Satur- }
day, 2-5 p.m. Extra hour for Laboratory work, Monday, Wednesday, and Friday, }
5-6 p.m.

For further information, or Catalogue, address,

G. E. FENWICK, Professor of Surgery.

D. C. MacCALLUM, Professor of Obstetrics and Diseases of Women.

GEO. ROSS, Professor of Clinical Medicine.

WM. GARDNER, Professor of Medical Jurisprudence.

F. BULLER, Lecturer on Ophthalmic Medicine & Surgery.

F. SHEPHERD, Demonstrator of Anatomy.

WM. GARDNER, Professor of Medical Jurisprudence.

WM. OSLER, Professor of Physiology and Pathology.

G. P. GIRDWOOD, Professor of Practical Chemistry.

WM. OSLER, Professor of Physiology and Pathology.

ROBERT CRAIK, M.D., Registrar, 2 Phillips Square.
