

# Mica . . . Boiler . . . Coverings

ALL Steam Users should see the **NEW MICA BOILER and PIPE COVERING.** It is FLEXIBLE, DURABLE and a MAGNIFICENT NON-CONDUCTOR OF HEAT.

Tested by Mechanical Experts of the Canadian Pacific Ry. Co., Grand Trunk Ry. Co., Michigan Central Ry. Co., Boiler Inspection and Insurance Co., and proved to be the **BEST OF ALL NON-CONDUCTORS**

Full Particulars, Reports of Trials, Prices, Testimonials, &c., from

**Mica Boiler Covering Co., Limited**

MONTREAL - WINNIPEG

9 Jordan Street, TORONTO, ONTARIO

To Architects, Sash Manufacturers, Builders and others.

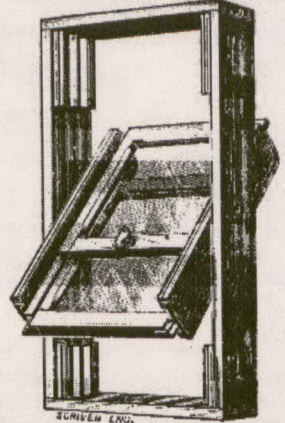

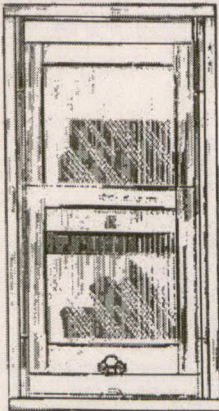

## DUVAL'S WEIGHTLESS REVERSIBLE WINDOW

### THESE SASHES

- Need no weights for raising or lowering.
- Remain where placed without supports.
- Can be reversed on pivot, so that the outside can be cleaned as easily as the inside.
- Permit better ventilation than ordinary windows—the whole window space if required, or space at top and bottom, or at the top only.
- Have simple, self-acting mechanism, not liable to get out of order like weights and cords.
- Are safer against burglary.
- Can be made by any sash manufacturer with his existing machinery, and fitted by any ordinary mechanic.
- Are far cheaper than weighted sashes.
- Are a little dearer than the ordinary weightless sash.

For Duval's sashes, or permission to manufacture them, apply to the patentees, where working models may also be seen, or further information obtained. County or mill rights will be granted; for terms apply to

**E. DUVAL & CO. (PATENTEES)** 403 James St. N. HAMILTON, ONT.
