Hydrographic Charting
Infrastructure Design
Inspection: Materials
Soil

Laboratories, Testing/Mobile And Fixed
Multi-Disciplinary Services
Natural Resource Management
Noise Control
Project Management Services
Public Works Engineering
Site Inspection
Water Pollution Control

Company/Product

Dessau is a consulting company which originated in 1957 with Desjardins + Sauriol & Associés. Today, with its sixteen specialist subsidiaries, the firm is in the leading ranks of Canadian engineering companies. It has a permanent staff of over 700 engineers, geotechnicians, hydrogeologists, geologists, economists, environmentalists, biologists, landscape architects, geographers, town planners, computer analysts, technicians, draftsmen, and technical assistants. Its diversified and competent staff provides a full range of services in nearly every field of engineering and the environment.

Dessau offers a full range of environmental services: integrated contaminant management, waste management, environmental monitoring, risk analysis and management, biophysical inventories, environmental impact studies of various infrastructures (roads, ports, airports, lines and stations, dams, and so forth), urban and environmental acoustics, wastewater management and treatment (purification plants and collection), drinking water management and treatment (filtration plants, pumping stations), oceanographic studies, hydrogeology, etc.

Current Geographic Marketing Activities

The globalization of markets and the emergence of huge engineering projects in many countries have led the firm's specialists to offer services on several continents. Dessau is currently operating in ten countries in Africa, Asia, and the West Indies. One of the group's subsidiaries, LVM ASIA, has just opened an office in Thailand. The firm has also begun to penetrate the market of the People's Republic of China.

Contact Sought

Dessau wishes to establish contacts with senior managers in the public or private sector, mainly in the areas of wastewater and drinking water management, transportation, and energy (production, transportation and distribution). Among target regions of particular note are South America, the United States, Mexico, Africa and Asia.
