

## ANNEX

- 1) It shall be permissible to use public roads and tracks only for traffic purposes. It shall not be permissible to use roads or tracks as bivouac sites or gun emplacements or to dig up the roadway or to use vegetation growing beside roads as camouflage material or to remove such vegetation.
- 2) The Federal highway (*Bundesautobahn*) shall not be entered; it shall be crossed only by existing Autobahn bridges or underpasses.
- 3) Federal road 3 (*Bundesstrasse 3*) shall be crossed by tracked vehicles running on their tracks during transit between Reinsehlen Camp and the area east of the road only at the points indicated on the map annexed to the Agreement. In so doing, the force shall ensure that public traffic is not endangered or obstructed more than is inevitable. In addition, tracked vehicles shall be transported on Federal road 3 only if loaded on transporters.
- 4) If any roads or tracks have been damaged or made dirty by vehicles of the force and traffic is thereby endangered, the force shall take any necessary safety measures and shall immediately inform the German authorities without prejudice to the action provided for in paragraph 3 of Article 4 of the Agreement.
- 5) It shall not be permissible to conduct tank navigation exercises by compass only.
- 6) No camouflage material shall be removed without the consent of the legally entitled person concerned.
- 7) No trees shall be felled.
- 8) Cut timber shall not be damaged or used for the construction of field fortifications or other purposes.
- 9) Where digging is carried out the top soil shall as far as possible be removed and piled in such a manner that it can be replaced as the upper layer when the diggings are filled in.
- 10) Firing with blank ammunition and the use of smoke-generating devices in the vicinity of villages, farm premises and public roads shall be prohibited.
- 11) Special precautionary measures shall be taken to prevent fires, particularly in wooded areas, near stacks of straw or hay or other highly combustible material.

These measures shall, in particular, include measures designed to prevent fires which might arise from the parking of motor vehicles near highly combustible material.

No signal lights shall be fired at villages, farm premises or barns or at stacks of hay or straw or other highly combustible material.
