FIGHT DON'T STARVE

Throughout the whole of Canada the unemployed workers organised into... National Unemployed Workers Association and under the Leadership of the Workers Unity League have been carrying on a bitter struggle for relief. These workers understand the meaning of the slogan "Fight Don't Starve". They see that only by fighting can they possibly get something more than the garbage that is generally handed out at "Jimmy the Pig's".

The boss class howl and squeal about the "Idle" demoralising and degrading the unemployed, it is not good for their morale, that it destroys their "Soul", but there is howl or squeal about the damnable conditions that the unemployed have live under, to beg and bun, to eat swill not fit for the pigs, to become loused in the flops of "Jimmy the Pig", condemned to misery and degradation. To give relief lessen the profits of the boss, hence the howl and squeal. To throw the whole of maintaining the unemployed onto the shoulders of the working class is the policy of the bosses as well as keeping the unemployed in a state of semi and chronic starvation.

This policy of belly robbing must be fought by the unemployed and employed both. Only with the Unity of the two sections of the working class can we expect to force the bosses to maintain the jobless workers. But the immediate fight is the fight for Relief. And the place to fight for that relief is not at the charity institutions but by the organising of unemployed. Demand that the City and Provincial Governments give the relief direct to the unemployed and not through the charity hogs who keep the meat and throw the swill to us. Fight for Non-Contributory Unemployment Insurance.

The Unemployed Council recently formed in Montreal intends to conduct and lead the fight of the unemployed. But the Council cannot fight without the backing of the unemployed. Back the demands of the Council to the City Council for immediate relief that is adequate and skillily. Let the City Council see that you have had enough of the slops and that intend to FIGHT NOT STARVE. Join the National Unemployed Workers Association.

Fellow Unemployed, FIGHT DON'T STARVE.

"GIDDY" ROBERTSON GETS
HOT RECEPTION

\$6,000 FOR SLOPS

"Giddy" Robertson, Minister of Slavery in the Bennett Government, yellow labor traitor received a hot reception in Winnipeg. He had toured the west in order to teach the local governments how to handle the unemployed. But he reced without the militant spirit of the Unemployed there. The results of the reception were that 14 policemen went to hospital and "Giddy" skedoodled, like a rat running for its hole.

"Jimmy the Pig" has received in the space of two months \$6,000 for the slops that he gives to the jobless. You unemployed know just how much of this \$6,000 you got.

We understand that there is a protest being entered against the name. The hogs are sending a delegation to the N.U.W.A. demanding that it be changed to "Jimmy the Sewage Expert" for preference. We have no objections.
