VALUABLE DISTILLERY

FOR SALE OR EXCHANGE.

The undersigned are instructed to offer that valuable property known as the

CODERICH DISTILLERY!

For Sale or Exchange for Productive City Property. This Distillery is situated at the Town of Goderich, convenient to the harbor and railway, was built about six years ago, and was then first-class in all its machinery and appointments. It was only run a short time, when, from the failure of its projectors, it was closed, and has so continued. It is therefore almost new, and at a trifling expense could be put in first-class running order. It has a daily capacity of 600 bushels, and pens for 300 head of cattle, &c. There are four Acres of Land attached, also Dwelling-house, and all necessary Outbuildings, pure water, &c.

The proprietor, in case of exchange, would not object to take property of the kind mentioned of greater value than the Distillery, paying the difference in cash, providing the excess does not exceed \$10,000. In case of sale liberal terms will be given. Immediate possession can be given. Apply to

GARROW, MEYER & RADENBURST,
Solicitors, Goderich.

FURNITURE.

I will sell for cash or short approved notes the following goods all elegantly and substantially made in Walnut, oil finished, at prices far below what the same class of goods can be imported for or procured at any town factory:

Bedroom Suites, Book Cases, Office Desks, Library Tables, Dining Tables (Extension), Morocco Dining Chairs, Cane-seat Dining Chairs, Easy and Reclining Chairs, Drawing-room Suites, Centre and Card Tables, Couches and Bed Lounges, Hair Mattresses, Spring Mats, Pillows, Bolsters, Large and small Sideboards, Rich Mantel Mirrors.

I will also continue to sell first-class Rosewood Pianos at the wholesale manufactured prices, which will be a saving of from \$75 to \$150 on the usual retail price. Apply to

PHOSPHATE OF LIME!

NEWELL'S PATENT UNIVERSAL GRINDER

The public is presented with a new mill which is designated as above. It can be adapted to a greater variety of purposes than any mill heretofore invented.

The following are a few results, substantiated by experiments, which illustrate its remarkable utility: I. Its General Capacity. This Grinder gives perfect satisfaction in the pulverization of Quartz, PHOSPHATES, Zinc, Bone, Brimstone, Chemicals, Oyster Shells, Horn, South Carolina Clay, Chalk, Cement, Cork, Corns and other Cereals, Coffee, Spices, Loaf Sugar, Mustard and Flax Seed. Also in the Grinding of planing shavings, for packing purposes and horse bedding, the pulverization of Roofs, Dye Woods, Tobacco, Rubber, Rope, Old Cloth, and the reduction of Wood to fibres suitable for use in the manufacture of Paper.

II. Its Special Adaptations. For grinding *Flax Seed* it has no rival. A great saving of time and labor is secured by grinding instead of mashing this article. Mustard Seed is also effectively ground to powder.

III. Superior Quality of the Product. The superior quality of the products of this mill is observed in the grinding of Corn and other kinds of Grain. The process does not heat the Flour or Meal, even if grinding at the rate of 200 bushels of Corn per hour. All danger of fermentation is thus avoided. Every kind of grain is perfectly pulverized without taking from the mill any particle of grit.

IV. The Saving of Power and of Time in the accomplishment of any one of the uses above mentioned are among the points in which the mill must inevitably hold the highest place in the esteem of all who witness its capacity. The following few facts explain what is now said. Quartz is ground to remarkable fineness at the rate of ten tons per day. So also the HARDEST OF THE PHOSPHATES. Corn can be ground for meal, using only one-tenth of the power, as rapidly as by the run of stone; so that the conclusion is clear, that the mill costs less and will do more, than any other mill yet invented.

V. Available Everywhere. Its usefulness to Farmers, and keepers of large stables is a fact noticed. It is so cheap and so easily portable that it can be brought into general use in Villages and on large Farms. It can be run with one-horse power, grinding twenty-five bushels of Corn for Horse-Feed per hour, and with four-horse power it will grind up to 200 bushels per hour. The grinding discs can be easily and cheaply replaced should they become worn. The weight of these machines varies from 200 to 800 pounds. They are very compact, requiring only a space three or four feet square, exclusive of apparatus for bolting. The frames are made either of wood or of iron. The price of these machines ranges from \$300 to \$400, subject to a 25c. to 50c. royalty for the use of them; the tariff whereof being regulated by the specific purpose to which the mills are applied.

A cordial invitation is extended to *Phosphate Companies and owners of Phosphate lands*, to all Millers, Quartz Crushers, Chemical Manufacturers, Farmers, and others who have any interest in such improvements, to call and see the machine and the samples of the materials ground at 19 St. Sacramento street, in the courtyard. Montreal, June, 1878.

Government Tenders.

NOTICE TO CONTRACTORS.

Sealed Tenders endorsed "Pickering Harbor Works," addressed to the undersigned, will be received at this office until Friday, the 23rd of August, at noon, for the cribwork for the extension of the West Pier of Pickering Harbor, and for Dredging.

Plans and specifications can be seen at this office; at the Custom House, Whitby; and the Post Office, Liverpool Market, on and after Wednesday, the 14th instant.

Tenders must be in strict accordance with the printed forms, otherwise they will not be taken into account.

The actual signatures of two responsible persons, residents of the Dominion, willing to become securities for the due fulfillment of the Contract, also are required.

This Department does not bind itself to accept the lowest or any Tender.

By order,

F. BRAUN,
Secretary.

DEPARTMENT OF PUBLIC WORKS,
Ottawa, August 7th, 1878.

CARILLON CANAL, DAM, &C.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the Secretary of Public Works and endorsed "Tenders for the Carillon Canal, Dam, &c.," will be received at this office until the arrival of the Eastern and Western mails, on THURSDAY, the 15th day of AUGUST next, for the construction of a Dam, completion of a Timber-slide and a Canal, with two Lift-locks, at, and in the vicinity of, Carillon Rapids.

Plans and specifications of the works can be seen at this office, and at the Resident Engineer's office, Carillon, on and after Friday, the 2nd day of August next, at either of which places printed forms of tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque for the sum of *Three Thousand Dollars* must accompany the Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

For the due fulfillment of the Contract, satisfactory security will be required by the deposit of money to the amount of *five per cent.* on the bulk sum of the contract; of which the sum sent in with the Tender will be considered a part.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become securities for the carrying out of these conditions, as well as for the due performance of the works embraced in the Contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By order,

F. BRAUN, Secretary.

DEPARTMENT OF PUBLIC WORKS,
Ottawa, 11th July, 1878.
