VETERINARY LEGE

Oct. 1st, 1915, on application. KANIE, V.S.M.Sc., Incipal.

TWO BOYS CAUGHT JEWELRY IS FOUND

Norman Cooper and Joseph Clark Alleged to Have Stolen From Store.

HIT BY A YARD ENGINE

B. Probkot, Austrian, Severely Injured When Struck in West Toronto.

Two youths, Norman Cooper, 15, 88 McGill street, and Joseph Clark, 16, 59 McGill street, had an early check-up when Acting Detective Ketter arrested them last night on a charge of breaking into an auction room owned by A. Taylor at 321 Yonge street and helping themselves to \$150 worth of jewelry.

The lads effected an entrance into the store from a rear door in the lane after forcing the lock, and helping themselves from a showcase. When searched all the jewelry was recovered, they having divided it between them.

Austrian Was Hurt. The C.P.R. tracks near West Toronto station yesterday afternoon B. Probkot, an Austrian, living at 46 Dundas street, was hit by a yard engine, and sustained several broken ribs, besides minor injuries.

He was removed to the Western Hospital. At a late hour last night his condition was reported favorable.

Leitch Goes to Trial. Archibald Leitch appeared before Colonel Denison yesterday and was committed for trial on a charge of murdering his wife.

The only evidence submitted was the verdict rendered by the jury at the inquest into the death of Mrs. Leitch, which stated that she died as a result of a kick, but that there was no apparent malice or intent in the act.

Colonel Denison said that he would leave the adjustment of the affair to the grand jury, and sent Leitch up for trial.

Threat of Murder. On a charge of threatened murder, Bernard Laster appeared in the police court yesterday. Aid. Louis M. Singer, the complainant, stated that he and Laster engaged in an argument about elections, with the result that the latter made the threat.

The case was adjourned and Laster released on \$1000 bail.

Cruelty to Animals. As a result of the investigations on the part of the police and the Humane Society, in their propaganda against cruelty to animals, 19 citizens appeared in the police court yesterday and a number of fines were imposed.

Have Another Theory. After examining over 100 motorcars in an effort to apprehend the murderer in the Kingston road case, which has been passed by the car, which they followed down the road, reaching the scene of the accident after the bodies were removed had been sequestered by the French Government.

The theory of the police is that the

Remarkable Experience Told by F. Gagnon. A Simple Way by Which Thin Men and Women Have Put on Healthy Flesh.

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work, I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days."

"When I began, to take Sargol," writes R. T. Sivilie, "my weight weighed 129 pounds. Now my weight has increased to 151 pounds. Everybody says that I am getting so fat."

"I never felt better in my life since I have been taking Sargol. The first two weeks I gained 10 pounds, and am gaining every day. Sargol makes me eat and sleep, and I don't get up with a tired feeling any more," writes J. C. Weaver, and N. D. Sanderson adds, "when I started Sargol I weighed 147 pounds, and now I weigh 160 pounds. Everybody is telling me 'how fat you have got in the last month.'"

When hundreds of men and women—and there are hundreds, with more coming every day—living in every nook and corner of this broad land, have voluntarily reported to weight increases ranging all the way from 10 to 35 pounds, given them by Sargol, you must admit, Mr. and Mrs. Sargol, that there must be something in this Sargol method of flesh building after all.

Hadn't you better look into it, just as thousands of others have done? Many thin folks say: "I'd give most anything to put on a little extra weight," but when someone suggests a way they exclaim, "Not a chance. Nothing will make me plump. I'm built to stay thin." Until you have tried Sargol, you do not and cannot know that this is true.

Sargol has put pounds of healthy, "meat" flesh on hundreds of weak, thin, and emaciated persons. You don't have to believe in Sargol to grow plump from its use. You just try it, and see if your weight doesn't pile up, follows vanish and your figure don't pile up to pleasing and normal proportions. You weigh yourself when you begin and again when you finish, and you let the scales tell the story.

Sargol is just a tiny, concentrated tablet. You take one with every meal, mix with the food you eat for the purpose of separating all of its flesh-producing ingredients. It prepares these fat-making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their blood is already rich and performs its functions without aid. But thin folks' assimilative organs usually do not. This fatty portion of their food now goes to waste through their bodies, like unburned coal through an open grate. A few days' trial of Sargol in your case should surely prove whether or not this is true of you. Isn't it worth trying?

AGE OF NAGS NO BARRIER TO SALE

Old, Broken-Winded and Balking Animals Sold for Good Prices.

AMOUNT WAS CHANGED

Price Increased After Money Was Paid—Rejected at First, Passed Later.

HALIFAX, Aug. 27.—Dr. Gough, the official veterinary for remounts, secured in this district last September, sold a three and a half year old horse to the government buyer and passed it himself. It was learned from his brother, John Gough, during his afternoon session of the Davidson war remounts commission. This horse fetched \$170. It was thoroughly broken, John Gough contended, the sometimes driven on a curb. The horse was never brought to the place where the military sales were taking place. As far as he knew, the government remount commission Counsel John Thompson, Gough denied that he still possessed the horse or that it was still in the country. It was shipped to Valcartier, with other remounts, he said.

A specific request for information about had remount horses or about the horse was made by Mr. Thompson. He had been questioning a witness, Harry Grant, of this city, as to whether he stated that "this horse business ought to be cleaned up." Grant would not swear that he made such a statement, and upon Mr. Thompson stating that he could produce a witness on this point, he said that he might have so spoken.

Mr. Thompson with some heat then remarked: "You can take until Monday morning to think it over. In the meantime if you know of the names of any persons who sold horses or who sold bad horses or of any crookedness give me the names. Don't go around after we are gone saying this thing requires cleaning up. Give the information to me and I will clean it up."

George Harvey said the Pender horse for which the remount buyer paid \$160, cost \$50 at an auction. It was a kicker.

The John Washington horse, sold by Killen for \$150, was bought at a sale for \$41 two months before, according to Mr. Washington. The latter got from Killen \$100. It was 15 years old.

Crosby's Evidence. A. B. Crosby, defeated Conservative candidate for one of the local seats in the federal election of 1911, recommended Dr. Gough for the position of official remount veterinary for this district. He told the Davidson War Remounts Commission this morning. Dr. Gough, who is at present in the western states, examined most of the horses, the purchase and examination of which were probed by the commission. Mr. Crosby said he had always considered Gough a reliable veterinary surgeon.

Harry Harris, Truro, was paid \$150 for a horse 11 or 12 years old, which he sold for a friend. He was allowed to keep all he over \$140. The horse was quite sound.

Leonard Johnston, Truro, swore he received \$165 for a year-old horse he sold for a friend.

The receipt for this drive \$170 as the price paid for it. Dr. Chalmers, the veterinary, had entered upon the card the other details of the horse, which was corroborated by the witness. The price had apparently been added by a different hand, witness claimed. He said he remembered \$165 being on the card when he signed it.

The animal sold by Harry Harris, Truro, to the remount agents was gone in the wind when driven hard. The sum of \$160 or \$165 was given for it.

Attempts made by Commission Counsel Thompson to establish the Moncton value of the horse were frustrated by the intricate system of traders by which he received it.

Chester Harris, Truro, confessed that one of the horses he sold for military purposes was faulty. For the best \$165 was allowed him.

F. C. Chalmers, Truro, submitted a horse to Dr. Chalmers as a remount and it was rejected because of its age. Later Mr. Foster asked him about the horse, and during the conversation Chalmers came along. After a second examination and consultation with the man who raised the horse, the veterinary passed him. The horse was really only nine years old. He got \$165 for it. Mr. Foster had nothing to do with the sale of the horse.

F. L. Sangster, representing Mr. Foster, asked the Truro witnesses for their opinion of the honesty of W. B. McKay, the remount buyer in King's County, who is a son of the late Senator McKay. All of them testified that McKay's character was excellent.

"A snappy old horse" aged 13 or more, was sold by D. M. Archibald, Truro, for the agent. The horse was the smallest of the price aroused Sir Charles Davidson's suspicions and he investigated more carefully than the horse's age, which witness stuck to around 13, and Mr. Thompson said he could call other evidence in regard to it.

"I merely asked the question to give the witness a chance to preserve his reputation in the community," said Sir Charles.

YOUTH ACCIDENTALLY SHOT WHEN HUNTING

Rupert Johnston of Athens Was Seriously Injured in Abdomen.

Special to The Toronto World.

ATHENS, Ont., Aug. 27.—A shooting accident occurred just outside the village of Athens, Ont., with Rupert Johnston, 18 years old, a son of D. L. Johnston, the victim. It seems a number of small boys went out hunting and were testing the exhibition in connection with the exhibition at the dis- where his aim had carried when one of his companions, Arthur Shaw, accidentally fired. The shot entered his abdomen and his condition is considered serious.

SETTLE FINANCIAL PROTECTORATE SOON

U. S. Treaty With Haiti Most Radical Step Ever Taken by Government.

WASHINGTON, Aug. 27.—State department officials announced today that there was every indication that the financial protectorate convention with Haiti would be ratified by the Haitian Congress within a few days. The statement was made upon advice received from U. S. Charge d'Affaires Davis at Port au Prince.

This financial protectorate goes considerably further than that which is now exercised over the government of Santo Domingo.

The treaty which the United States is seeking to negotiate with the Haitian Government is the most radical step ever taken by this government in the way of control of the Caribbean countries with the possible exception of the protectorate over Cuba.

Control Over Money. The proposed treaty with Haiti goes further in giving the United States control over Haiti's finances than does the convention under which the United States collects and supervises the customs receipts in Santo Domingo.

Under the Santo Domingo arrangement the United States retains merely a certain percentage of the receipts, which is set aside and used in the payment of Santo Domingo's foreign creditors. The balance of the receipts are turned over to the Santo Domingo government.

In the case of the treaty which the United States is now insisting that Haiti accept the agents of this government are to retain a measure of control not only over the money to be applied to Haiti's foreign creditors, but also over the funds that are used in the running of the Haitian Government.

WOMAN WAS SHREW REAL ESTATE INVESTOR

Mag Beamer, Canadian, Died in Buffalo Worth Three Hundred Thousand Dollars.

MRS. E. W. COX'S WILL FILED FOR PROBATE

Estate Valued at Nearly a Million Goes to Relatives and Near Friends.

Special to The Toronto World.

ST. CATHARINES, Aug. 27.—Identification of the woman who died in Buffalo, N.Y., Monday, worth \$300,000, and without known relatives, as "Mag Beamer" reveals the fact that she was a Canadian and was raised in Niagara Falls, having lived as a girl near Pont- hill and Beamsville. She ran the finest appointed cafe in Buffalo 40 years ago, which was the rendezvous for vessel owners and lake captains, and was known to all Canadian marine men. She was a shrewd investor in real estate.

Mrs. Jacob Wedemeyer today received a letter from the captain of the steamship Jacques of the Canada Steamship Company, at Sydney, C.B., confirming the report that her son William was washed overboard from the steamer while coasting on the Atlantic on July 19.

The ratepayers of St. Catharines will vote on Sept. 21 on a bylaw to grant a franchise to the Relief Natural Gas Company, a local concern, which will pipe gas from the new fields south of the city to the pipe system of the city-owned gas plant at 20c to 25c per 1000 feet, enabling the city to supply consumers at 35c per 1000. The only company supplying natural gas here, which has gone into the hands of American capitalists, charges 75c per 1000 feet and meter rental of 25c per month as well.

Over 15,000 farmers visited the Steel Truss Barn at the Toronto Exhibition last year, and this year the Manufacturers, the Metal Shingle and Siding Company of Preston will outfit themselves in an effort to make their display greater than ever before. This model Steel Truss Barn is situated just east of the poultry buildings and is fully equipped with all modern sanitary and labor-saving stable and barn fittings. The company has spared no expense in getting together the equipment for this display, and will have representatives on hand every day to show visitors the advantages of the barn and equipment.

GOOD THINGS SENT FULLY APPRECIATED

August 4, 1915.

Dear Mrs. Brock—I have now pleasure in advising you of the arrival of the two shipments of comforts for the men of this battalion, and the distribution has been made in accordance with your expressed wishes.

Again I wish to thank you and the members of the Royal Grenadiers Chapter, L.O.D.E. for the very generous gift you have sent us, and to assure you that the good things are fully appreciated.

Yours very truly,

R. Rennie, Lieut-Col.

Necessitates a Further Postponement of DISTRIBUTION DAY

Announcement Will Be Made in This Space When They Come.

We regret the disappointment to our readers who are anxious to obtain one of these very handsome sets, but trust they will bear with us, as the failure to make delivery is with the factory.

The demand for these thin-blown sterling silver decorated glasses has reached enormous proportions. Every woman of taste who desires something chaste and superior will want to own them.

Those of our readers who have sent in mail orders and have not yet received their set, are assured that they will be shipped from the first supply received. The World, 40 West Richmond Street, Toronto, or 15 East Main Street, Hamilton.
