

CORRECTIONS.

Referring to Bulletin No. 296 (Food and Medicines for Cattle) on page 13—the proteid value for Sample No. 2273 should be 7.10 per cent instead of 5.25 as printed.

The sample meets its guarantee.

Referring to Bulletin No. 290, page 29, Sample 54474, Coffee sold by Walsh Bros., Stratford.

The sample is reported as adulterated containing chicory and roasted grain. Upon re-examination the sample is found to contain less than two per cent (2 per cent) chicory and no roasted grain. The minute amount of chicory present may be regarded as accidental.

A corrected statement will appear in the next revision of Bulletin No. 290.
