Montreal, Jan. 30 .- (Special.) -The annual meeting of the shareholders of the Montreal Jockey Club, held here to-day, was an object lesson in international harmony. It was almost as smooth a meeting as ever was held, and not a proposition was laid

down during the afternoon that was not carried unanimously. When this club was formed and stock subscriptions invited from horsemen all over America, there were loubters who thought that the components would not mix well, that they would be President Anderson of the Brampton Curl-

Following out the second circuit plan, it was decided to hold the first race meeting in June, the new club filling in the gap between the close at Toronto and the opening at Kenilworth Park; Buffalo, the latter racing association having kindly decided to start two weeks later than last year, so as to give Montreal a chance. The exact date of opening will be named by the executive committee in a few days, It will be onday or Tuesday, and will not be less than 12 or 13 days in duration. During the meeting to-day the enthusiasm was intense. American visitors who spent the morning looking over the big racing plan were very and coling was the score:

The name of Kercheval, winner of the Burns Handicap on Saturday, appears in two places in the original entries published for the Brighton Handicap. In one instance he is entered as the property of W. V. Conran. It was in the latter's name that he ran on Saturday. His victory in the Burns Handicap did not please the form players, who assert that in his keing race at Los Angeles on Jan. 15 he did not display anything like the form which he did in the Burns. The peculiar feature of entry in the Brighton may restly in his disqualification.

As the steeplechaser Jenkinstown was winning a race at Manchester, Eng., cn Jan. 17, the public began to hiss and howl and cry out "Steward wanted!" "What about Wolverhampton?" Both the trainer and rider of the horse were assailed with epithets. The reason was that in his last previous race the horse was simply permitted to go over the course at a schoolings pace, the trainer asserting that he was an Lasfe jumper. The trainer had told the stewards what his instructions to the glocky were. The incident left a very bad in previous race was at public expenses.
