WE DO NOT CLAIM to be able to fit perfectly every man who comes into our store to buy clothing, without making alterations in some cases. This would be a human impossibility.

BUT WE DO CLAIM that we can properly clothe a larger majority of men from our stock than it is possible for any other house in Canada

Some years ago we adopted our present system of making clothing for symmetrically formed-longshort-thin-stout-large-and small sized men. By the use of these different shapes we can fit the majority of men perfectly. The small minority can be equally well fitted after necessary alterations have been made by our competent tailors.

Our \$10.00, \$12.00 and \$14.00 suits and overcoats are made of the most fashionable domestic and imported materials shown this season—and the linings and trimmings are equal to what custom tailors use in their best class of work

ANTI-COCAINE

We want to emphatically state that in our new anesthetic for the painless extraction of teeth we have an innovation that is a boon to all patients.

Cocaine, which is the most generally used local anesthetic, will render the patient senseless of pain, but the after effects of its use are nearly always more painful than the operation itself. Our new method employs no cocaine, and we positively agree to refund the money where any soreness or swelling of the gums is produced.

A convention of Filipinos is now in session at Cavite, considering whether the natives at large shall co-operate in that project or not. Attending it are some influential islanders, who fought with the Spaniards against Aguinaldo, but now have buried the hatchet and hope to see a native Government established. The others include active insurgent leaders, representative native civilians and half-breeds.

This convention probably will vote to send a delegation to Paris, but Aguinaldo is resolved to be represented before the peace commission anyhow. This native embassy, whether commissioned by the islanders at large, or by the insurgent chief, will certainly protest strenuously against a restoration of Spanish control. Aguinaldo says that personally he is favorable to the Americans, but his army is fighting for complete independence.
