The strongest proof of the value of Angier's Petroleum Emulsion in the treatment of Chronic Lung Affections and Consumption is the fact that it is

prescribed extensively by eminent lung specialists, and is used in large consumption hospitals. It restores appetite, improves digestion, assimilation and nutrition. Helps increase the weight, and a greater vitality and power of resisting disease is secured. It soothes and heals the pulmonary mucous membrane, and enables the lungs to repel disease germs and to withstands the harmful influence of adverse climatic conditions. Unlike cod-liver oil it is pleasant to take and agrees with the most delicate stomach. It has great power to relieve coughs, night sweats and diarrhoea.

INCIPIENT CONSUMPTION.—We take this occasion of recording another personal experience with Angier's Petroleum Emulsion which you may be interested in. Same was prescribed by one editor. Dr. Fisher, for one of the Century's staff last spring with unusually satisfactory results. The patient had taken a deep cold which settled upon the lungs, and there was already pronounced dulness in one lung when the Emulsion was prescribed. Within a few weeks the incipient trouble was all over through a strict adherence to Angier's.—Midical Century Pub. Co., New York.

CAUTION:—AMGIER'S is the original Petroleum Emulsion and is made with a special oil obtained from particular wells and carefully purified by our own process. Imitations made with ordinary petroleum cannot have the same effect, and besides being useless, many of them are dangerous for internal use. ANGIER'S Petroleum Emulsion costs a trife more than initations, but it is vastly superior and worth many times the price asked for it. It is for sale at all druggists. Two sizes, 50 ets. and \$1.00 a bottle. Send us your name and address and we will send you a valuable little book entitled, "About Your Throat and Lungs."

Lord Roberts Has Offered to Go Back to War.

His Wishes Will Be Granted Unless Something Decisive Takes Place Soon.

[By Wilberforce Hay.]

London, Oct. 29 .- It is now tacitly ackwhose grounds for asserting his claim to membership in the noble house of Hapsburg seem to be fairly well based, has been discovered occupying a humble station in life near Stoke Newington.

There is romance, if nothing else, in the Brodrick, Secretary of War, within a week. and may have something to do with the hurried return of the Marquis of Salisbury from the Continent at the time when it was 'expected he would remain away for

at least a month. "Bobs" wants to succeed Lord Kitchener, whose stock has been steadily falling for several months in the light of the meagre trickling out from the South. Friends of the Khartoum hero think it is time he

The people are becoming impatient, and are more strongly inclining every, day towards the statement by the Kitchener partisans that the field marshal's invasion of Pretoria was a smoothly-paved trip, and not a fight, and that upon Kitchener has fallen the brunt of the hardest fighting with the guerilla forces of the Boers.

Lord Roberts, whether rightfully or wrongfully, has been drawn into the Buller scandal. As I cabled you last week it is the accepted bellef that Lady Roberts had much to do with the disgrace of the former pride of the army and his retirement on half pay. Between the field marshal and the lieutenant-general for some reason there has been ill feeling for years, and now that sentiment in favor of the deposed man has been spreading, it is having its effect on "Bobs."

An illustration of this was shown last night in a music hall. The picture of the "scapegoat," as Buller is called, was thrown upon the canvas by a moving picture machine, and was greeted with cheers, The next picture was that of Lord Roberts, and, mingled with applause, there was a fair amount of hisses. Three months ago the display of a Roberts portrait in a music hall or a reference to him by a player was always sure to bring forth a tumult of applause.

There is also no doubt that Lord Kitchener is steadily going down in popular
