A BROKEN-DOWN SYSTEM. This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is supply weakness—a break-down, as it were, of the vital lorces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense, of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour— VITAL STRENGTH & ENERGY to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of THE NEW FRENCH REMEDY

This wonderful medicament is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement whose main features are those of debility, that will not be speedily and permanently overcome by this recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.
