NEW VARSITY SCHOOLS ARE FOR BOYS ONLY

And the Question Arises, Why Should Girls Be Deprived of Model Instruction ?

A circular containing a preliminary anouncement of the new university schools, which open for their first scssion on September 12, in the handsome buildings at Spadina and Bloor, has just been issued. A feature which has already caused some comment is the fact that both the sigmentary and high schools are for boys only, and some have been hear1 to express the criticism: "Don't the students in the faculty of education need to learn how to teach girls?" If the schools are so they ask, also, why should not girls be allowed to share in the

ys," the circular announces. "They admit boys of the upper elementary or public school grades and of all high school grades, or boys whose standing is equal to this." The courses are elective, the choice of subjects being determined mainly by the needs and future pursuits of the students.

A feature on which stress is laid is that the schools offer full preparation pass or honor for any college or professional school in Ontario. "In this the schools stand alone in the province. They form part of a series of institutions which will take a boy the elementary grades and carry in unbroken course until he issues with the highest honors of a modern university."

Another feature which is in sharp contrast with the conditions which ob tain in some of the Toronto public schools is that, with a view to co-ordination of interest between parent and teacher, the classes will be small and, as far as possible, the instruction individual. There will be three terms in the year. The fees are placed at \$15 a term for the elementary and \$20 for the high school grades.

GREAT DAY FOR YOUNGSTERS One of the Big Planks of His Platform-Hon. I. B. Lucas' Significant Remarks.

> One of the most significant speeches made during Mr. Borden's Ontario tour was that of Hon. I. B. Lucas

> Mr. Lucas is the junior member of the administration of Sir James Whitney, and before his admission to the cabinet had given some consideration to the question of telephone d ment, and introduced a resolution in the legislature, requesting the Do minion Government to turn over to the province the control of the trunk lines. The Laurier administration has refused on two occasions to even go this far in the matter of government ownership, and, consequently whole question has been thrown gone far towards finding a solution and Saskatchewan is following.
> Obviously with Mr. Borden's approval. Hon. Mr. Lucas made a direct reference to telephone development. His paragraph is worth repeating:

The im-mediate effect of such an act will be apparent to the rural telephone companies.
