Were Liquor Men Here Held Up For Money?

Serious Matter Brought To Attention of Commissioner Chandler by E. S. Carter—Pistol to Heads While Prohibition Was Under Consideration?

Fredericton (N. B.), July 22—A remarkable statement was made at the close of the proceedings in Royal Commissioner Chandler's court today when Liberal Organizer E. S. Carter asked the commissioner if he would investigate certain facts regarding the collection of large sums of money from brewers, hotels, and liquor dealers in St. John City and County while the legislature was in session and while important liquor legislation was under consideration.

MR. CARTER'S STATEMENT.

Mr. Carter read his statement to Commissioner Chandler. It was as follows:
"Mr. Commissioner: In subpoena to witnesses issued by you, I observe that your appointment as commissioner, under the great seal of the province authorized you to inquire into the operations of any or all departments of government. These include that of the provincial secretary from which all liquor licenses are issued.

"Would it, therefore, be within your jurisdiction to inquire into the fact that many of the licensees under the provincial government in the city and county of St. John, including brewers, wholesalers, hotel and tavern keepers, during the spring of the present year, while the legislature was in session, and while prohibition and important changes in the liquor law were under consideration, were called upon to pay, and did pay, large sums of money?"
"That these sums of money were not tendered voluntarily by those engaged in the liquor business, but were demanded by a man who is a well known Conservative and whom they understood represented the local government party."

"That these sums of money were requested in addition to the ordinary license fees which are paid into provincial treasuries?"
"That they were collected illegally and without warrant from licensees under government is, I think, the matter that should be inquired into by you, who are appointed a commissioner to investigate the operations of the government departments—as to why such moneys were demanded or requested, what disposition was made of them, and whether any part, or all of the amount, was used to influence liquor legislation."

"Should you decide, Mr. Commissioner, that these illegal payments, requested or demanded of government liquor licensees, are proper matters for investigation, I will lay charges before you formally, but before doing so I ask your assurance that in any investigation I or my counsel will be permitted to examine and cross-examine witnesses?"

WILL CONSIDER THE MATTER.

Commissioner Chandler received the document and said he would take it into consideration and give Mr. Carter his reply later.

It is noteworthy that Mr. Carter says the liquor dealers were "called upon to pay" and that the sums of money "were not tendered voluntarily."

During the last session of the legislature there was much activity on the part of one or two young lawyers of St. John around legislative buildings. Report then was that they were particularly well furnished with funds.

Since then Mr. Carter has evidently secured what evidence he needs, and Conservative organizers who collected the money will be called upon to explain why licensees under the government should be held up by political road-agents.

MORE DISCLOSURE ARE MADE BEFORE COMMISSIONER CHANDLER

Fredericton, N. B., July 22—Still more develops in the Chandler inquiry into public works matters.

There were many disclosures today and only a few of them can be touched upon. Supt. Robichaud told a hesitating roundabout story. He surprised everybody by wanting an interpreter, though he can speak English fluently.

Mr. Chandler pinned him down in earnest later in the day his good English was apparent. His most important evidence was that pay sheets were made out by Stewart, the member, and that he swore to them before the man who made them out; that Stewart told him to make additions to pay sheets, of which accounts he had no personal knowledge; that Stewart made out most of bills for material himself and got him to swear to them; that Stewart told him to put in the bill of Frazer Robinson for stones when he and witness knew it was false and wrong, and witness swore to the account sent in to the public works department with this knowledge; that Stewart made out account of Ed Jennings for 1908 for the same member—the same man all through—made out another bill for \$22.50 for Ed Jennings for lumber which had already been paid for by the government at another bridge which had been left over; that this account was paid twice over; that Stewart bought nearly 8,000 pieces of cedar for bridge construction two, three or four years ago, that he bought it by pieces, then made out bills himself to the department by superfluous feet; that he did not remember whether he gave the Jennings check to Stewart or Jennings; that another account of Ed Jennings for lumber on Inkerman bridge was excessive and witness knew nothing about it; that he swore to it by pieces, as made out by Stewart, though he did not think Jennings had anything to do with it.

Hot Questions.

Mr. Chandler pressed witness as to part Martin Robichaud played in his accounts, particularly with Caribou bridge.

"I don't remember," was the final refuge of the man giving evidence.

Commissioner Chandler—"When you made up these returns did you let Martin Robichaud put in what he liked?"

Witness was silent.

Commissioner—"Did you know anything about these accounts?"

Witness—"I had part of the information and the foreman the rest."

Commissioner—"And upon that you swear to this return. How do you know it is correct?"

Witness could not answer.

"What does Martin Robichaud make up these accounts for? What were you there for? What is the good of you?"

No answer.

"Who fixed the prices?"

"I don't know."

"Do you ever make any returns yourself?"

"No."

"Can't you do it?"

"No," said the witness at first and then added: "I can now."

There was much of the same sort all day. A. J. H. Stewart and Martin Robichaud two members for Gloucester sat and listened to the evidence. Secretary H. M. Blair of the public works department was an attentive listener and Hon. John Morrisey was present part of the time. Dr. Bourque of Kent was also part of the audience and Premier Clarke was present for a time. Messrs. Tilley and Slipp, M.P.s. were also in the adjoining room but did not attend the investigation.

Mr. Veniot had his evidence at his finger ends and nothing escaped his attention.

Commissioner Chandler gave him every chance to bring out his evidence and the manner in which he availed himself of
