G. C. CUTLER TALKS AT BOSTON ON EFFECT OF PIKE LAW REPEAL

Stetson, Cutler & Co. Out \$50,000 As Result of Provision in Fane Tariff Act—The Value of Lumber Shipped—Reciprocity the Remedy

(Special to Times)
 Boston, Mass., Aug. 9.—A serious blow to the lumber companies operating in Northern Maine, according to a member of the largest of these companies, is struck by a provision of the Payne tariff act repealing the so-called Pike law, which has just gone into effect.

G. C. Cutler of this city, member of Stetson, Cutler & Co., says that under the Pike law his firm has had saved at St. John and shipped to the United States no less than 40,000,000 feet of lumber a year. The duty on this would now be \$20,000, and there are other firms which will be similarly affected.

"It seems very unjust to me," said Mr. Cutler, "that at a time when a movement is under way to take off all lumber duties, this practice which has continued for half a century, should be brought to an end, and duty assessed on lumber made from American logs because it was saved in the most convenient and economical way, that is, at St. John."

Figures obtained at the U. S. consular office by the Times show that the total export of the product of American logs in 1910 amounted to \$605,462.89, divided as follows:—
 Laths..... 67,482.35
 Shingles..... 6,018.67
 Lumber..... 477,961.80
 Total..... \$605,462.89

Under reciprocity the had effect of this law, the working of which will materially result in thousands of dollars being taken out of the pockets of workmen of St. John, will be greatly relieved. The laths and shingles will go in at a much reduced rate, while the lumber in other forms goes in free.

FERRY STEAMER MAY BE USED TO MAKE HISTORICAL TRIP

Members of N. B. Historical Society Ask for "Governor Carleton" To Make Journey to Caton's Island for Unveiling Monument

It is possible that the trial trip of the new ferry steamer, "Governor Carleton" may not be taken down the bay, but on the contrary she may go through the falls and up river on an historical expedition, having on board not only the members of the common council and civic officials, but also the members of the New Brunswick Historical Society and their guests who have among others prominent representatives of the Natural History Society.

A communication was received this morning by Mayor Fink in which His Worship was asked as to whether or not such an outing would be possible and he replied that there might be an opportunity to bring the matter before the council at the special meeting to be held on Monday next.

It is planned by the N. B. Historical Society to go to Caton's Island on August 19 for the purpose of unveiling a monument to the memory of those pioneers who made the first white settlement on the St. John river dwelling at what was known as Emenetic Isle by the Indians and what was termed Caton's Island by the white settlers.

This is the three hundredth anniversary of the event, and the members of the Historical Society are preparing to commemorate it. No definite programme has yet been prepared, but it is expected that several well known speakers will be heard among them prominent representatives of the Acadians.

The island is situated in the river not far from Oak Point and it is felt that the ferry steamer on her trial trip might be used to convey the historians there to take part in the festivities.

MRS. MAJOR LOST HOME AND HUSBAND WITHIN ONE YEAR

Suffers From Monday's Fire, Widowed by Loss of Schooner Thetis With all Hands at Sea During Last Winter

Insurance to the extent of \$600 with the Atlas Assurance Co. was carried by Mrs. Ellen Major, of Woodside Road, West End who was burned out on Monday. Fate has dealt harshly with Mrs. Major as the burning of her home is her second misfortune of magnitude in less than a year.

Her husband, Albert Major, was steward on the ill-fated schooner Thetis which left Dorchester, N. B., for Philadelphia last winter, and has never been heard of since. The big, three-masted vessel was owned by P. W. Sumner, of Moncton, and had a cargo of plaster and lumber. It is presumed that she was caught in one of the series of terrific storms that raged during last winter and foundered with all on board.

The Great Sale Still Gaining in Force And Favor as The Bargains Are Becoming Better Known

This is truly the banner bargain event of all our previous special efforts. But there is every reason evident for the great success of this mighty movement.

Never in our history were we compelled to dispose of such an enormous stock of fine seasonable goods at the end of any season, hence to protect our own interests for the future, and take no chances of carrying over any goods, we inaugurated this great clearance sale.

Before we attempted to offer this stock to the public, we realized what we were "up against." The volume of goods was so enormous that our only chance for clearance was at a tremendous sacrifice.

For good, sound business reasons, losses are sometimes advisable.

When this sale was announced, we stated that neither cost nor profit would be considered—we proved our statements by the crowds that are here continually.

And remember this sale is booked for 10 days only, therefore Saturday of this week will be the last day.

There are still hundreds of splendid bargains all through the store, but the earlier you take advantage, the stronger the variety—as stocks are rapidly moving out.
