THE GAPPEWEAUX SEASON is drawing to a close, and the prospects are now that the catch will be about the same as last year. The present week, which, it was exp-cted would have proved the best of the season, has turned out to be very slim, on account of the backward weather. Although some good fishing will no doubt be ab. some good fishing will, no doubt, be ob-tained, yet, still a large season's catch is not expected.—Sun.

How TO DEAL WITH A PAPER .--- If you receive a paper for which you have not sul scribed, do not take it for granted that it is paid for by come friend, unless you have good reason to think so. If you do not wish to become responsible for payment, just leave it in the Post Office, telling the postmaster that you refuse to receive it. It is then his duty to notify notes Pittsburg, Pa., National Bank; \$1 these steamers, and there will the publication of the publisher not to send it to your ad-

and wish to discontinue it, do not take it to the postmaster and tell him to send it back ; in nine cases out of ten you will fail to stop it in this way. Do not attempt to return it yourself, and write on the wrapper to discontinue; this is against the law, and lays you open to a fine. Pefore your subscription expires, send to the editor a postal card, saying your subscription expires on such a date; please discontinue at that time. Sign your name, also the Post Office address to which your paper has been going. If the paper has been sent two weeks or more over the time for which it was paid, don't send a postal card; it will do no good ; rather write a letter and inclose what is due for arrearages always allowing that one number will be sent before the letter reaches the publisher and his list is corrected. By observing John Bell, J. O. Carmichael, Geo. Cassady, James Desmond, Mrs. A. Smiley, Mrs. G. L. Johnsto these simple rules, your requests will always be promptly attended to. Bathurst Notes. May 18th 1880. SCHOOL INSPECTION :- Inspector Valen-tine A. Landry has been in town during the past week inspecting the Schools. He spent upwards of a day in the Grammar School and expressed himself as highly satisfied with the character of the work done. He also expressed great dissatisfaction with the schoolroom; apparatus and furniture, and we think not without cause. This is, probably, the only shiretown in New Brunswick which has not a proper school house with suitable apparatus and furniture. Why this should be so we cannot tell. One thing is certain ; it is not because we are insufficiently taxed. SPORTS :-- Base Ball appears to have come out as the ruling game here this season, Two clubs have been formed, "The Grammar School B. B. Club" organ. ized by the boys of the Grammar School and the "Evening Star B. B. Club" composed of young men of the town. The former have received a challenge from the latter to play a game on the Queen's Birthday which they have accepted. THE LUMBER :- Notwithstanding the heavy rains of last week, the streams are now lower than ever owing, no doubt, to the cold weather we have had since. A RIDICULOUS RUMOR, to the effect that some of our lumber merchants had ad-vertised abroad for men to work in the mills and on ships, was started in town this week by some mischievous person. It is needless, perhaps, to say that there is no truth in the statement, as it is be-lieved there are sufficient men here now to do all the work that will offer. A GRAND DISPLAY of fancy goods, jewelry, watches, smoking goods, etc. is
