GOODYEAR
MADE IN CANADA
Fortified Tires
Run—Chain—by our No-Rim-Cut feature.
Blowouts—by our "On-Air" cure.
Loose Treads—by many rubber rivets.
Insecurity—by 126 braided piano wires.
Punctures and Skidding—by our double-thick All-Weather tread.

Suppose We Pared This Goodyear Fortified Tire

Suppose we pared the Goodyear All-Weather Tread. There still would be a full-blown tire left. For this famous tread is double-thick, and the "carcass" beneath is made extra-strong to support it.

That's what men mean when they tell you that Goodyears are built in perfect balance. For what is the good of a heavy tread that you have to discard when the tire beneath gives out prematurely? This fault, in many rival tires, is avoided in Goodyear construction.

Goodyears Rule Because—
Five vital features have put these tires on top in four short years. But these five features we control. And no rival has them:

Goodyear's All-Weather Tread—now double-thick, with deep-cut, close-set, sharp-edged blocks. They grip where average tires slip. They minimize punctures and multiply mileage.

Goodyear's No-Rim-Cut Feature—that fortifies against rim-cutting in the best way science has discovered. This patented method, though widely copied, has never been equaled.

Goodyear's "On-Air" Cure—that protects against blowouts. We give each tire this second cure on bags of air. The air, super-heated, expands and "irons out" any wrinkle the fabric may contain.

No other tire maker goes to this expense. So wrinkled fabric in rival tires causes blowouts.

Goodyear's Rubber Rivets—hundreds of them vulcanized between the tread and "carcass." The exclusive use of this method cost \$50,000. It reduces loose tread risk by 60 per cent.

Goodyear's Braided Wire Tape—six flat bands of 126 braided piano wires in the beads of Goodyear tires. They make it impossible to force the tire from the rim.

Prices Reduced
Yet despite these extra features—despite the war tax on every particle of raw material that goes into Goodyear Fortified Tires—

On February 15th we made a radical price reduction.
This was our third in less than two years, saving the user, in all, an average of 37 per cent.

This saving is due to the amazing demand for Goodyear tires that multiplied our output and cut our factory cost per tire. Last year alone men bought in Canada as many Goodyear tires as there were cars in the Dominion.

Join these contented motorists. Get our new price on your size from any dealer today.
