ANNOUNCING THE NEW SERIES

Overland
J.o.b. Toronto J.o.b. Toronto

This new Overland is the world's most powerful low-priced car.

It has a 31 1/2 horsepower motor that is a perfect marvel for speed, power and endurance.

By increasing the bore of the motor from 3 1/2 to 3 3/4, we are able to offer a power plant which at 1050 R.P.M. develops full 31 1/2 horsepower.

Tests under every condition in all parts of the Dominion demonstrate that it easily develops better than fifty miles per hour on the road.

Speed of course varies under different conditions, but is practically every instance it has been getting fifty miles an hour and with ease.

We have scores of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual.

The performance of this car is almost beyond belief.

Take any other low-priced car on the market. Put it against this new Overland. Compare them for speed, power, for abundance of power, for riding comfort.

What's more, it's complete. Not a thing to buy. You get the best Auto-Line.

From a driving standpoint, the new car is ideal. It's light, easy to handle and anyone can drive it.

Take one look and be convinced.

And mark these words—the car is designed to be regarded and referred to as one of the really great achievements of the great automobile industry.
