

# THE HERALD.

TUESDAY, JAN. 4TH, 1916.

PREMIER BORDEN has announced that the Dominion is to raise half a million men for active service.

THE Federal Government has passed an Order in Council retaining as a "nest egg" for them a considerable portion of the monthly pay of soldiers at the front who have not assigned their pay to relatives in Canada.

SPEAKING at the annual banquet of the Kingston Commercial Travellers' Association, Hon. I. B. Lucas, Provincial Attorney-General, stated that Ontario's contributions in money and kind since the war broke out totalled \$13,000,000.

## THE TEMPERANCE WAVE.

Toronto, Jan. 1.—Nineteen hundred and sixteen does not dawn under skies altogether black. It has always been said that war and social progress were incompatible and on general grounds this is undoubtedly true. In Canada, however, and particularly in Western Canada, war and social reform seem to have come together.

January, 1915, in Saskatchewan, for example, saw the liquor traffic still holding its place; 1916 sees the private sale of liquor in that province entirely abolished and only twenty-three Government-owned shops left.

January, 1915, in Alberta saw the liquor trade still powerful; January, 1916, sees it overwhelmed. It has been voted out of existence by the people, and the doors of every bar and shop will close on July 1st of this year, and after that date there also be no club licenses.

January, 1915, in Manitoba, saw the Roblin Government still entrenched; 1916 sees the Norris Government in power and pledged to the most far-reaching social reforms, including the early submission of a referendum on total prohibition.

During the past year in British Columbia the Liberal party under Mr. Brewster has taken on a new lease of life, and has also adopted a definite stand in favor of a referendum for total prohibition. It will be interesting to watch what the Bowser Government will do.

East of the Great Lakes the progress has not been quite so spectacular, but nevertheless, it has been real. Prince Edward Island already is dry. Nova Scotia is dry with the exception of Halifax. New Brunswick has only a little over one hundred retail licenses, and in Quebec more than three-fourths of the parishes are dry, and notable victories for temperance have been won during the past year, particularly in Lachine and Three Rivers.

The Ontario situation is improving steadily, and the results of Mr. Howell's campaign of education, combined with the world-wide opposition to the liquor traffic with the advent of the war, have had a strong influence. The year has seen the inauguration of the Central License Board, also the significant movement of the non-partisan Committee of One Hundred, which aims for an Ontario dry by the first of July.

Contraband rubber was seized on board the peace jenny "Oscar II."

The Marquis of Aberdeen addressed the Scientific Congress in Washington.

Great havoc on neutral shipping was done by the recent gale around Britain. The casualties of the British forces during the month of December totalled 18,549.

The Consuls of the Central Powers at Saloniki have been arrested by the French.

The British armored cruiser Natal has sunk after an explosion, and 300 men lost.

Frank Holder, a graduate of Queen's University, Kingston, was murdered in Haumond, Ind.

The Japanese Government will dispatch a squadron to the Suez Canal to protect shipping.

The Russian attack on Austria has resulted in the withdrawal of Teuton troops from Macedonia.

Sir Thomas White, Minister of Finance, says the present is likely to be the crucial year of the war.

The Austrians admit a retreat before superior Russian forces. The latter continue a strong offensive.

It is reported that Essad Pasha, with an army of 20,000 men, has declared war on Austria and Bulgaria.

Customs receipts for the month of December at the port of Toronto exceeded two millions, a new record.

The Canadian Government sent a New Year's gift of clothing to prisoners in Ruhleben Camp, Germany.

The Kaiser's condition is reported to be serious. Despatches from Switzerland say he underwent an operation.

France, to satisfy the needs of the army, has decided on a requisitioning of grade leather, beginning January 5.

Sir Robert Borden announced that from to-day Canada's authorized force would be 500,000 men, instead of 250,000.

P. A. McDonald, of Winnipeg, was appointed by the Manitoba Government Public Utilities Commissioner for the Province.

Francois Frechette was murdered outside his home at St. Cessaire, Que., and Polycarpe Paradis, nineteen years of age, found guilty by the Coroner's jury, is said to have confessed the deed.

## PREPARING FOR ATTACK.

Enemy Forces Are Threatening Allied Base at Salonika.

LONDON, Jan. 3.—There are signs of renewed activity in Macedonia, where it is reported unofficially that German and Austrian forces are gathering at Monastir, in South-western Serbia, near the Greek border. Conflicting reports are received concerning the intention of the Bulgarians, but Premier Radoslavoff is quoted as having said they would soon begin an advance into Greek territory to attack the French and British at Salonika.

Another despatch from Berlin, however, says that, according to the Bulgarian commander-in-chief, Gen. Jecoff, no decision on this point had been reached a week ago.

The Allies continue their expectant attitude toward a threatened attack, although Greece seems mainly occupied in making various diplomatic protests, having followed up her polite protest to the Entente against the arrest of the Consuls by an equally polite protest to the central powers against their aeroplanes flying across Greek territory in a raid which killed a Greek shepherd and a few sheep.

The Berlin Morgen Post publishes a report that orders have been given to the German and Austrian troops in Serbia to advance into Greece and attack the French and British. A Bucharest despatch to the Morgen Post credits this statement to the Outro of Sofia. It is said Germany has communicated to Greece her desire to clear Grecian territory of the Allied forces. The German Minister at Athens, the despatch says, told Premier Skouloudis the best interests of Greece demanded the removal of the French and British, inasmuch as in the existing circumstances Greece would be exposed to danger from the troops of the Central powers, which have been ordered to pursue the Allies on Greek territory.

## HYDRO-RADIALS POPULAR.

Toronto, London, Berlin, and Guelph Give Scheme Sweeping Majorities.

TORONTO, Jan. 3.—The Hydro-radial by-laws were carried by a sweeping majority of 15,385 in Toronto yesterday, and by substantial majorities in London, Berlin, and Guelph. In Toronto the vote was four to one in favor of the by-law. The verdict was three to one for the radicals in Guelph and in Berlin. Though the total vote was comparatively small the majority surpassed the expectations of the supporters. The vote in London was about 57 per cent. in favor. Curiously, the actual majority for the by-law in each of these cities was between 630 and 680. Though the majority for the by-law in London was substantial, 676, the vote was small when compared with the tremendous majorities in Toronto, Berlin, and Guelph. There were 2,765 votes for and 2,087 against. Although the vote in Berlin was comparatively small, there was a majority of 665 in favor of the by-law guaranteeing the bonds of the scheme to the amount of \$774,000. The large majority surpassed the fondest expectations of the most ardent supporter.

In Guelph it was expected the start that the by-law would carry, although there was considerable opposition to it. Sir Adam Beck's appearance here a week ago and his explanation in detail of the scheme did much to clear the air. The vote stood: For, 939; against, 307; majority for, 632.

Mimico and New Toronto also went into the fight for the system of Hydro-radials and came out overwhelmingly for the by-law in both municipalities.

**Catarhial Deafness Cannot be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhial deafness and that is by a constitutional remedy. Catarrh Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.  
We will give One Hundred Dollars for anyone who cures Catarrh Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75c.
