

the wall across the road from the guard room. I was about 25 or 30 feet from Cpl Price when I heard him say "Repeat that".

Cross Exam:

I'm sure Cpl Price said "repeat that" in words to that effect. I didn't hear him say anything before that. If he had called them to attention, I could have heard it, but I was not paying any attention. When I came out first the leading part of the line was straight and at the rear they were still falling in. Some were standing at attention and some were not. They were all one group.

The evidence is read over to the witness
 Third witness for the prosecution:

B-36902 Lt Cpl W. J. Conville, W. J. 4 CIRU.

On Oct 20, 43. I was employed as a R. P. at 4 CIRU. At about 1700 hours Oct 20, 43. Plt Sanders knocked on the guard room door & had a conversation with Sgt. Hawey. Sgt Hawey sent me to Cpl Price. I went to the door & saw the accused and Cpl. Price. The accused was hitting Cpl. Price ^{with his hands} with his hands. I grabbed the accused by the neck. We struggled, fell over the steps. The accused swung at me and grazed my face. I got up and the accused started towards the road and dared anyone to come and get him. Cpl Russell
