

maris Hotel these gentlemen were lunched by him, and then Professor BRASHEAR took them to Port Carling, where an Indian encampment was inspected.

The remainder of the party debarked at the Royal Muskoka Hotel. Ten of the party were taken in charge by Mr. Z. A. LASH, K.C., and whirled around the lakes in his motor launch, lunching at his hospitable summer home and having an opportunity to examine the rocks.

Two gentlemen were similarly looked after by Mr. JOHN PESHMAN, of Penman Isle; four by Mr. W. L. CLARK at his Lake Joseph island, and the remainder, with the exception of four, were taken by the leader on Mr. E. R. WOOD'S launch around Lakes Rosseau and Joseph. After luncheon at the Royal Muskoka Hotel an hour was devoted to the formations.

Professor BECK, C. J. F. SKOTTSMO, MARK HUNTER and Dr. HOWLEY stayed on the *Sagamo*, going on to Rosseau, where the two former had a short botanizing excursion.

The simple geology of the lakes was easily observed everywhere from the launches which sailed always among the beautiful islands of this region.

The *Sagamo* picked up all parties at various points and brought them back to Gravenhurst, whence the Grand Trunk landed them safely in Toronto at midnight on the tenth.
