

tion. Christ's hand and God's hand (see pattern chart 1) work automatically. The heavenly Chaldean bull as lead ox jerks his yoke mate; the sprinkler with the water pot to his knees and opens up the fish-signs windows of heaven. Noah's flood is poured out on the earth. God's tent cords of control are expanded. The earth recedes from the central sun of the Pleiades. The tropical climate about the north pole of the earth is the great catastrophe.

Teaching Christianity from Billy's mother and the heathen mother's assistance is the way to contract and expand Billy's theological setter and get Billy Peter's second pentecostal blessing. Billy's ball passed over his head and raced about, stopped going north, and yet went on the same road into the catcher's hands. Now you catch the idea? There is no east and west, north and south when material passes away. We are naked in God's spiritual realm everlasting. But while we live in this mechanical world we need to see a mechanical pattern that science cannot modify, because we use their own rejected cubical rock pattern in cube and triangle for the top stone and foundation. (See Nos. 6 and 4.) Higher critics object to Moses' tablets, and we use theirs.

Billy can preach a mechanical hell, and preach it scientifically too, when the heathens convert him by provoking him to good works.

Conclusions.

Isa. 52: 10. The Lord hath made bare his holy arm in the eyes of all the nations; and all the ends of the earth shall see the salvation of our God.

54: 2. Enlarge the place of thy tent and let them stretch forth the curtains of thy habitations. Spare not, lengthen thy cords and strengthen thy stakes, etc. etc.

We would have liked to give many more Scripture quotations like the above and notes to refer to history of the heavens and scientific works, had the Lord's titling box permitted.

To give a possible outline of radical changes that would take place by this mechanical revelation we will refer to a few theologies that it would radically affect.

The Presbyterian Thirty-nine Articles of Faith, like all other church creeds, are assailed by destructive critics. Mechanical revelations by the new school globe have sounded their death knell. They must now come out in the open and show why these patterns do not agree with the basic principles of the scientists. Give us a better pattern or go worship a god of control that is not large enough to make one. Thirty-nine or forty stripes save one is Paul's chastisement. "By his stripes were many healed."

Billy Sunday's Conversion by a Heathen Preacher.

Suppose Billy goes to our second picture show, where Isaac is offered on a Mexican heathen altar, as Abraham did. Then he sees the heathen islanders dancing with stripes around them that make them look like striped ghosts. Next picture show Jacob breeding Laban's cows with striped bulls, pictures emphasized in the water troughs by striped sticks. This water vision looking glass staring the two rivers of life represented by the cows two eyes, and the bulls too, form our four rivers of life that are represented in the pre-potent off-spring stripes the calves to Israel's satisfaction. The next picture would show Billy scared to death and
