

JUVENILE BOOKS.

"No man has a right to bring up his children without surrounding them with Books. It is a wrong to his family. He cheats them. Children learn to read by being in the presence of Books. The love of knowledge comes with reading, and grows upon it. And the love of knowledge in a young mind is almost a warrant against the inferior excitement of passions and vices."

All the following are illustrated, some of them very profusely, and by the first artists. We invite an inspection, as we believe no house in the city has so extensive a collection of Children's Books:
