It will KILL Wild Mustard

without injury to the growing grain, and without cost.

The cost to kill it the old way means the loss of season's crop for seven years, nearly the value of the farm.

The **SPRAMOTOR** will kill it, and the increase in the crop will pay for the machine and material each year. We guarantee it, or no pay.

It will do other things too. Write for our new booklet "A Gold Mine on Your Farm." It's free.
