

*"I'll have no
other Fence but* **PAGE**
So Says the Shrewd Farm Owner Every Time

BIG production—plus a selling method that eliminates all unnecessary expense and extra profit—these are the factors that bring down the cost of Page Fence. "From factory to farm"—that is our way—the proper way to buy fence, if you want low prices on fence of superior quality.

Twenty-five years' experience has brought our methods of manufacture to such a high standard that Page Fence now occupies a place of unquestioned leadership. If that were not so we would not be getting the preference from shrewd buyers—both large and small.

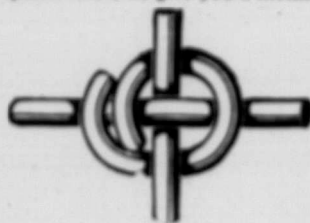

It is merit alone that wins praise such as "that bestowed on Page Fence by the Steele, Briggs Seed Co.,

who write: "We have used your fence on our property at Oakville with every satisfaction—and we would like to get more."

It is only a distinctly better fence that could earn from the Frankland Park Farm this statement: "After an inspection of different fencing, I decided to re-fence my 200 acre farm at Hornby with Page Fence—and I am thoroughly satisfied with the decision."

Outstanding quality in this product was the reason—Mr. A. E. Ames chose it for his farm—2000 feet of it; and he now writes that it is "Strong and thoroughly satisfactory."

By using only the best materials and weaving on looms so accurate that they ensure a rigid, tight-locked, evenly-spaced fence, we give you a lifetime of wear in every type of fence or gate we make. Every part is full size; the wires always full gauge, even to the locks.

These prices are the lowest at which you can secure good fence. Further advances in fence prices are a certainty—and we strongly advise you to buy now if you would take advantage of these quotations.

WRITE FOR CATALOGUE or send your order to us direct, enclosing cash, bank draft, express or money order. We will ship immediately.
