Lagonda Arch Tube Cleaner.

Lagonda Cleaner Removing Scale from Arch Tubes.

## LAGONDA ARCH TUBE CLEANERS

Scale forms in the Water Arch Tubes of Locomotives, and it must be removed, as Government Inspection requires that these tubes be absolutely clean.

The Lagonda Arch Tube Cleaner will remove these scale deposits easily and quickly. They are built for all sizes of tubes and can be driven by either water, air or steam. Send for Catalogue W-1 describing the construction and operation of these Cleaners.

Other Lagonda Boiler Room Specialties are described in our General Catalogue L-8. Send for Copy.
