

INVESTIGATE NEW T. B. CURE

Dr. LaFontaine Says No Sure Cure for Any Disease, Even Measles

Questioning by Dr. E. R. Baldwin of Saranac Lake, N.Y., recognized international authority on tuberculosis of the alleged "cure" for that disease discovered by Dr. E. W. LaFontaine, of Watertown, formerly of Brockville, has provoked the following statement by Dr. LaFontaine: "Dr. Baldwin has evidently misconstrued the substance of the interview which I gave," says Dr. LaFontaine. "In that interview I stated what I believed to be the true line of investigations that would bring the desired results in the treatment of tuberculosis and basing the facts on my own beliefs and investigations. "I stated that many cases of tuberculosis could be cured but made no mention of a "sure cure" for all cases. Physicians well know that there is no "sure cure" for any disease and if statistics are properly investigated it will be learned that many die every year from even measles. I further stated in the interview that the good results in tuberculosis have been obtained from good food, fresh air and proper hygienic conditions and that drugs as usually given by the mouth did much harm in the impairing of the already weakened digestive system.

Developed Great Appetite. "One very encouraging condition that developed in the patient taking the solution by the means of intravenous injection was that they usually developed a ravenous appetite. I intend to make further investigations along the same lines as I am working at present before I make my findings public. May I make a prophecy? If so, I believe that in a few years intravenous therapy will be a common mode used by physicians in giving drugs for many diseases. Results can be obtained much quicker and with better results than by administering through the mouth into the stomach. "The medical journals are now giving a great deal of attention to intravenous work and when physicians overcome the antipathy and fear in using this method it will become fairly common. During the past year, I have made hundreds of injections and have not yet met with one alarming symptom resulting from the effects of an injection. No more can be said in giving drugs by mouth as physicians know that alarming symptoms are sometimes met with."

He Suffered for a Year With His Back

NOW JOHN BOWERS SINGS THE PRAISES OF DODD'S KIDNEY PILLS.

Severn Bridge Man Looks on the Great Canadian Kidney Remedy, Dodd's Kidney Pills, as a Blessing Sent From Above.

Severn Bridge, Ont., March 7.—(Special)—Sincerely indeed is the tribute Mr. John J. W. Bowers, a well-known resident here, pays to the benefit he has received from the use of Dodd's Kidney Pills. "I had been suffering for a year with a bad back," Mr. Bowers states. "Sometimes I could not work with the pain. Six boxes of Dodd's Kidney Pills took the pain all out and I feel like a new man. "I highly recommend Dodd's Kidney Pills to anyone suffering with pains in the back and I say that the pills are a blessing from God sent into the world."

One of the earliest symptoms of kidney trouble is pain in the back. It is itself the cause of a great deal of suffering. But kidney trouble, unless given prompt attention, frequently develops into much more serious form such as urinary troubles, rheumatism, dropsy, jaundice, diabetes and heart disease. To be assured of good health the kidneys must be kept in good working order all the time. At the first sign of trouble use Dodd's Kidney Pills. Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

PRETTY GOOD FOR GERMAN IS THIS QUIP, EH, WHAT!

BERLIN, March 1.—The Zeitung Am Mittag, said it had been informed that the London conference was to be opened with religious services conducted by the Archbishop of Canterbury. The text of the Archbishop's sermon, the newspaper added, would be found in the Gospel of St. Matthew, fifth chapter, twenty-sixth verse.

The verse in St. Matthew referred to reads as follows: "Verily I say unto thee, thou shalt by no means come out thence till thou hast paid the uttermost farthing."

A Chicago woman fainted while washing clothes in a bathtub, fell face downward in the water and was drowned.

Three youths arrested at Canton, O., confessed to five hold-ups, four robberies, and theft of seven autos within two months.

Is the Married Woman a Slave?

"Do I seriously lay it down that the married woman of to-day is economically a slave? I do, in the majority of cases," writes Arnold Bennett. "And I add that this condition of hers colors the whole of marriage for her.

"Ask the young woman who gives up a salaried situation for husband whether she does not feel the shackles.

"Watch the demeanor of the married woman who has money of her own which her husband can not touch or will not touch. Watch the demeanor of the married woman who has no money of her own but who has had force enough to obtain control of her husband's money.

"Compare the demeanor of the majority of married women, and you will I hope admit the immense influence of economic in the entire field of matrimony. The two demeanors are so different—sometimes subtly, sometimes spectacularly—that almost at first sight you can say with confidence, "That woman controls money," or "That woman is an economic slave." And the bright beams of conjugal affection will not suffice to blind your judgment.

"The good husband, the generous husband who has read me so far protests here:

"But my wife has an ample allowance."

"Good and generous husband, I beg to direct your attention to that word which you have employed: 'Allowance.' The whole situation is implicit in that word. You 'allow.' You permit. You vouchsafe. You needn't; but you do. You have the right to withdraw what you grant. Indeed, the word demands serious examination. We will, however, pass the word and come to the fact.

"Many husbands will say: 'My wife has the spending of more money than I spend myself.' It may be true; it often is true. The house-keeping allowance may well easily exceed the husband's expenditure. But, as to the housekeeping allowance, the wife is only the husband's agent. She is an agent—though perhaps with a little more liberty to exercise initiative—as the husband's cashier at the office is agent for the petty cash. She allocates the money as she chooses (provided she can suit the husband's appetite) but she is obliged to spend it on housekeeping. If she 'saves on' the housekeeping and makes no secret of her economy, the chances are a hundred to one that the husband will reward her by saying, "You can manage with less."

"Hence it is that multitudinous wives do make a secret of the economies in housekeeping and enter upon careers of deceit. Trifling deceit. Excusable. Justifiable deceit. But deceit!"

RESTORE FINANCIAL FOOTING OF EUROPE

LONDON, March 7.—A plan to aid in the financial restoration of Europe by the formation of a large syndicate of banks and insurance companies is under consideration by government representatives and leading bankers and insurance men. Sir Robert Home, President of the Board of Trade, is conducting the negotiations for the government.

The proposal also has been taken up for discussion by the Federation of British Industries and by several Chambers of Commerce.

Receives Mons Star.

Brockville—Ernest Moulds, district manager of the Excelsior Life Insurance Co., received from the Imperial Government the Mons Star, which is awarded to those who served in France before Nov. 23, 1914. He sailed from Canada in August, 1914, after leaving Winnipeg and left Southampton for Zeebrugge where he landed in September, 1914.—He was among the last troops to land there before that port was captured by the Huns, and was in the retreat from Antwerp to Ypres. He was in Ypres before and after its destruction. Mr. Moulds was wounded and gassed in September, 1916, and discharged in November, 1920.

It will Prevent Ulcerated Throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of r. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

MOIRA RIVER'S ANNUAL SPREE

Footbridge Gangway Blocked Last Evening—Water Higher Than Predicted

Notwithstanding the mild winter, Belleville has had its annual spring flood for the year 1921. The break-up of ice in the Moira River occurred on Sunday evening; the earliest date for some years past. As usual there was an inconvenience to the public by the flooding of the footbridge gangway through which the water space of an hour last evening water flowed a foot deep.

Cellars on the east side in the vicinity of the footbridge were threatened but the element did not rise high enough to invade the floors. Ritchie's staff early last evening moved the last of their stock in the basement to safety and had scarcely completed the work when the water came in.

The head of the jam is now back of the new Citizen's Dairy where the ice remains piled up many feet above the level further down. The ice south of this is showing the effects of the pressure and will shortly break up.

The river north from near Pringle's mill is clear of ice beyond the city limits and no further ice was expected from the north.

Last year the ice broke up on Sunday afternoon, March 21st, causing damage up the river and blocking the crossing at the foot bridge and Bridge street.

In 1919 there was no flood. The year 1918 saw the biggest flood in a generation. It began on March 19th and lasted until March 26th, causing heavy loss to householders and merchants.
