Word has been received at Sydney line stmr. Arcola, Capt. Shaw, which went ashore on the southern coast of the island on the night of July 8th, has been abandoned by the underwriters. The storm of last week, which blew strongly from a southerly point, carried the steamer farther into the cove and is said to have caused other damage. According to some authorities the tank along the bottom of the ship was broken in places and this minimized the chance of saving her. The Arcola was abandoned by the owners to the underwriters a few days after she grounded and after a visit of the wrecking outfit of the Dominion Soal Co. Some hopes were entertained by the underwriters, however, that the steamer might be floated, but the recent storm has removed all hopes in
