FINE SCHOOL IS DESTROYED

Consolidated School Burned

MODEL STRUCTURE

ire Originated in the Basement - Cost About

\$25,000

The MacDonald Consolidated School uilding at Kingston was totally de royed by fire Sunday night, with all contents. The loss is approximately 2,000 with insurance of \$12,500, only ightly more than sufficient to cover If the damage.

bout ten o'clock last night fire was covered in the basement of the ool by a gentlema living a short tance away. As quickly as possible residents of the district were med and scores hurried to the with the intention of endeavorto extinguish the flames, or save at could possibly be taken out of school. They found, however, on ival that the fire had gained great adway, and that practically the ole of the interior of the school ilding was full of smoke and flames, idering it absolutely impossible for one to enter. Within an hour and half the entire building was in ns, but the fire continued to burn l early this morning. There was wind, yet, in spite of this, other idings in the vicinity were threat-, and it was with some difficulty the old English Church and the ory were saved. The people who nt to the scene succeeded in saving

actically nothing of the origin of fire is known. The janitor Geo. uhart, went to the school last ing and started a fire in one of furnaces, then went back to his rding house; it was some time afvards that the blaze which deyed the school was discovered, ing evidently originated near the ney in the basement.

Insursaid to have been \$25,000, was time carried with Upper Canacompanies by Prof. Robertson en the building was formally hander to the trustees of the different icts the insurance was also left heir charge, and it is understood that only some \$12,500 is carried, being held by non tariff companvith offices in St. John. It is also erstood that in the event of a deon the part of the trustees not chuild the school the insurance res to the MacDonald fund. Such an ome is, however, improbable, for trustees of the consolidated disare to hold a meeting this afon, and according to expressions it rebuilding.

IDEAS ACADEMIC

Hon. Mr. Fielding's Telling Reply - Vacancy on Railway Board

OTTAWA, Ont., March 15 .- The com mons today devoted a couple of hours listening to F. D. Monk elucidate a proposal for the adoption in the Cana dian parliament of the principle of proportional representation as now in der heavy bonds. The following day ogue in several European countries cording to this system successful candidates are selected in groups and minrity representation is insured in evdistrict. Mr. Monk made an exaustive analysis of the vote at the last general election with a view to emonstrating the fact that in equity the government had entirely too many supporters in the new parliament and the opposition entirely too few. His argument was of a somewhat academic nature, following along the line of numerous magazine articles on the sub-

Hon. Mr. Fielding for the government replied that the mother of parliaments in Great Britain had not yet seen the injustice of the present system of representation and the Canadian parliament could hardly be expected to accept without further investigation so radical a departure as that proposed by Mr. Monk. However, he said, the government was willing to accept part of Mr. Monk's resolution calling for the investigation of the whole question by a special commit-

A bill to amend the charter of the Canadian Life Insurance Company in regard to the distribution to policyholders of profits has also been -discussed. The charter given the company in 1875 provided that not more than one-tenth of the profits should go to the shareholders and nine-tenths should be divided among the policyholders. Some doubt as to the interpretation of the act has arisen and the matter is now before the courts. The present bill is ostensibly to make clear the contents of the act as was

of parliament. Major Sharpe declared that shareholders had not been given sufficient notice and urged that further action of the bill be deferred until next session.-Progress was reported .

In reply to a query, Hon. Mr. Fielding said the government had noted s reference in the press to a proposal for the establishment of a Steamshin line hotwoon Coneda and Germany. At the present juncture the government thought it impolitie to make any statement in regard to any negotiations which might be pending with Germany for the improvement commercial relations. Canada would, he said, give due consideration to any proposal which came from Germany. Hon. Mr. Brodeur stated that O. J. C. LeBlane was dismissed from the position of fishery overseer for the county of Kent, N. B., on account of

offensive partisanship. Mr. Monk, in moving his resolution quoted from figures given by the Toronto News to show that in the last election less than half of all the votes polled in Canada were given in favor Liberal candidates and vet the government was returned by a majority of almost fifty members. The News figures alleged that 776 more votes were polled for Conservative and Independent candidates than for Liberals. Mr. Monk said that with the aid of an expert he had gone over the figures of the popular vote and on the basis of the proportional representation from each province there would he 109.8 Liberals 105.1 Conservatives and 3 Independents in the house. Taking the Dominion as a whole there should be 110 Liberals 105.4 Conservatives and 4.6 Independents. He argued that today Canada was governed by parliament and executive which had been returned by a minority vote. His remedy for this was a grouping of constituencles and election of members according to gross proportionate vote in each group. This would broaden the

Fourteen Cases for Commis sioners The Present Week

HARTLAND, N. B., March 15-Fourteen cases to appear before Com-missioner L. P. Farris at Plaster Rock on Wednesday next form the result of last week's work on the part of Chief of G. T. P. Police Albion R. Foster. Accompanied by Joseph Pearson, a deputy officer, he went to Plaster Rock and made a clean sweep of the route. of the route between there and Grand Falls. There are a number of ordinary cases, such as have frequently come before the Commissioner and several that are unusual. On Thursday Chief Foster and his deputy were driving along the right of way and overtook two Italians driving a team loaded with liquor of various kinds which was being peddled to workmen along the day. Both men, the team and 'ts lords were promptly taken into custody and brought before Police Magistrate McQuarrie at his Plaster Rock irt. The men were allowed out un-Chief Foster started again for Grand Falls and on the journey over-hauled two Poles, each carrying a value full of bottles. They, too, were arrested with their travelling grogshop and are held under bail. On Friday night while at Plaster Rock, Mr. Foster was called by telephone to the abode of Mrs. Adams, whose place of residence of the Wapske is well known. There he found one of a colony of Montenegrans, called "Joe," had created a disturbance of a serious nature. He had became enamoured of Mrs. Adams'

both the girl and himself if she did not consent to marry him. There were a number of men within easy call and Joe was overpowered and dispossessed of the weapon and two boxes of cartridges. Chief Foster arrested the man, took possession of the weapons and returned to Plaster Rock. The man from Montenegro was let go under heavy bonds. OTTAWA Ont. March 15 - The deputy Minister of Railways, M. J. Butler, states that the department of railways has heard nothing of the frauds in regard to the weighing of freight which were reported in the disvatches from Montreal yesterday. White there may have been an occa-

sional incorrect return of weight owing to the error of an employe or to something worse than error, Mr. Butler is of the opinion that there will be no extensive fraud disclosed. The weighing system is a carefuly devised one. Cars have to be weighed in the presence of three men, most of the scales print an automatic record of the weight and every car weighed is liable to be weighed again at some other point. Extensive dishonesty would therefore require collusion be tween several employes, who would have to face the difficulty of an automatically recorded weight and the certainty of being eventually detected through the cars being weighed at

some other point. In conversation with The Sun last night, General Manager Pottinger of the I. C. R. stated that he had heard homing of the charges beaer than had appeared in the papers of yesterday He declined to state whether or not he considered the charges to have any basis in fact, but thought that they had been considerably exaggerated.

Bludso's Remarkable Career in Crime

Rounded Up by Police After Shooting Man on St. John Express

CONCORD, N. H., Mar. 15 .- Clearing up the mystery which has sur-rounded his identity since he was sentenced to the state prison here for life, two years ago and accompanying the confession by a revelation of a life of erime which has comprised desperate deeds from one side of the continent to the other and from Canada to Texas, John Doe, sentenced for life for the killing of Guiseppe Guianci at Newmarket Junction, in 1996, during an attempt to escape after the robbery of the Luddy Currier shoe factory in Dover, has disclosed to Warden Scott that his real name is James Bludso. and that he was born in Sarnia, Ont.

On February 10, 1906, the safe at the Luddy Currier shoe factory in Dover was blown. The payroll usually deposited in the office, was not in the safe at the time, however, and the burglars secured little money. conference that the agitation being carried on by the U. M. A. to gain control of labor at various mines was fraught with much danger to the coal trade and likely to result in the los of a large part of our trade to Americans. The operators decided that the progress of foreign organization should be resisted in every way, and a course of action was decided upon. This action of the coal operators was somewhat foreshadowed by the action of the Dominion Coal Co. in declinging to recognize the United Mine Workers, and means that it will be war to the knife betwen the mine owners and that organization. For over a year now the struggle between the P. W. A. and the U. M. W. has been acute. Beginning two or three years ago the agitation for absorption of the P. W. A. by the U. M. W. steadily grew in strength, until about a year ago there was a meeting of the P. W. A. grand council to decide matters. A referendum on the whole question was fleri'led on, and the referendum gave a majority in favor of amalgamating with the American organization. At a subsequent meeting of the P. W. A. that referendum was declared illegal and was rescinded, and some weeks ago the U. M. W. formed a division in Nova Scotia. As'a result of the board of conciliation held in 1907, the Domin on Coal Co. has an agreement with the P. W. A. which will not expire until the end of this year. They have steadily refused to go back on their agreement with the P. W. A. and have declined to recognize the new organization in any way. As a result there are now seven hundred men out work at this company's collieries, all of whom are U. M. A. men. All the P. W. A. men in the Dominion Coal Co.'s employ are at work. U. M. W.

"That this convention is heartily in sympathy with the efforts being put forth by the residents of the St. John River Valley to obtain railway communication between a point at or near Grand Falls and St. John on the said river, and would respectfully urge upon the federal and provincial governments the desirability of granting any easonable aid in connection with this roject." This was seconded by Warden McNally, of York, both he and Chestnut supporting the resolution in strong addresses. The motion passed unanimously.

MONOTON, N. B., March 12. - The Union of New Brunswick Municipalities concluded their two days sessions here last night with a banquet in the Hotel Brunswick at which there were a number of speeches covering various subjects ranging from the possibilities of the suffragette movement in this province to government ownership of telephone systems, and railway construction necessities. D. P. McLachlan, M. P. P., of Chatham, sounded a humorous warning with regard to the suffragettes, picturing strenuous times in store for provincial legislators should women of this province attempt

to emulate those of Great Britain. There were a large number of speakers including Ex-Premier Robinson, Hon. F. J. Sweeney, C. M. Legere, local bank managers, President Chestunion. About seventy attended the banquet and letters of regret for inability to be present were read from a large number, including Premier Haz-Hon. H. R. Emmerson, Senators
