

CITY NEWS

GOING EAST—

Hollis P. Brown, local representative of the Spokane Falls & Northern road, leaves today on a flying trip to Chicago. On his return Mr. Brown will be accompanied by Mrs. Brown and family who have been spending the summer and fall in the east. During his absence Cashier Fred J. Harding will be in charge of the business at the depot.

ST. GEORGE'S CHOR—

Invitations are out for a birthday party to be held in the music studio of Miss Jean Robinson in aid of the choir fund of St. George's church. The choir members extend a most hearty welcome to all their friends and well-wishers. A very pleasing programme has been prepared and light refreshments will be served free of charge.

FROM LARDEAU—

W. B. Pool, manager of the Nettie L. mine in the Lardeau, and James Lade, one of the owners of the Lade group, near Ferguson, were in the city yesterday. They are down with a shipment of gold ore from the Lade group to the Trail smelter, the returns from which will be known in a few days.

PLEASANT EVENT—

J. H. Hungerford, superintendent of the Methodist Sunday school, celebrated a birthday yesterday, and as he is an invaluable official of the church, the members of the Ladies' Aid took occasion to express their appreciation of his services, by tendering a reception in the reading room of the church. The attendance was large and a pleasant afternoon was passed. Mr. Hungerford was the recipient of hearty congratulations.

FINISHING TOUCHES—

The contractor is now fairly started with the finishing touches to the new school in the railway addition. The furnaces have been delivered here, and will be in running order today. The plastering is to be proceeded with at once, after which the wainscoting, flooring and painting will be finished up. These matters will not require much time, and the school will be complete and turned over to the government before the city takes over the public schools.

REHEARSAL—

A very satisfactory rehearsal of the farce-comedy "Confession" took place at the residence of Mrs. Renwick, Kootenay avenue, last evening. A full assignment of the cast has been made by the stage manager, and the public may look forward to an excellent rendition of this most amusing play. After the rehearsal the members were entertained at supper by the kind hosts and a most enjoyable evening was spent.

THROUGH CONNECTION—

One of the advantages urged in connection with the construction of a first-class wagon road to the Velvet mine is that the road would be another link in attaining through connection by road with the Boundary country. With the Velvet road built, it would only be necessary to construct another fifteen miles to connect with the St. Thomas mountain road. From the terminus of the St. Thomas road the government has opened up the old tote road through Gladstone to Cascade, from which point the roads are in excellent condition through to Midway into Washington.

WORK STARTED—

Manager Campbell of the West Kootenay Power & Light company has started work on his contract for the construction of the pole line between Cascade and Phoenix for the Cascade Water & Power company. Operations have been started at the Phoenix end of the line and will be continued down hill to Cascade. The distance is 21 miles, and the right of way for the line is 132 feet in width to permit of two separate and distinct lines being erected, thus guaranteeing as far as possible the continuous service to the mine. The full crew will number 60 men, and about half this many are already at work. E. O. Boswell, of Rossland, is superintendent. John Copp, of this city, has commenced the construction of the power house, for which he secured the contract some weeks since.

GOOD PROGRESS—

Henry Roy, manager of the Silver Hill mine, returned yesterday from a trip to the property. He found that the construction of the tramway that is to connect the mine with the head of the Crawford creek wagon road was making excellent progress. The cable for the tram has been delivered at Nelson, and weighs the trifling of 37,000 pounds, this being only the section of the rope that was ordered from the east. Work has been started on the ore bins at both terminals, and when these are completed the carpenters will start work on the ore bins at the lake front. A couple of feet of snow has fallen at the mine, and the upper end of the wagon road has from a few inches to a foot of snow. It is expected that by the time the tramway and ore bins are completed there will be ample snow for sleighing, and ore will be brought down immediately for shipment to sail.

DEPUTY MINISTER HERE—

W. L. MacKenzie King, deputy minister of labor, arrived in the city last night and is registered at the Hotel Milan. Mr. King will be in the city for some days and will take advantage of the opportunity to gain knowledge as to local conditions affecting his department.

ROSSLAND'S JUDGE—

The action of the authorities at Ottawa in extending the jurisdiction of His Honor Judge Leamy to include as well as Kootenay is most satisfactory from the standpoint of Rossland legal and business men, inasmuch

as it will bring about the permanent residence of Judge Leamy in this city. His Honor leaves for Greenwood this morning for the purpose of completing his arrangements to move to Rossland. He has taken the house at the northeast corner of Le Roi avenue and Georgia street owned by Thomas I. Dunn and formerly occupied by George H. Williams. Judge Leamy will return to the city about the end of the month.

PASSED THE ROAD—

H. C. Killen, provincial supervisor of roads, arrived in the city last night from the Boundary country. En route he remained over at Gladstone to inspect the St. Thomas mountain wagon road, lately completed. Mr. Killen has accepted the road for the government, and states that his examination of the completed work does not lead him to change the high opinion he expressed a couple of weeks ago. He will be in the city for a day or two.

THE V. V. & E.—

Harold N. Weir, C.E., of Brantford, Ontario, is in the city this morning en route home after spending seven months in charge of a section of McCoy's survey party on the V. V. & E. route west of Midway. The party worked west to Oroville, a distance of some 70 miles, in the course of which they drove about 20 miles of preliminary and location lines. The difficult part of the survey having been finished, work has been suspended for the winter.

OFFICERS LEAVING—

A change is being made in connection with the officers of the local Salvation Army corps. Captain and Mrs. Lacey, with Cadet Robinson, who have been in Rossland for the past three months, have received marching orders and will leave the city next week for new posts that are yet to be announced. The departing officers will farewell tomorrow. Staff Captain Taylor will be in the city on the 14th to take over the command pending the arrival of a new commandant. The children's demonstration will be held on Friday next, the last day for the present officers.

EASTERN CONTRACT—

Richard W. Bennett, of the Great Northern Express company, has made an interesting contract with a big Ontario manufacturing firm. He is the owner of a valuable tract of land adjoining the thriving city of Brantford on the northwest. On this property there is a seam of fine moulders' sand ranging in thickness from 12 to 20 inches. Within the last day or two Mr. Bennett closed a deal with the Cock-shutt Plow company, whose factory is one of Brantford's largest industries. The plow company will develop the property on the royalty basis.

FINE SHOES—

R. M. Smith, representing the Slater Shoe company of Montreal, was in the city yesterday in conference with William F. McNeill, the local agent of the company. Mr. Smith had with him a magnificent display of the latest product of the shoe manufacturer's art, of which there is no more up-to-date exponent than the Slater company. A number of novelties are included in the new lines, but it is safe to predict that the latest designs in the old and popular lines of Slater shoes will have a greater demand than the specialties that are manufactured for those who desire extreme fashions in everything pertaining to apparel. The company is now manufacturing an attractive line of footwear for ladies, on the mannish lasts that have become so popular with ladies to the south of the international boundary line. When Mr. McNeill's new stock reaches Rossland the display will be decidedly interesting to those who appreciate the best and latest in shoes. The Slater announcement appears elsewhere in this issue.

ROAD WANTED—

T. Herbert Ren, has returned from the Tammany group in Burnt Basin, where he inspected the work done on the property of the company in which he is an extensive shareholder. During the summer's work a long crosscut was run, which taps two good ore bodies. It has been necessary to shut down the work for the winter because of the cost of bringing supplies to the property over the snow and the fact that it is impossible to get out ore save at a high cost. Mr. Ren believes that the great necessity for the Burnt Basin district is wagon road communication with the railroad; in fact the section will never figure as an extensive shipper until these facilities are secured. A road would be six to seven miles in length over an easy grade and would not be expensive to build. It would serve the Tammany, Contact, Solid Gold, Kettle Aldeen, Cooper, Ennismore and other properties that would have ore to ship as soon as the road was completed. It is probable a strong effort will be made to have the government take action next year.

NOT NEEDED—

A small blaze in the Chinese quarter brought out the fire brigade at 11:25 last night. The trouble was overcome before the department could reach the house, and their services were not required. Rossland's fire record for this fall is remarkable, inasmuch as there has not been a blaze worth chronicling for more than two months, something that has never before been witnessed in Rossland.

SLEIGHING—

Good sleighing can be had on almost any street of Rossland with the exception of Columbia avenue, which is hardly in shape yet for speeding on runners. Coasting was also commenced last night, a party of noisy youngsters spending several hours coasting on Washington street.

"DARDANELLES"

Pure Egyptian cigarettes are fully appreciated by cigarette smokers. The enormous sale of this brand proves it. Sold everywhere 15c per package.

SPORT ON THE ICE

THE VICTORIA HOCKEY CLUB

REORGANIZES FOR THE SEASON.

A STRONG TEAM MAY BE CHOSEN

TO REPRESENT ROSSLAND.

The hockey season of 1901-02 was formally opened last night, when the Victoria hockey club held an enthusiastic meeting and reorganized for the winter. The attendance was large and the interest manifested is an excellent augury of the popularity which the pastime is likely to attain during the approaching season. It is likely that the only senior team in the city this winter will be the Victorias, who organized last night, and that the members of the Rossland team who remain in the city will join hands with a view to turning out one strong seven that would be representative of Rossland's best talent in the hockey line.

Archib B. MacKenzie, president of the club, occupied the chair. In opening he made a neat speech, referring to the past achievements of the organization and predicting for the approaching season greater successes than has been secured in the past. The establishment of a cup competition open to the province was mooted. Mr. MacKenzie stated that no difficulty would be encountered in obtaining a handsome trophy for such a competition, and the idea of making the contest open to the province would substantially increase the interest in the pastime, although the home of hockey was undoubtedly in the Kootenays. The proposition would be gone into further later in the season, but it was only right that the fact should be mentioned with a view to indicating one direction in which the sport would be well to the front.

The report of the secretary-treasurer, W. E. D. C. Lowe, as adopted showed that the club was solvent, in fact a cash balance of \$1.05 lies in one of the banks to the credit of the organization, an announcement that elicited applause.

The election of officers resulted as follows:

A. H. MacNeill, K. C.—Honorary president.
Hon. T. Mayne Daly—Honorary Vice president.
A. B. MacKenzie—President.
Dr. Kenning—1st. vice president.
Max Crowe—2nd vice president.
C. St. L. Mackintosh—3rd vice president.

W. E. D. C. Lowe—Honorary secretary-treasurer.
E. S. H. Winn—captain.
Committee—Messrs. Carmichael, Rea and Walker, with the captain and secretary-treasurer ex-officio.
Several of the new officers addressed the meeting briefly, after which an adjournment was taken.

Blown to Atoms.

The old idea that the body sometimes needs a powerful, drastic, purgative pill has exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and the fame of Bucklen's Arnica Salve, as the best in the world, extends round the earth. It's the one perfect healer of Cuts, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Felons, Aches, Pains and all Skin Eruptions. Only infallible Pills cure. 25c a box at T. R. Morrow and Goodere Bros.
