DAISY AND I.

LOWER ONSLOW NOTES.

July 8th—The day of the Farmerette has arrived in Lower Onslow! Many of the young ladies have done the overalls, and lined up in the "Great Drive" against the weeds.

The crops are looking well; and the recent rains have greatly improved the prospects for a good crop of hay.

The late frost did considerable damage to many of the small crops, such as beans, tomatoes; etc. but in many instances the farmers have been able to re-seed the ground so that the loss will not be great. The straw-berry harvest is beginning; we notice that Mr. McKinlay is showing some fine samples in his shop windows; we understand the prospects are good for a plentiful crop.

A very enjoyable social event took place at the home of Mrs. G. E. Weatherby on the evening of the 27th, of June, when the young people of the community gathered in a surprise party in honor of Miss Ida M. Carver, who has been our efficient and popular teacher during the past two years; and who is about to leave us for a new field of labor.

The ladies came with well filled lunch baskets; and the evening passed pleasantly with games and music. Towards the close Miss Carver, was presented with a handsome manicure set, the gift of her young friends. The presentation was made by the Rev. J. A. MacKean, in a neat address, to which Miss Carver thoughtfully replied, by surprise, gracefully replied, thanking her friends for their kindness, and expressing her deep appreciation of the friendship of the whole community, which had made her stay in Lower Onslow so enjoyable. The school is to be conducted by Miss Clare Putnam of Lower Onslow, whose splendid record in the past promises well for the efficiency of our educational activities during the ensuing term. A number of the older pupils of our school have taken the IX. and X grade provincial examinations in Truro this year. We wish them, one and all, success in passing their respective grades. School did not close any too soon in our section, as a large number of the pupils are now prostrated with measles and chicken-pox, which have broken out in a veritable epidemic among us. We hope our young friends who have had so unpropitious a beginning to their vacation will have it more than made up to them by the good times they will have before vacation closes.

We are glad to welcome to our community a new family on the homestead formerly owned by Mr. G. A. Barnhill. We hope Mr. and Mrs. Peters and their young family will greatly enjoy rural life among us and prove very successful in their farming venture.

The Captain is summing with his family at Elmsdale, and drove over here in a car en route to Meagher's Grant, to see his and your old friend "Dunc" Bayers—Known to fame as "Fiddler"—the versatile correspondent of the Truro News. The captain was anxious to get to the Grant, and one can imagine a pleasant afternoon spent with his old friend, talking over events of 50 years. The "captain" has had a marvelous career. From the time he started his little toy boat in Petepswick Harbor till last winter, when he went after and brought in a load of seals he has had a very active life, and although getting up in years is still active. They used to say that the Captain could take a steamer closer to Sable Island, with safety—than any other navigator. He just seemed to "drop" her in the right place. For years he commanded the old Harlow, running to Cape Breton, and Newfoundland ports. Everybody knew when the Harlow was coming up Halifax Harbor, especially at night, she had a siren, and every dog and cat in the city set up answering chorus.

July 8th—The beautiful showers of the past week gave vegetation a new lease of life and a fair crop of hay is probable and all other crops are doing well.

The Late Angus McKay.

Wednesday morning this community was shocked to hear of the death of Angus McKay, Elder, one of Earlton's most respected citizens. He had been in failing health for some time but this death came quite unexpected.

He was in his eighty third year and spent his long life in Earlton.

He was a part owner of the old Accadia Grist Mills and is well remembered

yet for his courteous treatment of customers. He was a favorite with every body especially the young.

He is the last of his family to join the great majority. His wife predeceased him about thirteen months and their only son, Rev. John D. McKay, Missionary to British Guinea, was drowned in December 1905; and the only daughter, Mrs. John MacBeth, passed away some years ago.

There is left to mourn in the immediate family an only grandchild, John MacBeth, Jr., who took much care of his beloved grandfather since the death of Mrs. MacKay. There also survives a son-in-law, John MacBeth, Sr. who lived with him.

Much sympathy is felt for Mr. MacBeth and his son in this their sad bereavement the funeral on Friday afternoon was very largely attended, the Rev. J. A. Forbes officiating. The remains were laid to rest in the village cemetery.

Mr. and Mrs. David MacBeth of Diamond, Pictou Co., were here Friday attending the funeral of the late Angus McKay.

John A. Sutherland, Central Earlton, drove over the mountain to Truro last week.

Miss Bessie MacKay, who has been in Boston for a number of years arrived home on Friday and will likely spend the summer here. Miss Mary E. MacKay visited friends at River John and Seafoam last week.

Mr. Boren, Toney River, Pictou Co., is spending a week with friends here. Mr. Beck of New Glasgow is spending some time at J. W. Logan's, Earlton Lake.

A number of people drove to the shore Saturday and had a picnic.

Mr. Adam MacDonald, of Summit has a gang of men getting out ship plank, which he delivers at Earlton Village and River John teams take it the rest of the way; a glimpse of old time ship building!

SHIF HARBOR NEWS.

We are sorry to say that one of our young men, who has been in France for some time, working as a Blacksmith, Lorne Parker, has been very seriously wounded, has since died of his wounds. He is the first one from Ship Harbor to make the Supreme Sacrifice. Our heartfelt sympathy goes out to the bereaved parents, Mr. and Mrs. Stillman Parker.

We hear that Alton Russell of Clam Harbor, has passed away in the Hospital at Halifax.

Arthur Webber of Oyster Pond, Jeddore, who has been very sick for several months, passed away at his home on Saturday morning. Mr. Webber was a man who was very widely known and greatly liked. He had a large lumber mill on the lower end of Ship Harbor Lake and employed a large number of men. He will be greatly missed by all who know him. Mr. Webber was a member of Eureka Lodge, A.F. and A. M. Sheet Harbor. A large French Steamer is on the rocks near Egg Island off Clam Harbor. The fishermen in the vicinity are busy salving the cargo. Those who have been on board her claim that she need not have been there; no doubt the proper authorities are investigating the matter.

Work in the ship yards here was closed down for a few days. The water in the Lake was so low that the logs could not be brought down. The logs are now at the mill, the work is proceeding merrily.

The Weatherman in the News prophecies warm weather for this month. It must have got considerably delayed on the way, or else gone somewhere else, for it has not reached here yet, but the stormy weather has. The weather is very cold and backward.

We expected great things from the New Road Act, but have been sadly disappointed. The work has been done, but for the most part the roads are no better than they were before. The roads in the settlements are hardly touched. There has never been so little work put on them. The money has been carried away, probably to build up the roads around the city.
