

THE SPRING FEELING.

Variable Spring Weather Destructive to Weak People.

Even Usually Robust People Feel Run Down and Out of Sorts at This Time - Dr. Williams' Pink Pills Are the Very Best Spring Tonic.

The spring months are a trying time to most people. At no other time of the year do health and strength seem so hard to gain and to hold. You do not feel that you are really sick, but you feel about as bad as you could if you were seriously ill. That feeling ought to be got rid of—and it can be. What you need is a tonic to enrich the blood and free it from the impurities which have lodged in your system during the winter, and which are responsible for your present condition. Dr. Williams' Pink Pills is the only reliable, never failing tonic medicine. These pills make new, rich blood, strengthen the nerves and bring health and vitality to every organ in the body. They are an ideal spring medicine and the best thing in the world for all diseases having their origin in impoverished or impure blood. The case of Miss Belle Corson, White Rock Mills, N. S., is strong corroboration of these statements. She says: "Three years ago this spring I was very much run down. The least exertion exhausted me. I seemed to lose ambition and a feeling of languor and sluggishness took its place. My appetite failed me and my sleep at nights was disturbed and restless. In fact I was in a pitiable condition. After trying two or three medicines without benefit, I began the use of Dr. Williams' Pink Pills and they speedily worked a change for the better and by the time I had used a half dozen boxes I felt stronger than I had done for years. I have since used the pills in the spring and I find them an excellent tonic."

Because of their thorough and prompt action on the blood and nerves these pills speedily cure anaemia, rheumatism, sciatica, partial paralysis, St. Vitus' dance, scrofula and eruptions of the skin, erysipelas, kidney and liver troubles and the functional ailments which make the lives of so many women a source of constant misery. Other so-called tonic pills are mere imitations of this sterling remedy. Get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Sold by all medicine dealers or sent post paid at 50c cents a box or six boxes for \$2.50 by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Particularly Out, Ma'am.

The old colored man had grown gray in service. He had almost become the custodian of the family secrets as he was of the family silver.

The married daughter, who lived in a distant town, had come home for a visit. Callers were coming all day long and old Pompey was kept busy opening the door and receiving the visitors.

One bright morning the ladies of the family went out for a drive. Just after they left the bell rang, and Pompey recognized in the caller a former dear girl friend of his young married mistress.

"Are the ladies in, Pompey?" said the young lady. "No, ma'am, they're all out, ma'am," responded the old retainer. "I'm so sorry I missed them," replied the visitor, handing in her cards. "I particularly wanted to see Mrs. Bell."

"Yes, ma'am, thank ye, ma'am. They're all out, ma'am, and Mrs. Bell is particularly out, ma'am," was the reply that greeted her hearing as the visitor opened the gate and the front door closed.

ANOTHER HAPPY MOTHER.

Tell How Her Baby of Eight Months Profited by Wise Treatment.

Teething time is the critical age in a child's life. Any slight disorder in the stomach or bowels at that time greatly increases the persistence of the little one and may have serious and even fatal results. It is impossible to take too great care of your baby's health during this period, and no better remedy than Baby's Own Tablets is known for the minor ailments of childhood. Among the mothers who have proved the worth of this medicine is Mrs. R. McMaster, Cookstown, Ont. Her little baby girl was suffering from the combined evils of indigestion, constipation and teething, and the mother's strength was severely taxed by the continuous care the child needed. A box of Baby's Own Tablets, however, made such an improvement that Mrs. McMaster is now enthusiastic in their praise. "It gives me great pleasure to testify to the value of Baby's Own Tablets," she writes. "My baby of eight months was much troubled with constipation and indigestion, and was very restless at night. I procured a box of Baby's Own Tablets, and the results were so satisfactory that I have not used any other medicine since. My baby girl is now regular and healthy, and getting her teeth seems much easier, and she rests a great deal better. These Tablets are a great help to little ones when teething."

Baby's Own Tablets are guaranteed to contain no opiate or other harmful drug. They produce natural sleep, because they regulate the stomach and bowels and comfort the nerves. They promptly cure such troubles as colic, sour stomach, constipation, diarrhoea, worms, indigestion and simple fever. They break up colds, prevent croup and allay the irritation accompanying the cutting of teeth. Dissolved in water, they can be given with absolute safety to the youngest infant. Sold by druggists, or sent postpaid at 25 cents a box, by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Free sample sent on application. Mention this paper.

chooses, maybe, the dainty, light bon-corset; she who is given to favoring the Empire style (and for evening wear this is ultra modish) wears the perfectly-boned little "bust-bodice"—the only kind permissible if the Empire lines are to be right—and, for the dame of heavier build, there is plenty of choice—it is to her the corsetiere gives much brain and finger work in order to provide a support both comfortable and becoming.

A VERY S... In a new Sailor Shape, with slighted with lace; round the crown is a front, and slightly towards the back foliage on each side.

You cannot go far wrong if you go to a Parisienne but don't be inveigled into trusting your figure to the tender mercies of any other. A friend of mine lately tried a celebrated and certainly expensive London corsetiere, who shall be nameless, for some straight-fronted corsets, under the innocent delusion that all articles are so designated bore a strong family likeness. I shook my head and thought "she will be a sadder and a wiser woman, but held my own counsel. Later, I asked, "How did you like the S. F. Corsets?" "Well, my dear, for a few days I felt quite numb, but after a time you get used to them!" Now.

With French Corsets you feel the first time you wear them that you have known them all your life; you can bend like a flower in the wind, or pick up a pocket handkerchief from the floor with your teeth! For evening wear I cordially recommend the "corset-yupon," Le Fourreau, hailing from 265 Rue St. Honore, a Princess frock, especially, looks ravissante over it; it is somewhat luxurious commodity, I confess, for everyday wear. Another good model—without the petticoat attachment—is the "Plus que Drole," fastening ingeniously with no lacing behind, which gives such a pretty line to the back.

The Spring Skirts are in the main of the same type as those we have been wearing, only more so. They are still slim above and flowing out at the feet all round in flower fashion. The colors, soft, delicious pastels for the most part, are very enticing, especially in the new face cloths, so soft, so brilliant, so light. Among the favorite hues to choose from, I give the palm to champagne, old ivory, sable, algemarine, and last, and loveliest, the new capucine, a soft rosy red, which has not yet wandered far from its birth place Paris, and being made only in exclusive materials, will not yet be general. These cloths lend themselves to the building of the smartest and dearest of costumes for 5 o'clock and visiting, and may be embellished by an infinite variety of garniture in the way of chenille embroideries, incrustations of Flemish, Irish, or Venetian guipures, the new little zig-zag fancy ribbons, (on the principle of the zig-zag laces we have had a long time), or what is very popular, arabesques and Greek designs worked in soft cashmere and cameo tints, outlined with gold or silver threads. The corsage to go with these may be the blouse-bolero, the three-quarter coat, or, for a dressy costume, give the preference to a Louis

There will be a chance of picking up all sorts of little novelties and objects d'art to take back with you, and I am told things are to be sold as reasonably as on their native soil. Nous verrons!

Then, another Parisian flavor has already been imported, in the shape of a salon opened by the great M. Worth—not at Earlscourt, but in new Burlington street. His numerous English customers have been urging this step, as it will save them many a rough crossing. I believe at the opening of this salon de modes, a week or two back, there was

A Ravishing Show of tempting frocks, and as M. Worth is an Englishman himself, none of us need have patriotic qualms over succumbing to the beautiful creations he offers. The only prod our conscience need give us is on the score of our purses, which may prove unequal to the sums of necessity asked for such seductive triumphs. To those who need have no such qualms, M. Worth will be a real boon, and he is bound to win the success he deserves.

Returning for a second to hats, there are some useful ones being shown for buying and sports in very fine English straw, just as

Supple and Flexible as the Panama, the crown can be in a pretty sort of dimpled shape and the brim made to go up and down, inside and out, every way, awfully nice for travelling or yachting. Then, for the indispensable sailor, there is a smart coronation band, with His Majesty's monogram,

of the moment, when every coronation band, sleeve are mousous feature to have them he tendency is to have them in as plain can be at the and very bouffant below the Had we been shown a mod-leave a year or two back we innocently have seen it in down, for that is really what is like when cut out. A pretty is to make this tight fitting with two rows of transparent tion—with an equal width of tucks between—the same in-aring round the widest part of sleeve, and again at the wrist, all square in keeping. They the neck be ready to witness, appear below this yoke, with fastening concealed under the one side. from their sins to God, we must go to them with tenderness and love. We should ever be ready to witness for Christ, to tell to others what he has done for us. Thoughts. — "Paul was kicking against the goads (1) by refusing the kingdom of God; (2) by resisting the Holy Spirit; (3) by striving against the new impulses that were being awakened in his soul; (4) by opposing the goodness of God; (5) by destroying God's people."

PRACTICAL SURVEY. The conversion of Saul of Tarsus is one of the most important events in the history of the Christian church. It furnishes most positive testimony to the divine origin of the gospel. The account is fully authenticated. On several occasions the apostle repeated the story in detail before public assemblies. Saul's conversion was sudden and thorough. By the power of the gospel he had so bitterly opposed, the whole current and purposes of his life were changed.

Saul the persecutor. Such was the reception into which he had fallen that he verily thought he ought to do things contrary to the name of Jesus of Nazareth. Which things he did, causing the saints to be imprisoned, and when they were put to death he gave his voice against them. At the time of his arrest he was engaged in a systematic course of bitter and cruel opposition to the disciples of Christ. The expression "breathing out threatenings and slaughter" (v. 1) gives some idea of the enraged condition of his mind.

Saul the conquered. Jesus Christ made a personal appeal to this misguided persecutor. "Saul, Saul, why persecutest thou Me?" (v. 4). Saul then awoke to the fact that in persecuting the saints on earth he was persecuting the Lord of Glory. A mighty struggle took place in the mind of Saul. It was useless for him to longer "kick against the goads." Resistance was of no avail; he must yield to a superior power. The lesson was hard to learn, but the crisis had arrived when he must acknowledge the grace and power of Christ or absolutely set himself against Christ and at last suffer utter destruction.

Saul a chosen vessel. "He is a chosen (choice) vessel (instrument)

There is no future pang can deal that justice on the self condemned that he deals on his own soul. — Byron.

RICH BLOOD, STRONG NERVES

Are Necessary to Good Health—Both Result From the Use of Dr. Chase's Nerve Food.

"About one-fifth of all the blood used in the human body is sent direct to the brain, and out of this is created the nerve force, which controls and regulates the action of the various organs. When the blood gets thin and watery, as it usually does at this time of year, the nerves are first to suffer; they are starved and exhausted. Headache, dizzy spells, indigestion, weak action of the heart, languid depressed feelings, weakness and functional derangements of the bodily organs are the result. You can feel Dr. Chase's Nerve Food doing you good day by day, as it strikes at the root of trouble and creates new, rich blood. You can prove that it builds up new tissues and adds flesh if you weigh yourself each week while using it. Mr. J. McFaul, carpenter, 315 Manning avenue, Toronto, states: "I have used Dr. Chase's Nerve Food for acute indigestion, nervousness and inability to sleep, and now, after a thorough test, I am pleased to say that my nervous system has been built up, and I rest and sleep well. I can speak very highly of this preparation, knowing it to possess curative properties which I have failed to find in other remedies." Mrs. M. Colwell, 538 Ossington avenue, Toronto, states: "I think Dr. Chase's Nerve Food a splendid medicine. I was very much run down in health, had dizzy spells, was quite nervous, and was troubled a great deal from indigestion. The use of Dr. Chase's Nerve Food has greatly improved my health generally. My nerves are sturdier, my digestion is good, and I have not been troubled with dizziness of late." Dr. Chase's Nerve Food is for the blood, as well as the nerves. It cures each and every ailment resulting from thin, weak, watery blood. It depletes cells. 50 cts. a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.
