HUGHES STANDS TEST

Declines Republican Nomination For Mayor of New York.

Recognized That His Acceptance Would Embarrass and Impair the Efficiency of the Insurance Investigation and He Accordingly Shapes His Conduct by Answering the Clear Call of Paramount Public Duty.

New York, Oct. 10.—Charles E. Hughes, counsel for the insurance investigating committee, yesterday declined the Republican nomination for Mayor of New York City.

In stating his grounds for refusing the nomination, which was tendered to him by the unanimous vote of the city Republican convention, last Friday night, Mr. Hughes said:

WILFUL CARELESSNESS.

Tragedy At Bracebridge in Which Boy of Eleven Years Shoots a Companion Dead.

Bracebridge, Oct. 10.—The adjourned inquest into the death of Alphonse Duvall was concluded here last night. The decision of the jury was that Duvall's death was caused through the wilful carelessness of Orville Hall, who is eleven years of age.

The accident occurred late on Satur-

day afternoon in the store kept by young Hall's father. Duvall, who was 16 years of age, had called with a com-panion. David Jack, and after making panion, David Jack, and after making a purchase of tobacco, had expressed for one of the larger size. Hall took the tobacco back and then secured a gun, which he pointed at Duvall, saying, "I will shoot you," he pulled the hammer half way back. Pulling the hammer back all the way, with the remark that the gun wasn't loaded, the weapon was discharged. Duvall was shot in the neck, the jugular vein being severed, and he died within twenty minutes. He was employed with the Dominion Linen Mills here.

Average cost per lamp per annum \$42.12 12-100. S42.12 12-100.

It is interesting to note the increase in cost of lamps each year; the increase being mainly due to the repairs on the dynamos. If the city had purchased in the beginning two reliable dynamos the cost of lighting would have been greatly reduced and a better service could have been given. It will be seen from the above figures that the poor service is largely due to defective dynamos. It is impossible to give a good service with defective machinery. In 1901 I recommended in my report the purchase of a new dynamo. Total value of piant October 2, 1905, \$20,126.81.

Ald. Westman moved that the Property committee be authorized to purchase a new dynamo and put the plant in first class condition.

Ald. Edmondson seconded. He said that the reason the lighting had been so faulty was the poor condition of the machinery.

The deputation from the Gas Cowas heard.

Ex-Mayor Manson Campbell stated It is interesting to note the in-

was heard.

Ex-Mayor Manson Campbell stated that if the Council saw fit to give the contract to the Gas Co. they could depend on a good service in every respect. Mr. Campbell pointed out that the figures in Ald. Westman's report were not the accurate ones as any engineer could determine.

Men are prone to speak of ambition as though it meant only the possession of money.

It seems strange that the things that don't seem possible happen so often.

man's report were not the accurate ones as any engineer could determine. Manager P. S. Coate said the figures in the Gas Co.'s letter were taken from the official auditors' reports. Nothing was allowed in Ald. Westman's report for depreciation of vatue of plant or taxes. He gave a very lucid explanation of the figures and position of both company and city. and city.

Ald. Marshall was much impressed

Ald, Marshall was much impressed with the reliability and force of the company's proposition. He feared, however, that, to turn back to lighting by the company would be a retrogressive step and thought the new dynamos should be purchased and a thorough test of civic lighting made. Ald, Potter was disappointed that the Gas Co. figures were the same as their former contract. He anticipated a reduction, Ald, Potter was an ardent believer in municipal ownership and believed in giving the civic plant a full and fair trial. Ald, Austin said he was disappointed in the proposition of the Gas Co. and also in the report of the Property Committee. He thought the figures of the latter were much astray ty Committee. He thought the figures of the latter were much astray and Mr. Coate's figures were much more authentic. He was disappointed in the ptice charged by the Gas Co.

"Let us be honest with ourselves." "Let us be nonest with ourselves, said Ald. Austin," and figure that we, in all probability, will have to purchase two new dynamos instead of one. We are only living in a fool's paradise to figure that we are only paying \$42 per light."

paying \$42 per light."

In answer to a pertinent question from Mayor Cowan, Engineer Jones said the present engine would not give power enough for more than about 15 to 20 additional lamps. Nor was the boiler sufficient for more.

Ald. O'Keefe wanted to arrive at the actual cost to the city, which he figured to be even more than that of

the Gas Co. He thought the Council should get more light upon the matter as the report and figures of the ter as the report and figures of the Property Committee were evidently faulty. Ald. O'Keefe thought sentiment should not be considered. He wanted to know—and the people wanted to know—what the city was now paying for its light. He would like to know if the Gas Co. would consider a proposition from the Council to take over their plant.

Mayor Cowan said he thought the report of the Property Committee was far from complete or accurate. It was a proposal of patch-up that was much to be dreaded and very experimental.
