RECIPROCITY AGAIN.

Ox the sixth instant, Gen. B. Butler, one of the Retatives for the State of Massachusetts, succeeded n having passed and referred to a Committee of both Houses, for investigation during the recess, the follow ing, to us, highly important resolutions :

ing, to us, highly important resolutions : Resolved, by the Senate and House of Representatives of the United States of America in Congress assembled. That the Secretary of the Treasury is authorized and directed to admit into the several Forts of the United States, free of duty, the actual productions of Prince Edward Island, including fish, when accompanied by satis-factory vouchers of the place of productions of the Co-tonial Government of P. E. Island shall provide by law. Ford: Free admission of all productions of the United States to that Island.

lonial Government of P. E. Island shall provide by law. First: Free admission of all productions of the United States to that Island. Second: To infinite to its hays, ports and harbors, for shelter, to obtain supplies, and to refit, free of duty of impost, all American Fishing vessels. Third: Tw give life dission this fin the Waters adjacent to said Island upon such terms that the license for shall not exceed five dollars for any one vessel, or such less sum as may be demanded by the Canadian Dominion as a per centage of, or excise on, license granted by the Co-lonial Government of said Island.

A mere glance at them, will convince our readers that if reciprocial legislation of the nature embodied in the resolutions can be effected between the United States and this Colony. apart from the Dominion of Canada, no effort should be left untried to accomplish it by the Government and people of Prince Edward Is-land. We learn that the subject has been under the onsideration of the Government ; and we are glad to find that the Charlottetown Board of Trade, which we fancied was defunct since the Detroit fiasce, has shaken off its lethargy, and taken up this matter in a vigorous manner. A meeting of the Board was held in the Marine Insurance Office on Monday last, at which a resolution favoring reciprocity with the States, was unanimously adopted, and a Committee of five appoint-ed to correspond with Boards of Trade, and others in terested in the matter in the Union. offering such information as may tend to bring about free trade. We regret that our space does not permit us to enter into

this subject this week, but we may express the opinion, that if the Government and people of the Colony take up the question, prudently and determinedly, we will have reciprocity with the United States next sum-

THE WEATHER AND THE CROPS .- The exhibitating and grateful showers which have fallen at intervals during the past month of unusually warm weather, are not without beneficial results on every description of growing crops. Since we have had the copious showers of Wednesday night last, a decided improvement has set in, and the general aspect of the cereals is such as to give strong hopes of an early and plentiful harvest. The turnip crop has been greatly improved by the rain, and farmers are sanguine that it will prove a good average one. Up to the present, potatoes are doing splendidly, and we may only hope that its rabid enemy, the "blight," will, by the merciful hand of Providence, be totally averted, and a ountiful and abundant harvest ensured for the people, bountiful and abundant harvest ensured for the people. Samples of early potatoes were last market day shown us-the specimons are of an extraordinary size and weight, being on the average 13 oz., in some instances a good deal more. Accounts from different parts of the Islamid, and reliable ones from Summerside, convince us has the ag-riculturist has no reason to complain this year of the "peace, plenty and pleasure." We regret, however, to learn that the hay crop is an exception, giving every in-dication of being light.

We have much pleasure in aunouncing the arrival here, of Mr. Joseph Jacobs, travelling agent for Measrs. Tilton & McFarland, proprietors of the Burglar and Fire Proof Safes, with extra thick walls, which gained such pelebrity at the great Portland fire, a couple of years ago. Mr. J. is prepared to take orders for these safes om our business men, and as we have examined the highest testimonials of their excellence from personal friends in the neighbouring province of Nova Scotia, and elsewhere, we have no hesitation in recom ing this most essential article to the notice of those of ing this most essential article to the notice of these of our readers who need them. Every one knows that no well-conducted business establishment should be with-out a good safe; the very possession of one produces a teeling of security which is of itself worth the price of the articles, and as many spurious imitations of the gam-ine "tin protector " are frequently introduced to the notice of the public, our readers will find it to their ad-nutes or consult M. Jacoba, who is staring at the eft. sult Mr. Jacobs, who is staying at the vantage to consult Mr. Jacobs, who

DROWNED .- A young man named Patrick Quinn, be longing to Monaghan Road, Lot 36, was drowned in Pisquid Creeks on Tuesday, the 14th instant, whilst bathing. The body was recovered almost immediately after the accident; a doctor was in attendance about half an hour afterwards, but his efforts to restore aniwere unavailing.

Travellers risiting St. John, N. B., will find the "Waverly House" the best hotel in the city. The pro-prietor, Mr. John Gathrie, is obliging and attentive, the house is kept in excellent order, the table well supplied with all the delicacies of the season, and nothing is left undone by the proprietor to make the establishment maintain its character as one of the best hotels in the Maritime Provinces.—Hz.
