gracilities.

Had the stockholders come to a decision refuse a charter, even if it were offered hem by the Legislature, it is unquestionable, that in the present circumstances of the county, they would, by so doing, substantially adance their own interests, for a time at least, the Bank would be placed upon precisely the objects of all: the maintener note their own interests, for a time at least, and the Bank would be placed upon precisely the objects of all: the maintenance of the Sovereign, the existing concentium of the sovereign, the existing concentration of the sovereign, the existing concentration of the sovereign of the sovereign, the existing concentration of the sovereign of the s -Would the public interests otected, when bubble Banks to existence, that could

the kind? Would the cou umstances, we ask, advas securely, and without as ruinous convulsive threes riminately, and that would render to difficult, if not impossible, for any one dividual, of number of individuals, to combence the usual business of Banting, who id not possess adequate means? Every one of the United States has some law of the ind—so has England; and what commercial country, except Canada, has not? Some hecks should exist, and we know of no better way in which they could be brought to ear, than by rendering it incumbent upon all banks to conform to certain regulations pro-

nks to conform to certain regulations pro- Constitutional nulgated by the Legislature, and for any new have been pleased to decide upo one to obtain permission, or, in other words, evry.

Ma chaerve that workmen a true of previous to its going into ope practice prevails in some of eratic of the neighboring Sta We have left little room t

t speaks sufficiently plain as t of the institution. But, comest year's exhibit of 7th Nove we or three points of differen re unwilling to pass over. The discounts of the Bank in Novemb 635, amounted to £704,183, and at the same itself will not be left in an unitself will not be this year of upwards of £11,000. Again, that Sir Charles Grey would de he notes in circulation at the former period, mounted to £253,236, at the latter to but afterwards delayed his begage has been put on but afterwards delayed his begage his bega

tated, the Banks would not discount to as Test an extent as they might, we exposed he groundlessness of the charge. The above omparison shows that as far as the b ank is concerned, it has no ecommodation in the sam rculation of its notes was d competition of other Banks. its discounts while the circulontinued to be checked, the undoubtedly have felt the best commodation, but the Bank a fallibly have been a loser.

A comparative estimate of the two statements shows that the coffers of the Bank are
at present better filled, judging by the amount
of lishilities, than they were at the same
period last year. This could only have been
effected at a considerable sacrifice on the
part of the Bank, as the Province has been
drained of specie to some amount, in conse-

at Montreal on the Still insta
