### The Evening Chit-Chat

By MARY GARDNER

To have to wait on a sick person, in addition to doing a man's regular work, is hard, no matter how well beloved the invalid.

Everyone who has ever tried amateur nursing knows that.

But there is one thing even more trying. And that is to be obliged to be waited on by someone who has other work to do, no matter how well intentioned and affectionate the nurse. Everyone who has ever been an amateur nurse must emphatically realize that.

For the sake both of the amateur nurse and the amateur patient, I suggest a few simple rules culled from experience on both sides of the fence.

Before bringing up the tray-stand to the patient imagine yourself eating the meal spread upon it. By doing this you may recall to mind any implement or accessory such as spoon or fork or salt or sugar which you have forgotten. These things seem small to you, but to the patient they mean much. He does not like to ask you to go downstairs for the salt, and yet the absence of it may spoil his egg for him.

If you are obliged to be absent for some time, give your invalid a piece of paper and a pencil that he may write down any request that occurs to him during your absence and not

### Orphans' Collection.

The annual collection for the Belvedere orphans will be taken up on Sunday next at all the Masses at the Cathedral, St. Patrick's, Killbride, Logy Bay and Mount Cashel. The St. Michael's Orphanage, which is conducted by the good Nuns, is worthy of the best consideration of the public. During the last year there has been an increase in the number of children living in the institution, which necessitates an increase of revenue. It is sincerely hoped that Sunday's collection will exceed all previous ones.

### The Shooting Match.

Yesterday at the Rifle Range the McRob prize and Club Junior trophy were shot for. It was anything but propitious for good scoring, it being difficult to see the targets owing to the smoke caused from smoldering turf on the hill, the aftermath of the forest fire. Mr. H. Thomas won the McRob prize on a score of 55, having won from Mr. J. W. Morris on a shoot off. The Junior prize was won by Mr. F. Curran by a score of 69.

### For Poor Asylum.

An old woman of 80 arrived here by the Solway last night from Riplette to go into the Poor Asylum. She has relatives down there but they are in poor circumstances, could not keep her and had to send her to the institution to be looked after. She is very feeble but the stewards on the ship looked after her, and on arrival last night of the ship she was driven to the Asylum.

### Another Vessel Total Wreck.

Assistant Collector LeMessurier yesterday had the following wire from Rames, the vessel referred to being owned by Clement & Co. of Burgeo, and skippered by Capt. Rose.

"Schooner Marion Smith, total wreck here to-day. Nothing of any value saved. Had to get clothes for the Captain. He was in a destitute condition, dripping wet, cold and hungry. The crew are all well, and saved enough to keep them warm."

### Lunenburg Bankmen Arrested.

Some of the Lunenburg bankmen in port here to believe that St. John's, anyhow, is only a big fishing village, that there is very little law or order here and that the police on our streets are there more for effect than utility. Two of them, at least, were disabused yesterday afternoon. These "buffers of the flimsy deep" paraded Water Street all "hit up" and jolted citizens right and left. For some time just the police have had their eyes on these specimens of the Canuck fishermen, their actions warranting such surveillance, and the pair who committed themselves yesterday got little chance to confuse the game which they began and which certain "bush-bar" were inclined to resent with the vigor inherent in them. Const. Tucker and Stamp pounced on the two offenders, one of whom showed fight, but he was quickly phoned and both were rushed to the station and quickly placed behind the bars. One of them was the captain of a bank.

### McMurdo's Store News.

THURSDAY, Aug. 31, 1911.

Sandient, the newest tooth paste, is undoubtedly one of the best. Its constituent preserves and whitens the teeth, purifies and hardens the gums, and leaves a delicious taste in the mouth. It is not merely an elegant tooth paste but a genuine hygienic one. Put up in up-to-date ribbon mouth tubes, it leaves nothing to be desired so far as economy and convenience go. It forms a necessary complement to Sandient Tooth Brush, so high in popular favor, and like the brush will be found to be among the best of the kind. Price 25c a tube.

### Young Chap Incurable.

Two trips ago a young man named Moore, of Brigus, went down to Indian Harbor on the Solway and entered the Hospital there for treatment. He suffers from abscesses in different parts of the body, was pronounced incurable and came back this trip accompanied by his mother. He is very ill, was landed at Harbor Grace and thence taken to his home where everything possible will be done for him.

have to carry them in his head.

Tidy up the room and especially the bed frequently. We all know how cluttered with magazines and books and so forth a sick bed can become. We don't realize how much confusion there. A student of labor conditions says that a bricklayer can't do his work half so well when standing on a cluttered floor. The patient himself may not fully realize the bad effect of the clutter but he suffers from it just the same.

Acquire if you can the fine art of arranging pillows. Most people when called upon to arrange pillows simply plump down a couple at your back and let it go at that. I don't think one can sit up comfortably in bed with less than three pillows. And they should be scientifically arranged to support the middle of the back, the shoulders and the head.

Have your patient sit up in a big easy chair instead of in bed, when possible, as sitting up in bed is very tiring.

Never forget how much longer time seems to the invalid reckoning in terms of pain and snail than it does to you reckoning in terms of activity. Do not insist upon doing things for the invalid when he feels that you are overtaxing yourself. Fretting over this may do him more harm than your service would do good.

And above all things remember that unless you give in love and forbearance and cheerfulness, the value of your service is nil. For grudging service to the sick is quite as cruel as neglect.

### Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

**Dr. Pierce's Favorite Prescription**

**It Makes Weak Women Strong, Sick Women Well.**

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questions, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of these peculiar affections incident to women, but these wanting full information as to their symptoms and means of positive cure are referred to the People's Companion, Strong Medical Advice—1908 copy, and up-to-date Edition, sent free on receipt of 31 cent stamp to cover cost of mailing copy, or, in cloth binding for 50 cents.

### Household Notes.

When giving sticky medicines to children heat the spoon by dipping it for a moment in hot water; then pour in the medicine and it will slip easily from the spoon.

Put pockets on the under side of aprons near the right-hand edge and they will be found just as convenient for use, yet will not catch on door-knobs and get torn.

If eggshells are to be used for clearing coffee, the eggs should be well washed before they are broken, and the shells should be kept in a covered receptacle until needed.

When a small clock is beyond repair do not throw it away, but keep for sick room use. Set the hands each time medicine is given to the hour when the next dose is to be given.

Cut off the bottom of an old water bottle and then cut the rubber into strips up to the curve at the top to make a whip or beater for couches, mattresses, pillows, etc.

To keep white gloves clean in a muff have an adjustable lining of white silk or satin that may be fastened in over the dark lining of the muff with invisible hooks and loops.

Tying keys to door knobs with a loop of narrow ribbon will save a search for a missing key, particularly if there are in the house little children who are fond of taking keys away.

To keep curtains from blowing out the windows, conceal thin iron washers in the hems and corners. It will stand will keep the umbrellas from sticking to the bottom of the jar, which is often broken in this way, and will also absorb the rainwater from a wet umbrella.

The buttons in use for coats and suits are comparatively large and usually disk-shaped, combining several colors in the various layers of material, of which they are composed.

## Man's Dangerous Predicament.

Shortly before 7 p.m. yesterday Sgt. O'Connell and Mackey were apprised that a man was lying on Horwood's eastern wharf in a stupor from liquor. Going there the officers found a young man reclining near the edge of the pier, and so drunk was he that they had to lift him bodily to the station where he could not even utter his name when asked. Had he not been discovered he must have gone overboard and been drowned.
