BOTH URGES ENLISTMENT.

EASTCOURTS, S.A. To-day.  
In an address here, General Botha  
said that South Africa would be un-  
worthy of its free constitution if it  
didn't recognize the call in behalf of  
the Allied cause. To-day the Allies  
are fighting against odds, but I be-  
lieve in God, and he never allows a  
righteous cause to fail. Even if Par-  
son's fell, we will not cease because we  
can't surrender our faith or our free-  
dom. General Botha urged all fit to  
immediately enlist, and also dwell on  
the success of the scheme of obtain-  
ing recruits by substitutes.

REVIEW OF OPERATIONS.

Near Bussieres, north of Chateau  
Thierry, the Americans and French  
delivered strong attacks against the  
Germans and have taken more ground.  
They also captured a number of pris-  
oners and thirty machine guns. On the  
remainder of the front, in France  
and Belgium, the operations have been  
of a minor nature, although south of  
the Somme, the British near Bouzen-  
val have carried out an operation  
which straightened out a nasty salient  
that sagged in their line. As the  
Austrians continue to bring up large  
forces of men behind their lines in  
the Italian theatre, the artillery activity  
and raiding operations are daily  
increasing and throughout the moun-  
tain region from Tonale to the Brenna  
River, and along the lower reaches  
of the Piave River, the guns of both  
sides are engaged in violent duels.  
Numerous surprise attacks have been  
attempted by the Austrians on various  
sectors, but all of them were success-  
fully repulsed. Aerial operations on  
a large scale also are in progress and  
raids in the air are of daily occur-  
rence. Large quantities of explosives  
have been dropped on enemy positions  
by Italian airmen, and a number of  
enemy airplanes have been shot  
down. In the Macedonian theatre  
there also has been an increase in the  
artillery activity, the enemy bombard-  
ing the Allied lines on both sides of  
the Vardar River. On the part of the  
front held by the Serbians, the artill-  
ery fire has been unusually severe. Of-  
ficial announcement has been made to  
the House at London, that 348 officers  
and men, nurses and women of the  
military corps and civilians were  
killed between May 15th and June 1st  
by German air raiders bombing hos-  
pitals, and that 643 persons were  
wounded in these attacks.

AMERICANS CAPTURE MINEN-  
WERFER.  
WITH THE AMERICAN ARMY IN

FRANCE.—The United States mar-  
ines attacked the Germans after day-  
break this morning, and penetrated  
the German lines for about two-thirds  
of a mile, on a six hundred yard front,  
in the Belleau Wood, northwest of  
Chateau Thierry. The Germans now  
hold only the northern fringe of the  
Wood. The Americans captured two  
Minenwerfer, which are the largest  
pieces yet taken by them.

## Latest.

USING MEN LAVISHLY.

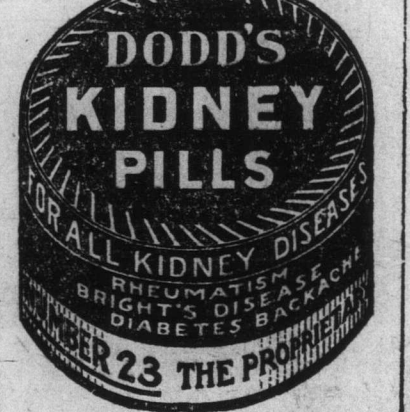

PARIS, To-day.  
Through the lavish use of men and  
material, the Germans fought all day  
Monday, to widen the gains of Sunday  
in the center of the Mont Didier,  
Noyon sector. The total result was  
slight advance on the left centre,  
which nowhere exceeded a mile in  
depth. The primary object of the  
present German operations is to re-  
duce the salient left standing be-  
tween the gains made in the March  
and May offensives but until that is  
effected he cannot proceed with his  
plan for a march on Paris. Both the  
strenuous, and on the whole effective  
resistance of the French, and the  
furious efforts of the Germans, are  
explained by the fact that an enemy  
success would involve the retire-  
ment of the French forces defending  
the line between the Aisne and the  
Marne, threaten both flanks with en-  
velopment, and open to the Germans  
the main road to Paris from Com-  
piègne Villers-Cotterêts and Chateau  
Thierry.

ENEMY LOSSES HORRIBLE.

WITH THE FRENCH ARMY IN  
FRANCE, June 10. (By the Associated  
Press).—Undiminished severity  
marks the fighting between Mont Did-  
ier and Noyon. The situation to-  
night is rather satisfactory for the  
Allies, whose obstinate resistance and  
frequent counter attacks have caused  
great consternation to the Germans.  
Enemy losses under the direct fire of  
the French artillery have been hor-  
rible. Every time the Allies counter  
attack, they found the ground cov-  
ered with German dead. Through-  
out the day the enemy threw his  
greatest pressure towards the centre  
of the Allied line, in an effort to gain  
as much ground as possible, south-  
ward in the direction of Compiègne  
and under the powerful push of the  
continually reinforced enemy col-  
umns, the Allies were forced to give  
a little, but they fought tena-  
ciously for every inch of ground. An  
epic struggle occurred in the vicinity  
of Plémont, where the small garrison  
of dismounted cavalry men possibly  
may still hold out. French soldiers  
who managed to get through the Ger-  
man lines late yesterday, declared  
that before they left the Germans had  
delivered a series of assaults, all of which  
have been repulsed with heavy losses  
for the enemy. Several small vil-  
lages including Marie Belleau and St.  
Maure changed ownership a number  
of times, but this evening were in the  
German hands. At the moment it is  
impossible to say positively that this  
or that place is occupied by the en-  
emy or the Allies, such is the terrific  
nature of the conflict. Ebbs and flows  
occur everywhere. On the Billy  
Plateau fighting went on continuous-  
ly for hours, men tackling man in sin-  
gle combats. The artillery is engaged  
more actively than in any battle in a  
long while. The Germans have been  
able to bring forward field guns in  
considerable numbers, but the French  
artillery fire is most violent and very  
distracting, especially when turned  
against attacking enemy troops.

PEER DIES OF WOUNDS.

LONDON, To-day.  
The Earl of Rosse died suddenly  
at Birrat yesterday. His death was

due indirectly to a wound in the head  
which he received in the European  
war, 1915. He was born in 1873.

WELL DONE, NEW YORK!

NEW YORK, To-day.  
Seventy-five thousand New York  
Irishmen have joined in a nation-wide  
move to combat the tactics of the Sinn  
Feiners, who, led by such men as  
Jeremiah A. O'Leary, and John De-  
vey, have attempted to identify the  
agitation for the freedom of Ireland  
with anti-British propaganda in this  
country. The movement is being car-  
ried on by the United States Irish  
League of New York, which has 106  
branches in New York, and is affili-  
ated with leagues located in Ameri-  
ca, Ireland, Canada and Australia.

AMERICAN TROOPS DOMINATE.

PARIS, To-day.  
The French Government last  
night issued the following statement  
respecting the American troops:  
"With strong will and irresistible  
activity, the American troops con-  
tinue absolutely to dominate the ad-  
versaries they oppose. Detailed op-  
erations which are frequently north-  
west of Chateau Thierry, have an im-  
portance which, thanks to the liaison  
existing between the two armies, is  
of the highest degree and the results  
of which have already been felt."

Hr. Grace Notes.

Nearly all the Labrador men are  
now on their way to the coast.

Mr. and Mrs. E. S. Coffin, of St.  
John's, took a spin over on Saturday  
to spend Sunday with their parents  
Mr. and Mrs. Robert Telford. They  
returned to St. John's by motor car  
last evening.

Mrs. John Gordon, of Water Street,  
east, received word yesterday that her  
son, Pte. William Gordon, of the En-  
gineer Corps of the U. S. Army had  
been wounded in action. No further  
particulars has yet been received.

Mr. Andrew Power, of Carbonar  
Road, is very sick and is gradually  
weakening. An internal ailment of a  
serious nature is the cause of the  
trouble.

Mr. Robert Morris returned from  
Sydney by Saturday night's train, and  
we understand that he will make his  
home here in future.

Mrs. Allan Parsons, of St. John's,  
was in town on Saturday and Sunday  
on a visit to her many friends. Her  
son, Mr. Allan Parsons, has accepted  
a position with the Nfld. Shipbuilding  
Co. here. We are pleased to  
hear of our own young men coming  
back home again. We hope that in a  
very short time many more of our  
Grace boys now working in other  
lands, will see their way clear to re-  
turn and help build up their own Har-  
bour Grace.

Hr. Grace, June 10, 1918. —COR.

Here and There.

PERSONAL.—Mr. G. M. Barr, who  
was visiting Canada and the United  
States on business, returned to the  
city last evening's express.

CARD OF THANKS.—The sisters  
and brothers of the late Michael Kelly  
wish to thank all kind friends who  
were so good to him during his illness  
especially Dr. Keegan, Dr. Carroll and  
Dr. McDonald, and all the nurses of  
the General Hospital, and all who  
sent notes of sympathy and wreaths  
to adorn his casket: Rev. Fr. O'Brien  
(Northern Bay), Mr. and Mrs. David  
Baird, Circular Road; Mr. and Mrs.  
Geo. Knowling, Mrs. J. C. Marshall,  
and Master Alastair McNeill and Rev.  
Uphill, and all kind friends who help-  
ed them in their time of trouble.—adv

Everyday Etiquette.

"I am going to give a little infor-  
mal dinner to a few friends. Will you  
please tell me whether the glasses on  
the dinner table should be placed  
with the stems up, until the guests  
are seated?" asked Aunt Grace.  
"No, it is correct to have the glass-  
es on the table, stems up. They  
should be in readiness for serving,"  
replied her sisters.

## Carey's Men.

Their hearts were not as youth's with  
generous fire  
To give their utmost—wisdom said,  
too late—  
But destiny cried yea to their desire,  
And fearlessly they grasped the hand  
of fate.  
Between the Prussian tyrant and his  
goal  
The line of Britain's army broke—  
and then  
Arose a land's imperishable soul,  
And England's laborers were Carey's  
men.

There was the task to build the roads  
for feet  
On the great march against the power  
of Mars—  
They asked not if their drudgery were  
sweet,  
They only did it, till the holy stars  
Decreed that they should taste the  
utmost  
Of sacrifice's costly joy—and then  
Shouting they leaped exultant to  
their rest,  
And Yankee engineers were Carey's  
men.  
Scabbard swords that God alone can  
know,  
The temper of, we live our days—and  
then  
For each of us, at last, His bugles  
blew,  
Grant us to meet Thy test like Carey's  
men!  
—Amelia Josephine Burr in New  
York Outlook.

Jack Amuses Himself.

WHAT MEN OF THE GRAND FLEET  
DO IN THEIR MOMENTS OF  
LEISURE.

The British matelot in the interm  
of waiting for Mr. Fritz—and the wait-  
ing does seem long—amuses himself  
in a variety of ways. In the Grand  
Fleet the recreation routine is looked  
after as carefully as other orders of  
the day. Concerts, boxing-matches,  
gymkhanas, are held with agreeable  
frequency. Some of these concerts  
are of a decidedly classical bent, and  
I, who pretend to a knowledge of the  
masters, felt quite at sea in "explain-  
ing" a programme of a concert held  
recently on a battle-cruiser. Boxing-  
matches are tremendously popular,  
and the tournaments offer an opportu-  
nity for all and sundry in the vicin-  
ity to make an "evening of it." That  
is of course, if the enemy and other  
exigencies of the Service permit. I,  
in particular, have been unfortunate  
upon which a concert, a sale of work,  
a boxing-match has been held I have  
been on watch! So that one has to  
snatch—as Jack does—any little  
pleasure that offers itself in odd mo-  
ments. His scheme is to organize  
impromptu sing-songs. Some fellow  
—anybody with ten fingers will do—  
"accompanist" on a sort of piano, and  
somebody else with plenty of bark  
does the "rapping."

Let it not be "imagined" that Jack  
cares only for rag-times or comic  
songs. At some of these sing-songs  
the best applause is often given to the  
"straight" singer—i.e., the chanter of  
sentimental or serious songs. A song  
with a bit of love in it goes a long  
way with Jack.

My particular duties necessitate  
my making the round of the Fleet on  
alternative days, and I have been able  
therefore, to watch Jack recreating.  
Often he amuses himself alone. On  
some of the biggest battleships I ob-  
served that skipping was the favor-  
ite pastime. I watched a matelot  
double-skipping for what seemed to  
me to be an interminable time. Once  
I saw an Indian, sitting silently in  
the shadow, watching a sailor at this  
form of amusement on a deserted part  
of the deck. It was a strange picture,  
and I wondered what the philosphical  
East was thinking of the strange,  
hard Englishman, who occupied his  
leisure in this energetic but seemingly  
pointless manner.

After skipping and swimming,  
Swedish exercises. As if Jack doesn't  
get enough of this pastime! I watch-  
ed a man swinging a pair of Indian  
clubs in the late noon on my way  
out to the Queen Elizabeth. On my  
return, two hours later, the man was  
still swinging the clubs, and grinning  
at his "pals," who were chaffing him.  
Another man amuse himself was amuse-  
ing himself by walking on his hands!

The boxing enthusiasts I have al-  
ready mentioned spend every avail-  
able hour in training. I have seen  
dozens of men dancing round the  
deck, lunging out at their own  
shadows.

For the most part, however, Jack  
spends his leisure in singing,  
and sometimes dancing to the merry  
strains of the excellent Marine bands.

ACKNOWLEDGMENT.  
Marshall Brothers wish to ac-  
knowledge the receipt of \$5.00  
conscience money (May 30).

Our Summer Straws are Ready

Smyth's  
ESTABLISHED 1875

Newfoundland  
in the Air.

(From the Boston Herald.)

Does anybody wish to visit England  
for the week-end? Apply to the Do-  
minion of Newfoundland, Dominion  
is the new title of the little old Col-  
ony which is our near neighbor in the  
Gulf of St. Lawrence and a gallant  
fighter in the war. Newfoundland  
dreams a dream which is not at all  
unlikely to come true. The presen-  
tation of an airplane by the Liverpool  
Chamber of Commerce to Newfoundland  
land for service at the front has start-  
ed a train of thought respecting the  
Dominion's availability as the prin-  
cipal station on this side for transat-  
lantic airplane traffic. Sir Joseph  
Outerbridge predicts that its favor-  
able situation with respect to the  
United States and the United King-

dom will secure for Newfoundland  
a very important position in the fu-  
ture of aviation. Lord Morris, the  
former Premier, hopes to see in the  
Island some of the greatest landing  
stations and airdromes of the British  
Empire, and he it is who makes the  
modest suggestion that, instead of  
taking a week or a fortnight to go to  
England, Newfoundlanders will be  
going over there for the week-end.  
These prophets have "dipped into the fu-  
ture" too deeply for present verifica-  
tion of their visions, but they see no-  
thing that can be pronounced impos-  
sible. Only time is required to bring  
the airplane up to the requirements  
of transatlantic travel. Do this and  
Newfoundland, though shivering  
near to Labrador, will be the natu-  
ral spot from which to rise and at  
which to land. Its geographical pos-  
ition fits it to become the main clear-  
ing station between America and Eu-  
ropa.

Grand Lake  
Fire Patrol.

Editor Evening Telegram.

Dear Sir,—Some time ago an article  
presumably from Deer Lake, appear-  
ed in the "Daily Star" signed "Pro  
Bono Publico." I presume, Mr. Editor,  
this is the Latin phrase "for the public  
good." This article in my opinion,  
Mr. Editor, was not intended for the  
public good, but was written to injure  
Maxfield at Little Hr. Deer Lake, as  
Maxfield has charge of the fire patrol  
from South Brook to Kitter's Brook  
East. "Pro Bono Publico" refers to  
school boys being employed on the  
East and West end of Grand Lake, and  
they are a laughing stock for the  
community. The boys in question,  
are the sons of W. T. Squires, the  
general River Warden, and those two  
boys are quite attentive to their  
duties. Previous to this both the  
East and West end of Grand Lake  
division was neglected. I have known  
the Fire Patrol men to leave their  
sections on Monday morning and not  
return to their work until Saturday  
leaving the section men (R.N. Co.) to  
put the fires out while they were up  
Grand Lake caribou shooting. If every  
section in the country was looked af-  
ter as well as Grand Lake Division  
there would not be as much valuable  
timber burnt as there is. I would  
strongly advise Mr. Maxfield not to  
pay any attention to such scribbles  
as "Pro Bono Publico" who is trying  
to stab him in the back. But to go on  
with his work and take on the same  
competent men that he employed last  
year.

Yours truly,  
Grand Lake, June 8th, 1918.

Fertilizer  
Facts for  
Farmers!

You can get any quantity you want from 10 lbs.  
up to 2,000 lbs. Don't wait until were sold out.

OUR PRICES:  
Larva-Cide . . . . \$6.00.  
Potato . . . . . 4.00.  
Bonemeal . . . . . 4.00.  
General . . . . . 3.00.  
We haven't a large stock.  
Get yours to-day.

A Ten Dollar Bill will buy a sack of Larva-Cide  
and a sack of Potato Fertilizer.

The Larva-Cide will kill the immature grubs be-  
fore they grow strong enough to destroy your  
crop.

The Potato Fertilizer will help you to get 15 to  
20 brls. of Potatoes from each brl. of Seed.

If you get ONLY three brls. extra of Potatoes,  
you get your \$10.00 back. Isn't it worth trying?
