Turf followers are agreed that this has been an off-year for the thoroughbreds. Of course, Sysonby has been the star, and, while he may be the greatest colt of the century, yet he has had no serious competition. There has not been a colt that could make him stretch his neck any stage of the road. Without him, the rest of the 3-year-olds look like selling-platers, not real stake horses. About thirty prominent trainers and owners signed the agreement, including Ed Geers, Alonzo McDonald, W. L. Snow, Ed Benyon, Charley DeRyder, T. W. Murphy, John Horvell, James Hogan, A. L. The trainers assert that not only are three-in-five races too severe on their horses in these days of extreme speed, but that there is no advantage in the method to anyone but the men who are in a position to make money on the betting privileges, and they do not feel under any obligation to help out those men at the risk of running their horses in the long races which result under the three-in-five rule.-Canadian Sportsman.
