#### Three Thousand Gathered For Big Outing in Bolton's Grove.

[By Staff Reporter.]

SHETLAND, Aug. 10 .- Never in the history of Shetland did such a large crowd gather for the annual picnic of the County of Lambton, as turned out today in the D. Bolton grove in Euphemia Township, a most picturesque spot on the banks of the Sydenham River. There were fully 3,000 on the

grounds. In addition to the numerous speakers an exceptionally fine musical program was staged. The Petrolea band and or- R.R. 2, Dresden. chestra was in attendance and also the Ionic Male Quartet. A special feature was Harry Bennett, comedian of the successful outling.

Albert Johnston, sheriff of Lambton County, was chairman in the absence of John Farrell of London, who has acted in that capacity on many previous oc-casions. Mr. Farrell notified the picnic committee that he had been mistaken

in the date, and as a result had taken a trip to New Ontario. Must Lower Rates. Must Lower Rates.

Joseph E. Armstrong, M.P., the first speaker dealt with many questions of national interest. One was the transportation problem. He stated that freight rates must be reduced. The Canadian farmer is forced to send his products long distances by reason of the United States putting up a stone

wall against Canadian products. The tariffs on goods imported into the United States are so high that the farmer has o find other markets. Freight rates are

transportation problem to the Canadian farmer is one of the biggest questions which he has to face today.

Rev. A. E. Moorhouse of Windsor also addressed the gathering. He said that although he lives within a few minutes' ride of Detroit he never reads American papers, because they are poisoned with American news. "There is a great deal of American news stories coming into Canada which should be etopped. I like Canadian newspapers. and I always read them." he stated.

Tells of Development.

Ex-Mayor William Nesbitt of Sarnia gave an interesting address on the development of Lambton County, and how it had been evolved from the wilderness by the pioneers.

J. Sproule, warden of Lambton County, in his address, dealt extensively with the good roads policy. "There is no better asset to any county than good treads." he said. The high freight rates

County, in his address, dealt extensively with the good roads policy. "There is no better asset to any county than good roads," he said. The high freight rates was a reason why Lambton County should have good roads. If the roads were good the farmer could use a truck to take his products to the markets and be independent of the railroads.

Urges Economy.
Leslie Oak, M. P. P. for East Lambton, dealt on economy. He stated that he would like to see the good roads policy gone on with, but there is a place to draw the happy medium. The is in debt and this is not the time to be extravagant. He touched on the extravagant ways that things were done in Ottawa. "Six million dollars in on-essential things were spent yearly. This money could be put into the making of good roads, where it would do much more good," he stated.

RAISE \$10.00

Favors Good Roads.

J. M. Webster, M.P., for West Lambton, also advocated good roads. "It deserves the biggest and best consid-

handling the educational problem.

handling the educational problem.

One way to keep the younger folks on the farm was by giving them a good education and entertainment. The younger people were attracted to the cities in the quest of amusement at a terrific loss to the country at large. By giving them entertainment was the only solution to the perplexing problem.

CHICAGO, Aug. 10.—"The tide of business has turned at last, but vertheless it is advisable to keep all hands at the oars." This was the conclusion advanced today by J. Ogden Armour, when addressed the convention of the institute of American Meat Packers as chairman of the finance committee.

Mr. Armour considers packing house wages entirely too high, does not like to pay 7 and 8 per cent for bank loans when he formerly paid 5, and considers that it is time for the meat industry to do some careful figuring, which, he said, had been a novelty heretofore.

"It is the belief of the Institute finance committee that conservation and caution must be the watchwords during the coming year," said Mr. Armour. "The fact that periodical balances are again appearing in black ink ought not to be taken to mean that the red ink, which has had constant use for two years past, can be now thrown away. Just as packing industry was the first to suffer from post-war readjustments, so it is to be hoped that it will lead the procession out of the mountains of adversity into the valley of prosperity.'

by a score of 11 to 10. In the second game Rutherford defeated Glenrae by T. U. WILL ASK The winners in the baby show were Clara Walker, Bothwell; Margaret Bur-nett, Walkerville, and Norma Wicks,

All of committee This committee will on prought long distances. All of committee. This committee will endeavor to raise \$10,000,000 on a plan which relies for its success

Neil McDougal, public school inspec-tor for East Lambton, advocated con-solidated schools, where a part high school education could be obtained without the necessity of the child at-without the necessity of the child attending high school in the city.

The cost of sending one child to a high school in the city for a year would maintain a considerated school. He said that he was very pleased with the way farming communities were handling the educational problem.

Will be an opportunity for them to see will be in full swing at six wells at Fort Norman this fall, according to Wada, rights.

It is said that the success of the plan will have to be tested within a few days, as further delays are difficult.

# What Is Every Mother's Hope

Sturdy, energetic children radiating health, are source of pride and joy to their parents. And their development depends largely on their food.

Children, undernourished and unwisely fed are weak and unhealthy, and many times anemic. Disease easily grasps them, for their undeveloped constitutions are unable to resist the disease germs.

No food will have greater influence in making your children vigorous and healthy than Grape-Nuts. Served with milk or cream, Grape-Nuts is an ideal body, brain and nerve food. It is made from wheat and barley. Grape-Nuts offers a high food value, and it is as delicious as it is healthful

Children find delight in the crisp, sweet ric... ness of Grape-Nota,

A dish at breakfast or lunch for a few days and you'll agree "There's a Reason" for Grape-Nuts. Nutrition and economy combined.
