

FEAR RESULTS OF WASHINGTON CONFERENCE

Australians Look With Apprehension On Limiting of British Navy.

PREMIER VISITING CANADA

Thinks Ideal of White Australia May Not Be Practicable.

Special to London Advertiser.

LONDON, May 31.—"Many Australians looked with apprehension upon the results of the recent Washington disarmament conference, because of the limits imposed upon the British navy. For out in Australia we look upon that navy as our shield and bulwark from all harm."

This from Henry Newman Barwell, prime minister and attorney-general of South Australia, who will make a brief visit to H. N. BARWELL.

Canada en route home. He has reached New York, and from there he will go to Quebec, Montreal, Toronto and across the continent via Canada.

His official business is to interview expert railroad men. South Australia is in the market for a crack railroader to run her state railways. Premier Barwell has a number of English applicants and he wants to confer with Canadians also.

"Australia's apprehension about the British navy limitations," Barwell said further, "was somewhat allayed by the closer and friendlier relations between America and England, growing out of that conference."

"So long as the English-speaking commonwealths are on good terms and work together for peace, I believe peace is assured—at least, in the Pacific Ocean."

"Australians by a considerable majority have set up for themselves the ideal of a white man's Australia. It's a beautiful ideal, but I am not sure that it can be worked."

"I am in entire sympathy with Lord Northcliffe's warning that a great empty Australian continent is both a menace to peace, and an incitation to other and more crowded nations."

"Some of the most fertile lands we have are in northern Australia,"

Cost \$200 For Privilege of Burying Liquor in His Garden At Brantford

Special to London Advertiser.

BRANTFORD, May 31.—That you can't bury your liquor in your garden is now the conviction of Nick Loeckli, because it cost him a fine of \$200 and costs when he was found guilty in police court today of having liquor in an unauthorized place. Evidence given did not implicate his boarder, Naum Pawlick, who stays at 76 St. George street, but showed that a man had been seen digging in Pawlick's garden and whiskey was afterwards found there. Court was held before Magistrate R. Blake. Mr. A. H. Boddy acting for the crown, and Mr. M. W. McEwen for the defence.

Sergt. John Borthwick told of seeing a man come out the rear of 76 St. George street, a house nearly his own residence, a week ago Sunday night. The man had made five trips

to and from the house inside of twenty minutes, each time going down on his knees and apparently digging in the earth.

"It was not a religious ceremony he was going through," asked Mr. W. McEwen for the defence.

"No," he was not at church. "I found these bottles in the garden of 76 St. George street right on the fence line," declared Detective Stanley. Mr. McEwen argued that the two bottles produced were dug up a few feet over the line and really in the adjoining garden. The detective swore the liquor was in the prisoner's garden.

Detective Rogian had accompanied Detective Stanley, and had seen him come from behind Pawlick's barn and carrying two bottles of liquor. The liquor was 115 per cent proof, according to Excise Officer I. Newsome.

OPPOSE PUTTING TAX ON SUGAR

Deputation From Western Ontario Waits On Minister of Finance.

Hon. W. S. Fielding Promises To Give Requests Consideration.

Special to London Advertiser.

HOUSE OF COMMONS, Ottawa, May 31.—Strenuous protests against the proposed tax of almost 1/2 cent a pound on beet sugar was made today by a deputation from Western Ontario, who waited upon Hon. W. S. Fielding, minister of finance.

The deputation, consisting of Harry Gilroy of Alvington, secretary of the Ontario Beet Growers' Association; C. H. Houston, Chatham, secretary of the Dominion Sugar Company; Hon. Geo. P. Graham, member for South Essex; Hon. James Murdoch, member for Kent; B. W. Fansher of East Lambton, and John Drummond of West Middlesex, was introduced to the minister of finance by Archie McCoig, who returned to Ottawa from Chatham for the purpose.

Mr. Gilroy placed the case of the beet growers before the minister, explaining how a tax on the manufactured product would have a serious effect on the farmers and beet-growers who whites cannot thrive. I have always believed it would be wise to develop that section of our continent by means of colored labor.

"We would help develop Australia, we would add to the wealth of our commonwealth and we would increase the food stores of the world."

Mr. Gilroy placed the case of the beet growers before the minister, explaining how a tax on the manufactured product would have a serious effect on the farmers and beet-growers who whites cannot thrive. I have always believed it would be wise to develop that section of our continent by means of colored labor.

BRANTFORD BOY DROWNS IN POND

Firemen Fail in Efforts To Restore Life With Pulmotor.

Cap Floating On Water Leads Father To Suspect the Worst.

Special to London Advertiser.

BRANTFORD, May 31.—The first drowning fatality of the season occurred here this afternoon when little 7-year-old Robert Gibbons, son of Robert Gibbons, 214 West Mill street, fell into the mill race behind the Watson Milling Company.

The lad had been playing in the vicinity of the race and about 3:45 o'clock he went into the house to get some bread. That was the last the lad's parents saw of him, until he was pulled out of the water by the firemen about 4:15 o'clock.

The parents wanted the lad about 4 o'clock and the father went out to where he was last seen and could not find him. Becoming alarmed he rang in an alarm for the life boat to the fire department. When the life boat arrived dragging was at once commenced with no more success than the finding of the lad's cap. This confirmed the theory that the lad had fallen into the water, which is quite deep and a very heavy current runs at the point as it enters into the flume at that point. Despite the extensive pains taken by the firemen, no trace of the missing lad could be found until one of the workmen suggested that the sluice be opened. This was done and the body of the lad floated to the surface.

Just at the time that the body was found, Dr. Brewster and an undergraduate finishing his course at the General Hospital happened to pass and saw the body pulled to the bank. He at once offered his services and although he did all that was possible to resuscitate the lad, the latter had been in the water too long and was beyond aid so far as he, Dr. Brewster, was aware.

Dr. Nicholls and Dr. Bennett were called and they were of the same opinion, that the lad was beyond human aid, despite the fact that the firemen had used the pulmotor for over an hour and used all the oxygen. While the time is not known as to when the accident happened it is presumed that it happened about 4:15 o'clock.

Firemen By and Bremner in charge of Assistant Chief Kingsmill, were responsible for the body being found in the short time that it was and all are deserving of great commendation for the very able manner that they acquitted themselves at the scene of the fatality.

The lad is survived by his father

WORLD NEWS CUT SHORT

LONDON, May 31.—The gold fever is widespread as a result of gold discoveries in the western part of New South Wales, says a Reuters cable message from Melbourne today. The discoveries were reported from Cambelego Township, near Cobarr, and in Lucknow Township, near Orange. A portion of the main street in Cambelego has been pegged out, intense excitement following the finding in a street gutter of a stone showing signs of gold.

NAIROBI, British East Africa, May 31.—For ten days there has been unprecedented torrential rains at Mombasa. The town is flooded and business is at a standstill. The railway to Nairobi has been cut off and the harbor schemes have been seriously damaged. The rainfall one night was ten inches.

GENEVA, May 31.—The Vatican protest against the proposed British mandate over Palestine, as advocated by the Earl of Balfour, was received by the secretariat of the League of Nations today. The document, signed by Cardinal Gasparri, the papal secretary of state, makes its protest on religious grounds, objecting to the alleged privileges position given to Zionists in Palestine. The protest will be discussed at the next meeting of the council of the league. Its contents will not be made public before that meeting.

VEVEY, Switzerland, May 31.—Budapest telegrams to the Geneva newspapers say that the Hungarian police have arrested six employees of Budapest University, accused of trafficking in human corpses.

The accused are alleged to have received about 100 bodies from Paris, Berlin, and Dresden hospitals, which were afterwards sold to Copenhagen and Stockholm. The price of a body sometimes reached as much as 60,000 crowns (nominally \$12,000, now less than \$10).

Several other members of Budapest University were arrested, but temporarily released, so that the work of the anatomical section might not be interfered with.

BERLIN, May 31.—Chancellor Wirth informed the Reichstag today that the government was unable for the present to enter into a public discussion of the reparations situation, as the negotiations at Paris had not yet been concluded. For the time being, he said, the Reichstag would have to confine itself in debate to consideration of the government's policy at Genoa.

"The recent tension about reparations and mother and one small sister. Dr. Fisset, coroner, has not decided whether an inquest will be held or not. The funeral arrangements are not yet completed."

Alberta Man Stunned When His Glass Eye Explodes In His Home

CALGARY, Alta., May 31.—With a report which could be heard three or four yards away, and a feeling that he had been suddenly sand-bagged from behind, H. P. Schlitt of Three Hills, Alta., had the unpleasant and extraordinary experience of having his glass-eye explode, as he was sitting quietly reading in his home after supper.

Mr. Schlitt, although badly stunned, seemed to have the presence of mind to understand what had happened, and immediately dropped his head. This action, with the flow of tears, which accompanied it, evidently washed out any glass which might have remained, as he is feeling no ill effect from the shock.

considered as over," he said. "We must not connect the great aims of European policy with the negotiations going on at Paris. As the Genoa difficulties were overcome, so must the difficulties of the next few weeks be overcome, in order that a settlement may finally be reached which will give the nation the possibility of continued existence."

PARIS, France, May 31.—A mistake on the part of an official at the Mairie at Toulon has led to a Gilbertian situation.

A young woman with the Christian name of Marie Josephine applied for documents for the purpose of getting married. The clerk issued papers in the name of Marie Rose, a woman of the same surname, who was born the same year. No one noticed the mistake and the marriage took place.

In her turn, Mlle. Marie Rose wished to get married, but on applying for the documents was told to her surprise that she was already married. The intimation came as such a shock that she fainted. The point to be decided by the authorities is who of the two women is married. Pending the ruling as to the bigamy laws, any further marriage ceremonies between the parties have been forbidden.

SYDNEY, Australia, May 31.—Great interest has been aroused in the swimming world by the victories of W. Morris, a legless swimmer, of the Sydney Swimming Club, who has twice won the final of a 50 yards handicap event in an open competition.

Mr. Morris was looked upon as one of the Commonwealth's most promising swimmers eight months ago, when he lost both legs in a tramway car accident. As soon as he had sufficiently recovered he determined to swim again.

"The first time I swam after my accident," he said, "friends carried me in and pushed me off, but I surprised them by splashing off at a wonderful pace. The funniest thing of all was that I fancied I was kicking my legs again. When I brought my right arm over in the crawl my left leg rose and gave the regular kick. Of course, it was only imagination, but it seemed so real. In fact, I've only to get waist high in water to feel as I was before the accident."

WINDSOR POLICE UNCOVER PROTECTED "DOPE JOINT"

Italian Proprietor Found Guilty and Fined \$1,000, Which He Will Pay.

WINDSOR, May 31.—One of the best protected "dope joints" in the border cities was uncovered in a police raid Tuesday night, at 447 Mercer street. This morning James Raimonde, Italian, the proprietor, was brought before Magistrate Gundy in Windsor police court, and fined \$1,000 and costs, with the option of six months jail term. He intends to pay the fine late today, he told court officials.

Raimonde, together with Dominik Magnotta, worked a system of selling drugs, with the aid of a sign system. All the drugs were kept on the second floor, which is not connected with the small confectionery store beneath. When a purchaser entered the store he would state the amount of drugs he wished to purchase. One of the men in the store would then press a button and a buzzer would ring on the second floor. In this manner the drug was ordered, in the person with the stock on the upper floor dropping the "decks" of the drug through a hole in the ceiling.

WILL FEEL EXTRA TAX ON CHECKS

Special to London Advertiser.

STRAITFORD, May 30.—The tax of checks as announced in the budget will be an additional expense to the city. Treasurer Lawrence states that the city issues an average of 200 checks every month, varying in amount up to \$250, besides other checks for larger amounts.

Thus an extra tax of two cents on each \$50 will amount to a considerable sum at the end of every year.

REFUSE REDUCTION IN ASSESSMENT

TORONTO, May 31.—The municipal committee of the Legislature today turned down the application of the distillers of the province that their business assessment be reduced.

At present the business assessment is 15 per cent of the regular assessment on property devoted to the manufacture, storage, etc., of liquor for beverage purposes. The assessment on portions of the plant used for alcohol for industrial purposes is at 60 per cent. The distillers asked that the business assessment be made 60 per cent throughout.

LASCELLES TO BE GIVEN EARLDOM

LONDON, May 31.—The king is expected to announce on Friday that Viscount Lascelles has been created an earl, when Princess Mary gives her first dinner dance of the summer season.

Sends Hurry Call for Stomach Pump

W. H. Conners Was in Bad Shape Before Using Andes.

"Really Wonderful," He Says of His Discovery.

So run-down was the condition of W. H. Conners, of Gary, that he had to have his stomach pumped before using Andes. Now he is a well man and in a statement that rings true with heartfelt gratitude he indorses Andes, the medicine that is accomplishing such wonderful results. Mr. Conners said recently: "I have been a great sufferer from stomach trouble for about 10 years, as near as I can remember. My digestion was bad, and I could scarcely eat anything for fear of the awful pain that would be sure to follow. My condition became one of a general run-down nature, and my blood was in bad shape. I had to have my stomach pumped out not less than once each month for more than a year. It always gave me relief; that was all. I became very skeptical as to the merits of anything. I had tried so many medicines without the least benefit that I had no idea that Andes would help me. However, it has. In fact, it has done more good than anything else I have tried. I hope the others who are suffering with stomach trouble as I was will at least give Andes a trial. There is nothing to equal it. My own change is really wonderful. It is truly remarkable the results that were given in this case, as the party only used four bottles of Andes. It put him on his feet again, and he can do as much work as any man in the city. Men and women who have stomach trouble, nervous indigestion, sleeplessness, liver, kidney and bladder disorders, and are badly constipated will find Andes the medicine that they have needed for years. It goes to the root of the disease and removes the cause and in this way gives permanent results. Strong's Drug Store sells Andes, and the Andes expert is here. Call and have free talk—Advt."

"Save a Ten-Spot" On Your New Suit

A look will convince---Values that stick right out at you---that are bringing buyers for one hundred miles to this store ---You can see the savings with the naked eye.
