

JUDGING COMPLETED AT WESTERN FAIR'S BENCH SHOW

WORK OF BLIND SHOWN AT FAIR EVOKES PRAISE

Visitors to Exhibition Commend Articles Made in Institution at Toronto.

FINISHED PRODUCTS

One booth in the new Manufacturers' Building stands by itself, making an appeal to every man and woman that is not easily disregarded. This the exhibition of work by the Canadian National Institute for the Blind on the top floor. Here is a wonderfully interesting exhibit of the work that is being taught and performed every day in the home in Toronto. Brooms, aprons and all kinds of basket work, such as trays, flower baskets, tables and stands and so on are shown.

At one side of the booth is a blind girl from the home making aprons with the use of a special Singer sewing machine such as is supplied to the institution by the Singer company. On every article that comes out of the workshop of the sightless is the famous "Hope" trade mark that is recognized all over the world as the sign manual of blindness and which Sir Arthur Pearson first advocated. Patterned after the great picture of Hope it carries a message of work and faith under the most terrible of human afflictions and the wish of those in charge of the institution is that the little badge may find a home in every London house, before the week is over.

Means of Support.
The workshops for the blind which were started by the institution some years ago were the first in the world where the blind girls might have some real means of support and get away from the absolute dependence on other people which had always been the case before.

In these homes the blind are taught to do their work and are paid full wages while learning so that they are never without funds. When they are proficient they are paid full wages so their is no desire to people the work through desire to hurry. The institution as proof of the success of its methods guarantees every thing that comes out of the factory and has never had any complaints on other people which had always been the case before.

Commend Work.
There are at present 60 girls in the factory in Toronto and the girls who have brought these aprons write to the officials of the institution saying that they are better finished than many they buy from a "sighted" factory.

To examine the trays and baskets and brooms is to realize the truth of this statement. Every smallest part of the work is really finished. There are no rough edges anywhere. The articles are all perfect. The articles and the exhibition, both from a sentimental and a purchasing standpoint, is well worth a visit.

ONLY FOUR IN 48,000 BECOME INTOXICATED

New Record For Fair Week Sobriety Comes to Light.

Only four drunks were picked up by the police out of the 48,000 visitors who attended the Western Fair yesterday afternoon. This is a record to be proud of according to the local police, although it is "not so good" for the cash register on which Police Court Clerk John Moule merrily hummers on "big" days at the Carling street cage for wrongdoers.

There was no cause for argument in the chilly courtroom this morning. All four drunks admitted "right off the bat" that they had imbibed a trifle too freely of the fiery liquid that eventually leads to the police cells. They all paid fines of \$10 and costs.

MICHAEL AUSTIN EXPIRES IN HOSPITAL FROM INJURIES

Michael Austin of Goderich, who broke his neck when he fell from a load of hay recently, died at St. Joseph's Hospital here this morning. Local doctors made a desperate effort this week to save the injured man and many experiments were tried, but all proved fruitless. The body was taken to the Killingsworth undertaking parlors, from which place the funeral will be held next Saturday. The late Mr. Austin will be buried at King's Bridge, near Goderich.

SUFFERS FRACTURED ARM.

While unloading a wagon at the incinerator yesterday, J. Limore, member of the city garbage department, sustained a fractured left arm. He was dumping the cart when the box "sprung" back and hit him. Dr. J. Cameron Wilson attended him.

Dog Show One of Leading Features of Western Fair

All the dogs who have been barking their heads off at The Western Fair Dog Show since Monday night last have been finally judged and the complete list of winners is published herewith.

John Tomlinson of Woodstock received the prize for the largest number of dogs owned and shown by one exhibitor while second prize goes to H. M. Whitsett of London.

The best bulldog in the show hailed from Toronto. His name is "Hefty's Best," and he is owned by Mr. and Mrs. Mills of Toronto. "Hefty" lives up to his name and is about the fiercest looking canine at the show. The Advertiser stated that "Hefty" belies all his looks and is really mild and playful. He acts as guardian to all the youngsters on their block in Toronto and plays with them all.

"Hefty" also won the Ramsden and Monarch trophies for best Canadian bulldog.

Richard Oke's "Dough Boy" won the Carling trophy for best dog of the show. He is a black and tan pointer, while H. Cudmore of London won the silver cup for the best rough collie in the show with "Gold Maid".

The list of winners is as follows:

NEW SALVATION ARMY BRIGADIER.

The pictures show Brigadier and Mrs. MacAmmond of North Bay, who have just arrived in London to take over the work of Brigadier and Mrs. Crichon, who have gone to Toronto. Other changes have taken place in the local staff of the Army, and the organization is being rounded out to cope with the winter season and its arduous duties. Brigadier MacAmmond will have his headquarters in the Citadel on Clarence street.

FAIR USES 1,000 H.P. EVERY DAY TO BE WELL LIGHTED

Manager of Public Utilities Commission Says Fair Service Giving Satisfaction.

BURDENS THE PLANT

It takes 1,000-horsepower per day to light the grounds and buildings at Queen's Park these days, according to E. V. Buchanan, manager of the public utilities commission, which is supplying the power to light the grounds. A great amount of work was done by the commission in getting the grounds ready for the Fair. Fifteen transformers were placed and innumerable lines and wires were strung around the park.

Beside this a staff of emergency repair men is maintained through the 24 hours on the grounds, and in one way and another London's power equipment is carrying quite a burden of work for the present week. "It's rather a good answer," said Mr. Buchanan this morning, "to all pessimists who in 1905 ridiculed the idea that London would ever need 300,000-horsepower, and who treated with scorn the request of the city for that amount of power from the Hydro-Electric Commission. Today the Fair alone is using 1,000-horsepower, and it seems to me that it will use more and more as the year goes by, and the Fair gets bigger."

Apart from the actual use of power by the Fair Board Association, many of the exhibitors and booth renters require extra light, and that all falls on the shoulders of the commission. All the exhibitors, Mr. Buchanan stated, "have expressed themselves to me as thoroughly satisfied with the lighting systems we have been able to install, and Johnny Jones, the owner of the Midway Shows, has said the same thing."
