Ending State of Anarchy in Morocco

Paris, Oct. 2.—M. Tazi, brother of the Moroccan finance minister, who arrived here yesterday from Marseilles oday declared the sultan honestly des-

ired to co-operate with France and put an end to the state of anarchy ex-isting in Morocco, and for that reason had invited the French Minister, M. Regnault, to visit him at Rabat.
M. Tazi added that the sultan, his ministers and the enlightened Moors, under the bitter experience of the past few years, are convinced of the neces

was to France's interest that he be furnished with resources to restore order, which he considered to be the first step towards reforming Morocco. Prohibiting the landing of contraband from Spain and Belgium was, in Tazi's

Mr. De Hart, and is one of the most interesting in the hall. The reputation of Kelowna as a fruit-growing district is too well known to need repetition, and the mere fact that there are a hundred varieties of apples, fifty varieties of pears, and thirty varieties of plums on the exhibit, is sufficient to impress on the visitor the enormous possibilities of this district.

"All we grumble about," said Mr. De Hart, "is that a fruit district such as ours is cannot compete in the same class as a farming district. We cannot be expected to grow wheat to the extent of some of the other districts, or product dairy produce, but on the question of fruit I think we have them all beaten. I would suggest that the exhibition should be divided into two classes, one for fruit and the other for farm produce."

In this section is a sample of Kelowa as a full as a sample of Kelowa to be considered as a sample of Kelowa to be constanted in the chargest list in local criminal contents and the most unusual thing in this country."

This was the beginning and the end of Mr. Justice Irving's reference to the following and the end of Mr. Justice Irving's reference to the following and the end of Mr. Justice Irving's reference to the finding of contraband from Spain and Belgium was, in Tazi's opinion, the second step to be taken, after which ithe international police should be organized.

Paris, Oct. 2.—Leroy Park, genera European immigration agent of the Isthman canal commission, expressed surprise at the recent charges of the Spanish government that Spanish la-borers who have gone to Panama were grossly deceived and maltreated. Mr. Park says he knows of ne complaints.
On the contrary, he has an official report from the Spanish consul at Panama showing that the latter personally investigated conditions there and found the quarters of the laborer healthy and well cared for and the laborers themselves contented. Many are sending for their families, and ap-plicants, upon the advice of acquaintances already there, desire to take their families with them.

Portage la Prairie Tangle Portage la Prairie, Man., Oct. 2.—A peculiar state of affairs has come to light since the new survey of the city has been undertaken, and it will require a special act of the legislature to quire a special act of the legislature to straighten things out. It has been disclosed that buildings to the value of many thousands of dollars are situated in the centre of the public highways, and many of the roadways now commonly used are private property. It will be impossible to observe the new outline, and the aid of the legislature will have to be invoked to allow the existing conditions to continue. It appears that the original errors were caused by improper placing of the surcaused by improper placing of the survey stakes on the north boundary of Crescent lake.
