Protection in England.

The movement in favor of protection is undoubtedly spreading throughout Great Britain. The plan of the Right ern railway." Hon. Henry Chaplin, member of Parliament for Sleaford, for reviving at once the agricultural and manufacturing industries of the country, meets with great favor. His scheme is to impose duties the C, P. R., as there must be need for on foreign manufactures and give the re- increased facilities at those ports. Both Russia, and providing for the cussion of Port sulting revenue as a bonus to the pro- those maritime cities should go to work ducers of wheat. Many of the manu- with some enterprise. One of the ob- Vienna paper says, that Von Moltke drew a facturers are suffering severely from the jections made to St. John was that it picture so dark that the idea of war is almost obstacles put in the way of their trade could not furnish freight enough. It addiversance; that peace between France by the tariffs of foreign manufactures in might be a good idea for the board of the house markets. A yest majority of M. Barthelemy St. Hilaire, in an interview, the home markets. A vast majority of traile of that city to communicate with said that France retreated from Egypt from these have fallen in with Mr. Chaplin's the board of trade of all the cities and an exaggerated notion of the strength of suggestion and the result is a renewed towns in the Province with a view to Arabi Pasha's movement, and would not be energy in the ranks of the protectionists. The land-owners and farmers have since freight to St. John. That other sections in the management of Egypt. He dethe agricultural depression set in several of the Province sympathized with St. years ago, favored a plan similar to Mr. John is evidenced by the fact that when current to the effect that an amicable settle-Chaplin's for relieving the depression ; the question of the location of the win-A majority of the agricultural laborers ter port was in doubt, public meetings and many of the trades' unions have now were held in various parts of the Protaken up the cry for protection. Some vince, at which resolutions favoring St. of the leading fair-traders believe that John as the terminus were unanimously Mr. Chaplin's notion fits in admirably passed. They can give practical effect with their projects, although it is not to their sympathy by sending freight to consistent with the ideas of those fair- St. John for export to Europe. Some traders, who, if they had their own way, of the Halifax capitalists might enwould use protective duties merely as a deavor to centralize the fish trade of temporary expedient for the purpose of breaking down foreign protectionism and enforcing universal free trade. A prominent English protectionist recently stated that Lord Randolph Churchill was strongly urging on Lord Salisbury the advisability of the Tory party adopting measures for protection on the lines indicated by Mr. Chaplin. Lord Randolph Churchill has spoken sufficiently in favor of protection to justify the

above assertion. In September, 1881, in addressing a meeting at Oldham. Lord Randolph Churchill advocated the expected by Easter. The recent confervery policy which Mr, Chaplin now asks ences which Sir William Vernon Harthe government to adopt. At that time court. Mr. Morley, Earl Spencer and Lord Randolph said :-- " Let us tax skill- others have had with Mr. Gladstone, at foreign import which might be perfectly well made at home, and which might employ a large amount of English labor. Let us tax all the government, especially to the tails of the Liberal plan of campaign. well made at home, and which might to the dissolution will be of the Tories own employ a large amount of English labor.
