THE TORONTO WORLD.

SATURDAY MORNING, SEPT 27, 1884. Remember the Bon Marche keeps open till 10 to-night.

LOCOMOTIVE FIREMEN. Change of Name-Increasing the Insurance-The Constitution Revised. At the morning session of the grand lodge yesterday the name of the organization was changed from the "brotherhood

of lecomotive firemen of the United States and Canada" to the "brotherhood of locomotive firemen of North America." Messages of congratulation were received from representativas of the order of railway conductors and the train despatchers' association. A motion was passed recommending the various roads to adopt a more uniform code of signals.

In the afternoon the consideration of the

onstitution and bylaws was resumed.
The only alteration of importance was raising the insurance of members from \$1000 to \$1500. \$1000 to \$1500.

It was expected that the convention would have been brought to a close last night but nothing was accomplished, save the revision of the constitution and bylaws. The proceedings will close to day with the election of grand officers and fix-

ing the place of next year's meeting.

I nevertasted such milk in my life is the universal verdict of those who try a glass of Mary Anne of St. Lambert milk at the Oak ands Jersey Dairy.

The Createst Butter Test in the World. The claim of the Messrs. Fuller, of the "Oaklands Jersey Stock Farm," that their Jerseys are the best in the world, has again been demonstrated by a test of Ida of St. Lambert at Oaklands, when she made in the hands of a committee of the American Jersey Cattle Club the unparalleled amount of 30 lbs. 2 ez. of butter in seven days. The committee see the cow milked each time, they retain the milk and cream securely under locks, keys and seals until it is placed in the churn and remain at the churn until it is made into butter, washed, salted and weighed. This test is over 2 lbs. in excess of any cow in the world in seven days. Mary Anne of St. Lambert still stands the "Queen of all cows" on account of her great year's yield of 867 lbs. 142 oz. of butter in less than a year. A committee from the United States is now testing Mary Anne of St. Lambert in less than during the test "The Oakland Jersey Dairy" will be obliged to subtitute the milk of Ida of St. Lambert in selling it by the glass in place of Mary Anne of St. Lambert's milk. These two cows are sisters. The milk of Ida of St. Lambert is said to be equally as rich as that of Mary Anne, and we advise our readers who appreciate a good glass of milk to call at the "Oaklands Jersey Dairy," the Arcade, Yonge street, and invest 5c, in a glass of her milk. The Greatest Butter Test in the World.

Somebody's Luggage -Years ago, when Charles Dickens, the greatest and best novelist the world ever knew, was in the prime of life he wrote a novelette entitled Somebody's Luggage. novelette entitled Somebody's laggage. His publishers kept the matter quiet, and the dead walls of London were all billed with the label Somebody's Luggage. The English metropolis became excited. No one knew the interpretation of the words which, like those of Belshazar's feast, had been so mysteriously placed on the wall.—DINEEN, THE HATCER, would be a good motern handbill to guide the public as to the "how whea and where" to buy a hat. Oincen has just opened up a new lot of Oineen has just opened up a new lot of genuine Christy silk felt hats. Don't miss the spot—Dineen the hatter—northwest corner of King and Yonge streets.—Advt.

No Dairy in New York equals the Oaklands Jersey Dairy (The Arcade) in its neatness, appointments and cleanliness. The new dairy at Oaklands Jersey Stock Farm is its equal in all respects.

Theodore Rouleau, aged 18, and Hortense Pazo, aged 16, French Canadians of Rochester, who were soon to be married, went to a ball at Dover, N.H., Wednesday night. About-midnight, arm in arm, they left the dance half for home while a heavy thunderstorm prevailed. They had not gone far when Rouleau was struck by a bolt, which penetrated his side from his face down to his feet. He fell doad. The girl had her hair and one arm and hand badly burned. She is alive, but much shocked.

The Clay felephone was tested at Buffalo this week. It is worked with a single battery, the whole arrangement, phone and battery being only about one and a half feet long. The transmitter is of pasteboard, not of Japanese iron, as in other phones, and a carbon beneil just back of the plate makes the electrical connection. The carbon revolves by the vibrations caused by talking, consequently a fresh point is touched by the wire at cach erd. In other instruments there is merely a stationary button of carbon. Successi-I communication was held between Fuffalo and Rochester, over the telegraph wires, a distance of about seventy miles.
