Cheese and Butter

Makers o' these articles, in many instances, do not pay the necessary attention to the quality of the salt they use. Some people think that "salt is salt," and it does not matter where it comes from or who makes it. This is a great mistake, for it is essential that to produce the best Butter or Cheese nothing but the purest salt should be used.

The number of prizes obtained by users of

Dear Sirs—I can with pleasure say a good word in behalf of your Spramotor outfits. I have noted with interest the improvements made in them from time to time, and I think you deserve credit for the enterprise you have shown in making them strictly first-class.

We are using both your large and small sized outfits, and they are giving excellent satisfaction. Your latest improvements, the Spramotor Jr.'s Nos. 1 and 2, are all that could be desired, and I can heartily recommend them to all who have spraying to do.

Yours truly,

H. L. HUTT.
