MR. N. Dyment, Clappison's Corners, Ont., writes: My stock are doing fine. The two calves which won 2nd and 3rd at Toronto and 1st and 2nd at other fairs are doing well, and are fit to head any herd as they are bred for business. I have others from heavy milking and high-testing dams. The test of my herd by the Hamilton milk inspector was 4.6 per cent. of fat. Have recently made the following sales of stock: Royal Chief of Hickory Hill 9287, sire Drummond 2036, dam Nellie Gray 2057, to Steele Bros., Glenboro, Man.; Jubilee of Hickory Hill 9284, sire Ranton Robin 1920, dam Ruby of Hickory Hill 3366, to C. Treverton, Bellville, Ont.; Robin of Hickory Hill to R. Henderson, Rockton, and a pair to John J. Nicholson, Kirkwall, Ont.

A CANADIAN-BRED HEIFER BRINGS A HIGH PRICE.—Messrs. J. M. Gardhouse & Sons, Highfield, Ont., have recently sold to Mr. W. D. Flatt, Hamilton, Ont., three purebred yearling Shorthorn bulls and one purebred heifer of their own breeding. This heifer is of a particularly fine type, and sold for the large sum of \$400. She was sired by Guardsman, and her dam was Verbenas Blossom. Mr. Flatt is to be congratulated in securing this valuable addition to his splendid herd of Shorthorns.

SITUATION WANTED

A competent man, thoroughly experienced in care and management of all kinds of live stock, desires situation as assistant on good stock and general farm. Was brought up on stock farm in Scotland, and has had four years' experience in Canada. Best of references given. Address, "STOCKMAN," care of FARMING, Toronto, Ont.

SOUVENIRS

HAVE AERATED OVENS

SCIENCE IN COOKING

It is admitted that cooking to-day has become a science. If the food we eat is to do the good intended, it must be properly cooked.

The skilful cook has worked wonders by her kill.

But the cook cannot do everything. She must rely on the stove in which the cooking is done. The Souvenir Kitchen Range has combined with science, and given Canadian cooks a Stove scientifically constructed, and on which they can rely at all times. It cannot fail. Souvenirs are sold everywhere. One will last a lifetime.

-The Acrated Oven is the great scientific principle of SOUVENIE -Steves-making them an absolutely perfect cooker..

Stove, Furnace and Radiator Manufacturers

terate Agencies in TOHONTO, MONTREAL and WINNIPEG.

HAMILTON, ONT.

Extract from Annual Report for 1897

of the Consulting Chemist of the ROYAL AGRICULTURAL SOCIETY OF ENGLAND, published in their Journal, 31st December, 1897, page 732:

"It has been necessary to call attention to the fact that under the name of 'slag,' and sometimes even under that of 'basic slag,' have been sold refuse materials of a very different character, and having little or no manurial value. These have not been the product of the now well-known' Basic' or THOMAS process of iron or steel-making, and have contained little or no phosphoric acid such as basic phosphate has. In several instances the purchasers believed that they were buying the true basic slag. It behoves one, therefore, to be careful to stipulate for THOMAS-PHOSPHATE, and to have a guarantee of phosphoric acid contained, and of fineness of division."

We handle the only true

Thomas-Phosphate Powder

sold in Canada; and to be sure of genuine material, see that the bags have our name and address.
