**SILKS, SHAWLS, MANTLES, AND MANTLE CLOTHS,
FURS, DRESS GOODS, LINENS, COTTONS, SHEET-
INGS, BLANKETS AND RUGS, SKIRTS, AND
SKIRTINGS, HOSIERY, GLOVES, RIB-
BONS, HABERDASHERY, &c., &c.**

together with a large variety of FANCY ARTICLES, alike suitable for ornament and use.

 **REGALIA OF ALL KINDS MADE TO ORDER.** 

Strict attention always given to the manufacturing of Mantles and Shirts. A good fit guaranteed.

**WEED SEWING MACHINES,
WITH ALL THE RECENT IMPROVEMENTS.**

They possess the following essential points:—

- 1.—They are all made on the same principle, using the *straight needle* in the perpendicular *needle-bar*.
- 2.—They make the tight *Lock or Shuttle Stitch*, the *only stitch* to be found in first class stocks of clothing, and other work.
- 3.—The tension possesses a mechanical principle of great value.
- 4.—The feed is rotary and more perfect than that of any other machine, accurate in its operations, and will wear a life time.
- 5.—They are free as well from every loose and clumsy attachment as from every complicated contrivance.
- 6.—Are simple in their construction, easily understood, and readily adjusted.
- 7.—Are sure in operation, finishing the work perfectly.
- 8.—Are adapted to a great range of work, and are strong and durable in all parts.
- 9.—Stitch, Hem, Brand, F. H, Cord, Bind and Gather without Baisting.
- 10.—Never Drop Stitches if the needle is rightly set.
- 11.—Run very easily, and as still as the most nervous person could wish.
- 12.—Are kept in perfect order without taking apart or the moving of a screw.
- 13.—Use Silk or Cotton or *Lucas Thread*.
- 14.—Have a positive principle of controlling the thread while making the stitch.
- 15.—Are kept in order free of charge.

THE WEED MACHINES

Are better adapted than any others in the market to the changes and great variety of sewing required in a family. They will sew from One to Twenty Thicknesses of Muscilles without stopping, and make every stitch perfect. They will sew from the Finest Gauze to the Heaviest Cloth, and even to stout, hard Leather, without changing the needle or making an adjustment of the Machine.

Two different sizes of the Machine are manufactured, fitted up, *plain or ornamental*, with or without cabinets, as may be preferred.
