

The Markets.

Barley.

If possible the local market is worse than last week, the demand for malting purposes being very light. There is some demand for feed.

The stocks in store in Toronto elevators are 78,232 bushels as compared with 83,852 bushels in 1893. The stocks at Montreal aggregate 46,631 bushels as compared with 70,380 bushels in 1893. The stocks in store in the United States and Canada is 1,068,000 bushels as against 1,719,000 in 1893, and 1,510,930 in 1892.

AMERICAN BARLEY MARKETS.

BUFFALO. The visible supply of barley, as reported from the principal points accumulation, is 10,508,000 bush., a decrease during the week of 158,000 bush. Stocks in sight now are 661,000 bush. less than at the corresponding date last year. In Buffalo barley in store is but 298,051 bush., a decrease during the week of 95,000 bush. Included in the barley sold during the week, and taken out for consumption was several lots of Canada barley, which had been here all winter, and was finally sold at a low price, lower, in fact, than could have been got for it early in the season. Stocks were further reduced to-day by the shipment of 6,000 bush. to an interior point for malting purposes. Stocks now are 260,000 bush. below the quantity shown at this time last year. There is not much sale stuff in store, and most of the lower grade barley here is held on orders for malsters. Western markets are quiet, stocks limited, daily receipts light and buying demand pretty well ceased, except for seedling and for very inferior grades for feeding.

OWSEGO MARKET.

OWSEGO.—Canada barley very quiet. Prices nominal; no receipts. Stocks in store, 35,000 bush.; shipments for the week, 5,000 bush.
