THE "OPTIMATES" POWER HAMMER

Has no Equal for Simplicity in Operation

It is the Only Power Hammer ever made that the stroke of the ram can be set to travel any distance required between zero and full stroke by the manipulation of the treadle only, whilst the progress of forging is going on.

It is the Only Power Hammer made that will give blows varying in force from a few ounces to the full force of the blow the hammer is designed to strike, without any decrease in the number of blows given.

It is the Only Power Hammer in which the power consumed is in proportion to the work done, therefore effecting a great saving over other hammers.

It is the Only Power Hammer in the world in which the ram can be made to travel the full length of stroke or short strokes for all thicknesses of metal the hammer is designed to forge, without the operator leaving the anvil or stopping the operation.
